

# Wellner's Silver Cream

Is now a necessity in the home. It lightens labor and keeps the silver as it should be.

Bright and clear from tarnish. Two sizes 15c and 25c.

## W. W. WELLNER

Jeweler.

## THE EASTERN GUARDIAN

...IT PAYS to buy in this Province

...THE MORNING DAILY Guardian can be obtained at W. A. Johnston's, Montague.

...THE MORNING DAILY Guardian can be obtained at W. A. Johnston's, Montague.

...T. GORDON IVES is Guardian agent in Montague. His office phone is 18 and residence phone 20.

...SUBSCRIBERS should renew a week or two before the time they have paid for has expired and thus not miss an issue, as all papers are discontinued promptly on expired date.

...FUNERAL TODAY.—The Guardian regrets to record the death of Mrs. A. C. McKinnon, of Coleman, whose death occurred at her summer residence, St. Ann's, on September 30th. Funeral will take place at Summerside to the People's Cemetery on the arrival of the train from the east at 10 a. m. on Wednesday October 1st.

...FARM PURCHASED.—Mr Arthur Channing, one of the British immigrants, who arrived a few days ago from England has purchased from Mr. Bernard Creamer of Souris an excellent farm, about a mile from the town. Mr. Channing, his wife and four children, who accompany him, are natives of Somersetshire, England. Their impressions of the country so far, are very pleasant. Mr. Channing is an experienced dairy farmer and there is no doubt that he will do well on the splendid farm secured by him so convenient to market and railway.

From Yesterday's Evening Guardian. ...HARVESTING is nearly completed, and threshing is now the order of the day. Tyler Ching, Milton Young, Jason A. Ching with their gasoline engines, and Cyrus Kennedy with his old reliable tread power are already at work.

...MACKEREL—Mackerel has been the all engrossing topic for the last week, and record catches have been made, especially by those owning gasoline boats. It appears as if all the mackerel in the Gulf were concentrated in the waters of the south side of East Point, a comparatively small number being taken on the north side as far west as Bayfield, and only one catch as far west as Basin Head on the south side, while there are none at the Magdalen Islands. The last catch was made on the 25th, none for the last two days, and most likely they have left to reappear perhaps on the coast of Cape Breton.

...TOWN IMPROVEMENTS.—The enterprising citizens of Souris are busy making praise-worthy improvements to their town and are doing everything in their power to make it one of the leading towns on the island. The Town Council deserves great credit for the effort they are making to guard against fire. Only a few months ago, they secured, from the Williams Manufacturing Co., St. John, a large six horse power gasoline pump, which, by means of a battery, may be set in motion in less than a minute. This pump which is to assist the hand engines in drawing water from the tanks, is named the "Bull-dog" and has 30 feet of suction hose attached. The Town Council has purchased an additional supply of 200 feet, making in all 800 feet of hose. There are five cement tanks filled with water; a sixth is under construction and will be completed in a short time. The new water tank, near the residence of Mayor McLean has been completed. This is a solid cement tank top, bottom and sides. The work has been done by John F. and Donald Lavie, both of whom have had considerable experience. The Town Council, after inspection, feel assured that they have what they were looking for, a permanent water-tight tank. The excavation work of the new water tank on Chapel street, near M. J. Paquet's residence, has been completed. Mr. Donald Lavie, who has the contract, will begin the cement work as soon as possible.

...ONE CENT per word each insertion for advertising in this column. Cash must accompany order. Minimum charge twenty-five cents.

...MR. ED. D. FEEHAN is Guardian representative in Souris. His phone number is 5, W. L. Dingwell.

...LIGHT HOUSE ERECTED.—Mr. Milton Walsh, foreman of works Marine Department, Charlottetown, is in Naufrague installing a light in the new light house recently erected there. The new light is a large commodious cottage with the lantern in a cupola on the roof. The lantern has a magnificent French flashing lens and the latest up-to-date incandescent burner. The light will be in operation early this month. The need of a light at this dangerous point has long been felt and its installation reflects great credit on the department as well as on the energetic ex-representative, Mr. Fraser, whose interest in his former constituency has never waned, and through whose influence this great boon was secured. The building was erected by the Annandale Lumber Co., and both in workmanship and material is a credit to them.

