ST. JAMES CHURCH
Preaching yesterday morning on the subject of "Religion and the Home" the Minister, the Rev. T. H. Bussell Somers, M.A., S.T.M., basing his remarks on Deut. 6:6, 7, 8, said, in part, "It is now generally agreed among pedagogues that the continuation in the best way for any education. The situations in a school are 'constructed' usually, and therefore, in part, artificial. The situations in a home may also be 'prepared' (if parents have the initiative to do so) but they are yet 'natural'. The problem of other races is incarnate in the foreigner who visits the home. World affairs arise for discussion through the news that are enlisted that come into the home. The question of manners, of generosity and greed, or of the clash of opinion comes almost inevitably at the dinner table. The art and adventure of living to live is the art and the art of the strong hand carry the burdens of the weak are what the scientists call 'constants' in a home. Prayer is a native mood in a home in the quiet at the day's end. The likelihood is that if real religion is not taught at home it will never be elsewhere. When religion is once more allowed to halloo the home, worship will give a new glow, preaching a new grip, religious education a new birth and a new world a new health and hope."

In the evening the sermon was based on St. Paul's words "Herein do I exercise myself to have a conscience void of offense toward God and men" (Act. 24:16). The music at both services was of a very high order under the capable direction of the Church Organist and Director of the Chorists, Miss Lillian MacKenzie, Mus. Bac.

BOARD OF TRADE
(Continued from page 1)
years the Car-Ferry 'Charlottetown', the most powerful ice-breaker in the world, was specially designed and constructed to negotiate severe ice conditions in the St. Lawrence Straits and had proven successful in keeping up regular communication between the island and the Mainland, thus giving our farmers the opportunity to market their products at all seasons of the year and in addition had taken care of our increasing import freight traffic as well as a fast increasing tourist traffic.

And whereas, in the event of the loss or disablement of the old Ferry 'Prince Edward Island' there is now no ship available to replace it, the Car-Ferry service, particularly in the winter months, and the loss of the 'Charlottetown' is sufficient evidence that such casualties do occur, and that such casualties unfortunately happen to the 'Prince Edward Island' this Province would be left in a precarious position and the opportunity to market their products at all seasons of the year and in addition had taken care of our increasing import freight traffic as well as a fast increasing tourist traffic.

And whereas, the old Ferry 'Prince Edward Island' is now quite inadequate to handle the traffic guaranteed under the terms of Confederation which is a Dominion obligation, not only to supply Prince Edward Island with the means, but to maintain an efficient and adequate transportation service both winter and summer, and all such services as are available to the other Divisions of the Dominion, it is deemed that it is not only to comply with the terms of Confederation, but as an economic war measure of vital importance.

AND WHEREAS, at the Annual Meeting of the Maritime Board of Trade held in Moncton on the 20th November 1941, a resolution was unanimously passed as follows: 'Be it resolved that the Maritime Board of Trade urgently recommend the replacement, as a war measure, of the Car-Ferry 'S.S. Charlottetown', lost at sea, at the earliest possible date, having in mind the economic importance of the interprovincial trade and the maintenance of lines of supply to vital defence and training depots in the Maritime Provinces.'

AND WHEREAS, since the above resolution was passed, the Hon. C. D. Howe, Minister of Maritime and Supply, is credited with the following statement: 'I am fully confident that the 'Charlottetown' can be salvaged. No action has yet been taken to that end because there was no equipment in Canada capable of doing the work. There is such equipment in the United States, but we were unable to get it, as it was in use, but the very first opportunity it is available to us, we will make an attempt to raise the sunken steamer.'

AND WHEREAS, it is also reported on reliable authority that One Million Dollars Insurance, carried on the Car-Ferry 'Charlottetown' for a trip from Borden to Saint John, has been collected from the Underwriters, that up to the present time no attempt at salvage was

Friends learned with regret of the passing of Mrs. Margaret Blanchard, widow of the late Clement Blanchard, which occurred at her home in the city yesterday. Death followed a lengthy illness.

The late Mrs. Blanchard was born at Kelly's Cross 80 years ago and was the daughter of the late Mr. and Mrs. John Monaghan. Ever since her marriage about 60 years ago she has resided in Charlottetown.

A woman of sterling character, she was loved by all who knew her. She was always ready to lend a helping hand to anyone in distress and her passing will be mourned by a wide circle of friends. Her children will cherish the memory of a loving mother and she will be greatly missed in the active interest.

