STOCK QUOTATIONS

Stock Markets At A Glance

CHICAGO, April 17 —(AP)— Selling in May rye forced that contract down nearly 5 cents at times on today's trading. Deferred oats deliveries slumped in sympathy with rye while wheat, corn and barley remained bid at ceilings.

WINNIPEG, April 17 —(C P)— Early advances in rye prices were erased in late dealings on the Winnipeg Grain Exchange today and futures finished 1-2—2 7-8 cents a bushel lower.

TORONTO, April 17 —(CP)— Most groups showed little net change today on the Toronto Exchange. The golds had a slight margin on the down side and the base metals were a bit stronger. Trading was in slightly reduced volume at 1,540,000 shares.

Profit-taking on its recent advance cut the price of International Uranium to 1.77 for a net loss of 13 cents. Base metals had an index gain of .11, showing strength in Hudson Bay and Sherritt. Steep Rock closed unchanged at 3.70 after touching 3.85.

Dickenson changed hands in volume of 50,000 shares and advanced 19 cents to close at 1.82. Trading was quite heavy in Aquarius, Armistice, Athona, Aubelle, Duvay, Harricana, Shawkey and Quebec Manitou, all at higher prices.

MONTREAL, April 17 —(CP)— Papers, which have been giving a rising display in trading on the Stock Exchange and Curb Market, today hesitated in the face of profit-taking. At the bell, the group was marked down in the indices. Industrials and golds were also lower. Banks went to a new all-time high and utilities, easier on average at noon, finished higher.

Papers opened fairly firmly but selling developed in the second hour. Softer were Donnacona, which was up in initial deals, Consolidated, Abitibi, International, Fraser, Price, H. Smith, Brown Common and B.C. Pulp. Powell and M and O. gave up lifts. On the upside were the St. Lawrence issues, MacLaren and Great Lakes common and voting.

Dosco was in demand from New York and went to a new high before falling back. Dominion Coal preferred held at a new top.

NEW YORK, April 17 —(AP)— Stocks moved indecisively in today's market after early gains brought them near 15-year peaks.

Steels, retail stores and aircrafts eliminated most of their morning advances and many closed lower. Rubbers and chemicals, slow to start, finished near best levels.

Activity dwindled in the fourth hour and the day's total sales of 1,530,000 shares compared with 1,450,000 Tuesday. The Associated Press 60-stocks average was unchanged at 80.2, still .2 of a point under the February bull market high.

Canadian stocks were fractionally off at the close. McIntyre was the exception with a gain of 1-2. Canadian Pacific and Dome were each off 1-4. Both Hiram Walker and Distillers Seagram slipped 3-4. Lake Shore on the Curb eased 1-4.

BOY BITES SQUIRREL

MOBILE, Ala., April 17 —(AP)— An 11-year-old Negro boy bit a squirrel today—and says he was justified.

Brought to city hospital for treatment of a squirrel bite, the boy was asked by an attendant, "why didn't you bite that squirrel right back?"

"I did," he replied, "I had to make him let go."

THERE ARE REASONS WHY EGGS ARE GOOD

There are 1,665 Registered Egg Grading Stations in Canada and under the Regulations each station is required to employ competent grading help, to use approved grading devices, and to maintain temperatures and general conditions which are not injurious to the eggs. All such stations are privately operated, and are located by provinces as follows:—British Columbia, 90; Alberta, 188; Saskatchewan, 325; Manitoba, 126; Ontario, 590; Quebec, 234; New Brunswick, 17; Nova Scotia, 2; and Prince Edward Island, 67.

Under Dominion Regulations, supported by Provincial legislation to cover the fieldr of purely Provincial jurisdiction, it is required that all eggs bought and sold in Canada must be dealt on a basis of grade. All grading is according to the Canadian Standard Egg Grades and is caried out only in Registered Egg Grading Stations, with the single exception that a producer may grade his own eggs for sale. It is the function of the staff of the Poultry Products Inspection Service, Dominion Department of Agriculture, to check and supervise graling stations including graded returns to producers, to check the grading of eggs as solid in wholesale and retail channels, and to inspect and issue grade certificates for eggs moving in carlots between provinces or to export markets. The quantity of eggs inspected has increased substantially in recent years. For example in 1939 the amount of eggs inspected and for which grade certificates had been issued was 387,818 cases. In 1944, the number had risen to 3,231,443 cases. In each case there are 30 dozen eggs. In the latter years, in addition to inspections, the inspection staff made 15,555 calls on wholesale and retail establishments to check the grading of eggs offered for sale.

Full Information - ?

On the same principle observed in trustee practice — that the beneficiary of a private trust fund is privileged to know how his money is being invested and to have full accounting of income and expenses—shareholders of Commonwealth International Corporation are provided with quarterly reports which include a complete list of the securities owned.

As a result, shareholders can judge for themselves — like the beneficiary of a private trust fund — the manner in which their interests are being served.

Through the purchase of Commonwealth International Corporation shares, the investor in effect, creates his own personal trust fund.

May we forward full particulars?