From Yesterday's Evening Guardian. ...ST. ANN'S, LOT 22.—The schools in this vicinity reopened on the 12th ult, with a goodly attendance of pupils. The teachers engaged are: Millvale, Miss Laura Murphy, St. Patrick's, Miss Katie Walsh, St. Mary's, Miss Zschariach, St. Ann's, Miss 102. John F. McDonald, late teacher of Park Corner, needless to say teachers, Trustees, ratepayers and last but not least the pupils themselves endorse the change made in the school hours which is certainly a move in the right direction. The change made in some of the text books, notably the English History text book is likewise approved by all concerned and it is hoped the educational authorities will continue the good work by relegating Goggins Grammar, Gage's Geography and Hayard Anderson's History of Canada and P. E. I., to the limbo of "things that have been," they being like the book already, "just out of date." The striking examples of "the ridiculous" being employed in effecting "the sublime" and like the pupils of a certain school renowned in song well calculated "to drive learning away." The jubilee exercises which began at St. Ann's on Sunday of last week were largely attended, the clergyman present besides the Pastor, Rev. Father Gaudet being, Father Hanson, Rustico; Rev. Father Renault, Mount Carmel; and Rev. Theodore Gallant, Iona. The farmers are busily engaged at the harvest which is a record one.—Mr. Edward McIsaac has about finished enlarging and remodelling his house which is now second to none in this locality.—Prof. James Murphy of Prince of Wales College spent his vacation at his home in St. Ann's. His brother, Mr. Peter Murphy head salesman for J. A. Macdonald & Co. Cardigan Bridge also spent a few days at his old home recently. The roads in this vicinity, under the capable supervision of Road Master Jeremiah O'Connor are in splendid condition. Mr. Patrick Walsh, late teacher of St. Ann's, has returned to P. W. College to continue his studies.—Mr. James McGuigan has his new residence nearly completed.—Miss Nellie Trainor, housekeeper for Rev. A. McAulay, St. Peter's Bay, who has been visiting her parents at St. Ann's has returned to St. Peter's.—Miss Lottie O'Connor is visiting relatives in Clinton.

...FORTUNE.—Mr. and Mrs. Justice Dingwell, Red House, who have been to Souris on a business trip have returned to their home.—Mr. and Mrs. George Woodgrove to Charlottetown on Tuesday last, where they attended the Exhibition, and returned Thursday after a very pleasant trip.—Mr. Ernest Dingwell, a most progressive farmer, has secured some 200 loads of kelp, which he will make into compost at the first favorable opportunity.—Mr. A. M. Coffin, who holds a responsible position with Jordan Marsh, Boston, and who, accompanied by his wife, is spending the summer at his old home in Rollo Bay, intended leaving Saturday on return to Boston, where he will again resume his duties. Both he and Mrs. Coffin will bear away with them sweet memories of a pleasant vacation spent among friends and relatives.—Mr. Ernest Dingwell is renovating his dwelling house, which when completed will be as beautiful as any in Bay Fortune. Mr. Dingwell is to be congratulated on how neat and tidy everything looks and his place today is a credit to the home.—Ernest Mills, Boston, arrived home Friday on a visit to his father, Mr. John Mills. Mr. Mills is a partner in the firm Fawcsworth, Benjamin & Mills, the largest wholesale house in Boston. He intends spending a few days visiting friends and will probably leave on return about the middle of the week.