She leaves to mourn a son, Dr. J. E. Blanchard and a daughter, Mrs. Matthew Lea, both of Charlottetown; and two sisters, Mrs. John MacKenna and Mrs. T. E. Hagan, also in this city.

One son, John F., was killed in action at Cambrai in the last war and another son, Fred, predeceased her by seven years.

The funeral will be held from her late residence, Tuesday morning at 8:45 to St. Dunstan's Basilica, thence to the Roman Catholic Cemetery.

Death of Mr. John Wilson

Friends in the city learned with regret of the passing of Mr. John Wilson, retired resident of Charlottetown, which occurred at his home, 29 Upper Prince Street, yesterday morning. He had been ill for some time.

Born in Ayre, Ayrshire, Scotland, 81 years ago, the late Mr. Wilson spent his boyhood there. While still a young man he entered the employ of the Houston Shipping Line which operated between South America and Africa. He was engaged in this work for about 17 years then entered the foundry business in Buenos Aires, South America, in partnership with the late Capt. John Murchison of Point Prim. P.E.I. After spending about 10 years in this business he retired and he came to Charlottetown approximately 20 years ago to live.

He married Catherine Murchison of Point Prim, a sister of Captain Murchison, whom he met in South America.

He is survived by his wife. There were no children.

The private funeral will be held from the MacLean Funeral Home.

ceedings has come to our attention, and if it is not the intention to proceed with salvaging the wreck steps should be taken immediately to proceed with the construction of a new ship.

AND WHEREAS, the Charlottetown Board of Trade, in going on record as demanding immediate action, would respectfully point out that the Dominion Government will be held responsible for all losses sustained by the Province as a result of failure to fulfill the services guaranteed to Prince Edward Island.

THE BAPTIST CHURCH
As a part of the series of sermons by the Rev. I. Judson Levy on the life of Jesus as portrayed by Saint Mark, the morning sermon dealt with "The Healing Ministry of Jesus." Almost immediately after his teaching in the synagogue at Capernaum he comes to the home of a disciple and finds one ill "and he came and took her by the hand and lifted her up and immediately the fever left her."

There have been many explanations offered of the healing miracles of Jesus, none entirely satisfactory. Perhaps we spend too much time seeking explanations, not enough in finding the message from the mission of healing. The healing ministry of Jesus reveals the love and sympathy of God and His concern for mankind. One of the world's problems is that of sickness and suffering and always was it one of deep concern to the Master. Through his ministry he came into contact with the crippled and blind, the sick and mentally disturbed as well as the mentally and physically sound and in his gracious dealing with all such conditions he reveals the attitude to God whose representative and interpreter he is. Through the ministry of healing is manifested the great place of faith in life. There are very few miracles where Jesus does not mention faith. Where simple, perfect, absolute trust existed the conditions for cure were established, and it is noted that such faith was an essential. Saint Mark tells us that the miracles were followed by fame and it is interesting to note as we follow this gospel that Jesus repeatedly asked those restored to health should not make report of it. Jesus did not regard healing, great as it was, as the most important part of his mission, his good news of the Kingdom of God, the living expression of God the Father.

The anthem of the morning was "Brother James' Air (Jacobus). The Church School met at 2:30 p.m. with its service of Bible study. At the evening worship service at 7 o'clock was marked by a notable sermon by Mr. Levy on "We Would See Jesus." The evening anthem was "Comfort O Lord" (Crotch). The Communion of the Lord's Supper was observed at this service.

port were thrusting toward the Latvian border from Kholm 80 miles away. The German had been disclosed from 13 populated places in the last 24 hours, losing 1,000 dead and wounded.

3. After a silence of many days on the Crimea front, Red Army dispatches said several important hills overlooking Sevastopol, the naval base, had been occupied, and that the Soviet front had moved up half a mile in the last two days.

It was on the southern, or Ukraine, front, however, that the greatest events evidently were taking place.

There still was no explanation of how the Russians had suddenly reached Berestovaya, 115 miles west of Taganrog, a success which was reported Saturday night by the army organ Red Star.

"We are not announcing the capture of a single village, town or city until after we are sure the Germans know of its fall. In this way their cut-up, out-flanked regiments are suffering from even more confusion."

This authority indicated that huge slices of German-held territory miles deep have thus been softened for capture, and that at least two or three important cities which on the maps appear in German hands actually have fallen or are in the process of falling.
