FINE CUT GLASS

Purchasers of cut glass need to make sure that they are getting the genuine article. We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.

Our Cut Glass is fully cut. When the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.

We control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.