...Both departments of the school are making excellent progress. Mr. Dawson, the principal, is very energetic and, although he has been here but a short time, he has already proved beyond a doubt that he is the right man in the right place.—The work on the piers of Fortune Bridge is now practically completed, and, as soon as the spans arrive, the work of placing them in position will be proceeded with.—Harvesting is almost completed in this vicinity. Several fields of wheat are still to be saved but the greater part is safely housed. The grain this year, especially the wheat, is an excellent crop.—Mr. Alfred Burke, is now very busy threshing. Mr. Burke is very obliging, and, with his gasoline engine and first class thresher, can do a job to the satisfaction of everyone.—Mr. R. Dingwell was to Souris Friday in his gasoline boat and returned in the evening.—Miss Francis and Margaret Reid of Boston, Mass., are visit-

ing in Rollo Bay, the guests of their brother and will leave on return shortly.—Miss Elsie Francis, who has been attending the Charlottetown Exhibition and Teachers' Convention, returned home on the express Friday evening.\*

### EASTERN PERSONALS

...Miss Louise McPhee, who has been spending a pleasant visit with friends at Mount Stewart, has returned to her home at Rock Barra.\*

...Mr. John J. McIsaac, who has been spending his vacation at his home in Rock Barra, returned recently to St. Dunstan's College where he will resume his studies.\*

### FOREIGNER STABBED

NEW YORK OFFICERS. NEW YORK, Sept. 29.—When warned that he must cease annoying a young woman sitting near him in a second Avenue Elevated railroad train to-night, an unidentified foreigner became infuriated at the entrance of Sergeant Joseph McEaney and Patrolman William J. Deenen, and drawing a knife stabbed both officers in the abdomen. Sergeant McEaney probably will die. Deenen was less seriously wounded and was able to grapple with his assailant until help arrived and the man was made a prisoner.

### ABSORBINE FOR SWOLLEN JOINTS.

Mr. B. Giles, 243 St. Antoine St. Montreal, P. Q., under date of May 10, 1913, writes: "Have been using ABSORBINE these last three months and am glad since I first used it as it gives wonderful results. I have two blood horses, one horse and one mare. I bought the horse at Blue Bonnets. The man that owned him thought he was finished as he would swell in the joints after a race, and would become stiff for two or three days at a stretch, and since I bought him I have tried many different kinds of remedies that did no good at all. So I thought I would try ABSORBINE and am very glad I did. As a leg wash I think it is the best thing out, and last week my mare got loose and got to the oats, the result was colic well, I tried your Colic and Indigestion remedy with the best results. If any of my friends are speaking about their horses, I say, "Try ABSORBINE, it is a sure cure." Send for free pamphlet outlining method of treatment for your own particular case. ABSORBINE \$2.00 per bottle at all druggists or sent prepaid upon receipt of price. W. F. YOUNG, P.D.F., 141 Lyman's Bldg., Montreal, P. Q.

### MILITARY DAY AT PERRY CENTENNIAL.

LOUISVILLE, Ky., Sept. 30.—Military maneuvers in which the First Regiment and a large number of State troops took part constituted the main feature of Military Day, the second day of the Perry Celebration week. Many thousands of spectators viewed the interesting evolutions and maneuvers of the soldiers and enjoyed the military spectacles which extended over the greater part of the day. Tonight there will be a great torchlight parade. The program for tomorrow includes a reproduction of the historical Battle of the Thames, which is to be enacted by 1500 men in uniform at Cherokee Park.

### CLERK ARRESTED FOR SHORTAGE OF \$20,000.

NEW YORK, Sept. 29.—John C. Schi-knecht, \$20 a week clerk of the Wasburn-Crosby Milling company, who kept two automobiles and a retinue of servants and disappeared two weeks ago when a shortage of more than \$20,000 was found in his accounts is under arrest at Montreal here by a private detective agency. Schi-knecht lived in regal style for about four months. He paid his bills, it is charged, with money obtained by manipulating checks payable to his employers. It was part of his duties to collect such checks daily. Extradition proceedings, it is said, will be started at once.

### FEDERAL GAME LAW BECOMES EFFECTIVE.

WASHINGTON, D. C., Sept. 30.—With the stroke of midnight of tonight the new Federal Game Law, adopted by Congress for the purpose of giving more effective protection to migratory game birds, will go into effect. In accordance with the provisions of the law the Department of Agriculture has published and widely distributed throughout the country pamphlets containing the complete text of the law and smaller circulars with a brief and condensed extract of the most important sections of the law for the guidance of the hunters and of the game wardens and other authorities whose duty it is to enforce the new regulations. By the provisions of the law the United States is divided into two zones, Zone 1 being the breeding zone and comprising the State lying wholly or in part north of latitude 40 and the Ohio River, and Zone 2, the wintering zone, comprising the States lying wholly or in part south of latitude 40 and the south of the Ohio River. Texas, Oklahoma, New Mexico, California, Nevada, Utah and the Southern States are included in the wintering zone, while the other States form the breeding zone.

