HEALTH IN THE PALM OF YOUR HAND

It's as simple as that... getting rid of that headachy, half-feeling that keeps so many people from enjoying life. This condition usually comes from some form of constipation. You can avoid it. "The palm of your hand" refers to the way thousands of men and women take Eno's "Fruit Salt". They pour Eno into the palm of the hand and dash the pure, white powder into a glass of water... and drink the glass. It's a mighty healthful thing to do. Eno quenches thirst, sweetens the stomach, neutralizes acids from foods. Eno frees the intestines from poisonous waste, cools the bloodstream, tones up the entire inner system. Eno is pleasant to take, gentle in action. Every effect of Eno's "Fruit Salt" is beneficial. Begin now to pour health from the palm of your hand. Handy size 50c. Household size 85c.

With The Trotters And Pacers At The Exhibition Track

Continued from page 7 QUEEN, 2:15 1/2, from Halifax, BALBO, PADDY AUBREY, LEON, ROY VOLO JR., BOB O BOY, MARTIN DELL and REAL GREAT, will start, probably others. There is a wealth of material there to put up a good race, and with a big wide home stretch it ought not to be so difficult to get them away as it was on the smaller tracks.

2 YEAR OLD TROT AND PACE Interest in two year olds has steamed up very greatly since the Futurities were started. Prior to that no one expected a two year old to trot or pace in three minutes, and were quite astonished when BUD AUBREY won the 2 Year Old Futurity last fall in a shade better than 2:30.

The 2 Year Old Trot and Pace at the Exhibition has nine entries, and every single one of them will start. They are, we understand, all good mannered, and will perform like old veterans. We predict the 2 Year Old Class will be quite as interesting as any of the program. They are all from Prince Edward Island. For instance there is JACKIE VOLO from Middleton, N.S., and STARRETT VOLO, also from Middleton, N.S. The remainder of the 2 Year Olds, such as HILLY KALMUCK, LONGSET, 2:17, by Longset, although a great many are pinning their faith to PETER S 2:16 1/2, that Tyndall Semple is getting ready at Kensington. Jo Jockelman of Kensington has other ideas on the subject, and believes that HARRY W, 2:19 1/2, by Bud Axworthy, will be first at the pay station. Then there is another trotter that

3 YEAR OLD TROT AND PACE There are ten entries in this class, and at least nine of them will start. They are a very classy bunch, well bred, well trained, and worthy representatives of the trotting and pacing breed.

HOLLY BRITTON, BELLE BRITTON, BONNIE BRITTON and BELFAST are sired by Great Britain, 2:02 1/2, LEFA KALMUCK and TEMPLE KALMUCK by Kalmuck, MAY HOPE by La Coplay, JUNE WORTHY by Al Worthly, and BUD AUBREY, 2:28 1/2, is by Bud Axworthy. He was the winner of the 2 Year Old Futurity last fall. HOLLY BRITTON, BELFAST and ELLIE BRITTON are all Nova Scotia entries, and quite a number of people are coming over to see them perform.

2:25 TROT (MARITIME BRED) There are eleven entries in this class, and nine of them will start. The class of the bunch seems to be PEGGY LONGSET, 2:17, by Longset, although a great many are pinning their faith to PETER S 2:16 1/2, that Tyndall Semple is getting ready at Kensington. Jo Jockelman of Kensington has other ideas on the subject, and believes that HARRY W, 2:19 1/2, by Bud Axworthy, will be first at the pay station. Then there is another trotter that

Great Activity At Exhibition Race Track

Four cars of race horses from the mainland arrived last evening and at present almost every race stall at the Exhibition is taken up. It is certainly inspiring and wonderful for horse lovers to see the many beautiful animals. Morning workouts start at 8 o'clock and continue until 12 noon. Today will be a big day also tomorrow. Most of the fast ones were paraded yesterday including Toll Gate 2:00 1-4, Great Guy 2:02 1-4. More horses will arrive tonight and by Saturday all will have arrived.

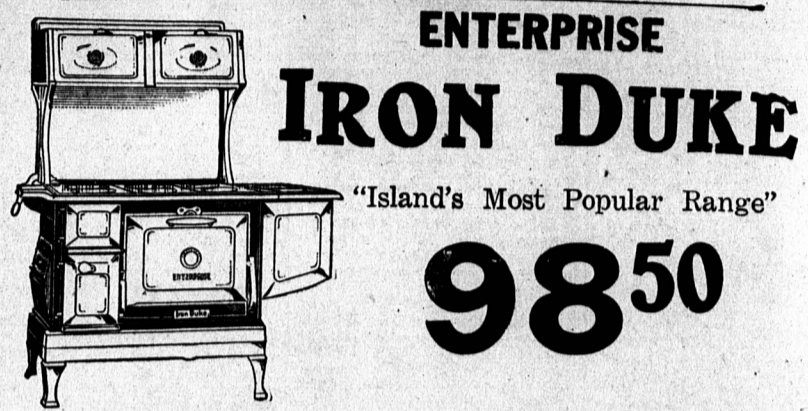

Broadcasting Regulation Redrafted

(C. P. By Guardian's Special Wire) OTTAWA, Aug. 15 - The Canadian Radio Broadcasting Commission's famous regulation 90 appears in new form today, redrafted to the satisfaction of Liberals and Conservatives and bearing the endorsement of the government. It has been a contentious issue between the two parties for a year or more.

As drafted originally by the Commission, the regulation aroused a storm of protest by Liberal members. Its purpose was to prevent abusive, defamatory statements being broadcast but it was worded so it was possible to interpret it as preventing anyone criticising existing legislation. The protests reached a peak in the House last June when Hon. Ernest Lapointe, former Minister of Justice, proposed redrafting of the regulation. They said they feared its effect on opposition speakers during an election campaign who might be prevented from criticising existing legislation, due to its wording.

HOLMAN'S CHARLOTTETOWN - SUMMERSIDE

Former Minister of Marine Alfred Durandau promised to redraft the regulation and in a few days submitted it to the House in its new form. It was approved. Today it was sanctioned by the government. The new regulation reads: "No broadcasting station may broadcast any speech, printed matter or program containing defamatory, libellous or obscene statements with regard to persons or institutions, or statements of a treasonable character or intended to promote change by unlawful means and which might lead to a breach of the peace, or any advertising matter containing false or deceptive statements."

Banks, Agriculturist of the Department of Natural Resources, has announced plans are underway for the establishment of a demonstration farm and agricultural training school at Glendinning's Mount Pearl Park. Glendinning's is considered one of the best farms in Newfoundland and consists of about 70 acres. The plans are only tentative. Young farmers from all districts of the island will be given a year's training on the farm, with probably 10 or 12 being accommodated each year.