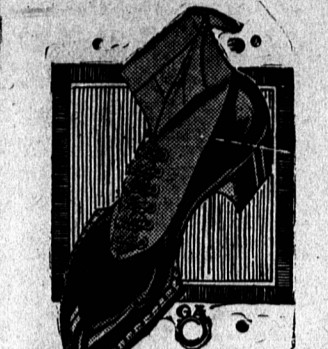

### SHOT EXCHANGED IN WESTERN STRIKE RIOTS.

DENVER, Colo., Sept. 29.—During the last 24 hours excitement has run high in several of the mining camps of the southern Colorado coal fields, where strikers have congregated. In Trinidad volleys of shots were fired back and forth between contending parties at the foot of West Main Street Bridge. No fatalities occurred, so far as is learned. At Walsenburg where about 1,250 miners are located, Arthur Miller, a crippled non-union weigh-boss was set upon by strikers and beaten and driven back when on his way to the Walsenburg mine. Nine guards last night held up at the point of rifles three newspaper men who attempted to go to the Hastings camp. At no time since the strike was called last Tuesday has the feeling between miners and those connected with the company's been so bitter as that which was expressed to-day.

### Secretary of State Pearce Ethelbert Stewart, federal mediator representing Secretary of Labor Wilson and John McLennon, president of the Colorado State Federation of Labor is expected to hold a conference with International Vice President Frank J. Hayes of the United Mine Workers of America at Trinidad to-day.

### Twice Proven Cure for Nerves

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health. There is a message in this letter for thousands of women who are suffering from broken-down nervous systems. Sleepless nights, much irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms. You may not realize the nature of your ailments until nervous prostration comes upon you. But, in whatever stage you find yourself, Dr. Chase's Nerve Food is ready to help you. Mrs. W. J. May, 88 Annette street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I began to use the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well." Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers.

Optometrist 99 Grafton St.

## Shrewd Investors in Fox Companies should carefully examine these Salient Points

- The quality of the stock with respect to (a) fur, (b) pedigree, (c) fruitfulness.
- The ranch manager.
- The costs of the live stock and of the promotion and goodwill.
- The management of the company.

### John R. Dinnis Pedigreed Foxes, Limited.

is a new company with all their stock carefully chosen, mated and now running in their pens. It fulfills all the requirements as to quality of live stock, skill of management, low capitalization and small margin of profits for the promoters. The directors are men of probity. There has never been a company floated with a higher average quality of stock. Government records prove that Mr. Dinnis is without a peer as a stock raiser.

### Money is made when the Foxes are Produced

and Mr. Dinnis has a unique record in this respect maintaining for years an average production of 3.12 per pair ranched with him. One company in his ranch sold 16 pups from three young pairs placed in his charge in 1912.

### Direct Selling is a feature of this company. No fox stock exchange has authority to solicit stock for us as we cannot afford to pay the Middlemen's Profits

The stock is good enough and cheap enough to SELL BY MAIL and thus by cheaper selling, permit the shareholders to secure an advantage. All the young pairs of foxes are capitalized at \$19,000 a pair including the costs of promotion and organization of the company. A two-year old pair of Dalton breeders that have raised eight pups, and are in the same pen for 1913-14, are capitalized at \$28,000.

### Payments

The stock is now selling at \$100 a share, par value, and payments made as follows; 50c on application and 50 p. c. November 15th.

RANCH—Mt. Edward Road, 1 1/2 miles from Charlottetown. OFFICE—156 Richmond St., Charlottetown, (upstairs) ADDRESS—The Secretary.

## John R. Dinnis Pedigreed Foxes, Limited

Charlottetown P. E. Island
