## and PRINCE COUNTY CHRONICLE

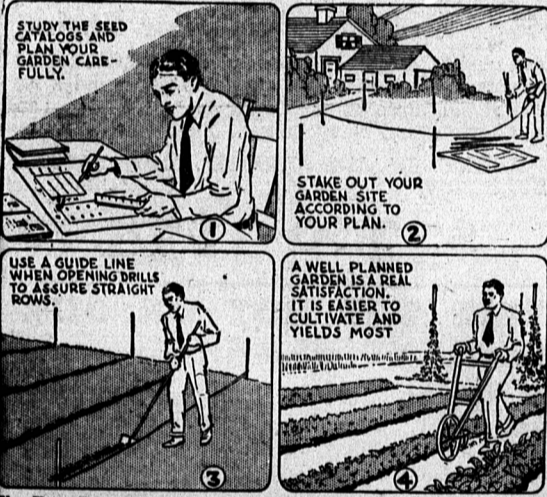

Seek to Block War

Louis Felix Maurin, French minister (left), chatting with Premier Pierre F. Andin, just before Germany plunged Europe into a near-war crisis. In a speech before the Chamber of Deputies, March 21, Maurin said French troops had been removed from the Italian border to vital positions

near Germany's border. He also revealed the French general staff had plans all ready in case of war. Premier Flandin, trying to curb Adolf Hitler's army program, received an overwhelming vote of confidence in the Senate after he had denounced re-armament.

### Planning and Planting the Vegetable Garden

**STUDY THE SEED WHEN OPENING PLANNING YOUR GARDEN CAREFULLY.**

**STAKE OUT YOUR GARDEN SITE ACCORDING TO YOUR PLAN.**

**USE A GUIDE LINE WHEN OPENING ROWS TO ASSURE STRAIGHT ROWS.**

**A WELL PLANNED GARDEN IS A REAL SATISFACTION. IT IS EASIER TO CULTIVATE AND YIELDS MOST.**

**The Four Essentials of Good Gardening.** There are many ways in which plants may be grown. Beginners should not assume that practices which are nowadays usually followed constitute the only way. They are merely what experience has proved to be, in most situations, the best way.

While many vegetables will grow if the seed is broadcast over well-spaced beds, the crop is improved and the work of cultivating and caring for the plants immeasurably reduced if the seed are sown in straight rows. Don't think this means a wavy or zigzag row. Take the trouble to stretch a line, and mark the row with exactness; it will save hours when the time comes to push a wheel hoe down the aisle between the rows.

Rows running north and south are best to let sunshine reach the soil, after the plants are well grown. Distance between the rows may vary considerably. In small gardens, half fed, rows of low-growing crops may be as close as 6 inches. The best distance for crops not exceeding 2 feet in height in 18 inches, which enables you to cultivate each aisle in one trip with a wheel hoe. Seed catalogs usually state the space which each crop needs. These are relative rather than exact directions; you may vary them somewhat to fit your special needs, but remember that crowding your crops may reduce the yield.

Planting in hills does not mean in elevations, unless you live in a section of heavy rainfall. It means a series of spots, evenly spaced, at each of which several seeds are sown, as contrasted with the continuous row which is termed a drill. Vine crops are usually sown in "hills," and they need room to spread.

Plan your garden so that early sowings are made at one end, and the rows are added in regular order as planting proceeds, so that the planted area is always complete without vacant space. This simplifies cultivation, and irrigation.

Remember that to sow in straight rows, to thin out properly so your plants have room to grow, to cultivate faithfully so that weeds never grow, and protect your plants against insects and diseases—these four points carefully observed will make your garden one of professional quality.

### Insulin As Stimulant To The Appetite

SANTA BARBARA, Calif., April 2.—The use of insulin as a stimulant to the appetite, particularly for underweight children, was recommended to the California Medical Association by Dr. E. Kost Shelton.

Famed hormone, developed originally at Toronto for the treatment of diabetes by Sir Frederick Banting and Dr. C. H. Best, also has proven valuable, Dr. Shelton reported in combating a wide range of human ailments. "From the intelligent application of insulin," he stated, "benefit can be secured for persons suffering from tuberculosis, mental difficulties, narcotic addiction, the various types of anemia and kidney and other disorders."

### Seek Exemption Of Spies From Punishment

(A. P. By Guardian's Special Wire) PARIS, April 2.—A knotty legal problem was handed the judges trying Mr. and Mrs. Robert Gordon Switz, East Orange, N. J., on charges of espionage as Public Prosecutor Charles Hamel today asked their exemption from punishment, because they revealed working of the alleged "spy ring" to which they belonged.

The difficult question up to the judges, it was understood, was how to work the verdict so as to take into account the Switzes' confession and at the same time ensure their escaping punishment.

Many of the secret trials of the 20 espionage defendants including Benjamin Berowitz of Montreal, are progressing, buzzed with rumors that the Switzes were estranged, based on an apparent snub of his wife by Switz in the court today.

Mrs. Switz smiled affectionately at her husband and grasped his hand. Switz, witnesses said, appeared to ignore the gesture, keeping his back turned.

### HOCKEY

**MARSHFIELD DEFEAT DUNSTAFFNAGE 3-1**

The Marshfield Maple Leafs accepted the Dunstaffnage challenge and defeated them 3-1 in an exhibition game of hockey played at the Arena Rink, Thursday, March 28th.

The game got away on a slushy sheet of ice, the first period produced some good hockey with both teams playing open hockey. Eddie Mill had to leave the ice owing to a bad cut below the eye in the latter part of the first period, the period ended scoreless.

The second period was faster than the first. A penalty to Donald Mill saw the Red Wings send four men up the ice. Joseph Gallant got the puck at his own blue line, broke away fast with Eddie Mill with only one defenceman, to get by Joe drew him over to the side to slip a pass to Eddie for the first goal of the game. Donald just returned to the ice when the Red Wings charged the Marshfield goalie which started the fire-fights in front of the Marshfield net. The both referees got things calmed down after three or four minutes with some players with cut lips and busted noses. George Wakelin and Donald Mill got five minutes each, the period ending Maple Leafs 1, Red Wings 0.

The third period got away with tempers raging high, about five minutes gone Eddie got another goal for the Leafs with about five minutes to go. Donald took the puck from his own blue line went through to miss the net but picked it up behind the net and poked it in around the corner and scored the Leafs third goal about two minutes to go. Irving scored the only goal for the Red Wings. After the game W. R. Dennis, proprietor of the Cash and Carry Stores, donator of the cup with a few well chosen words presented the cup to Heath Foster, captain of the Maple Leafs, which they won in the previous league game. The cup is on display in the Cash and Carry Stores window Great George St.

### Passing Of Mr. Alexander G. Campbell

Friends will regret to learn of the passing of Mr. Alexander G. Campbell, whose death occurred shortly after nine thirty yesterday morning at his home in Summerside. Mr. Campbell was born at Canoe Cove but had been a resident of Summerside since his early manhood. Mr. Campbell was 79 years of age and during his long life had made many warm friendships. He was held in the highest regard by his former business associates and by a wide circle of friends. In his younger days he worked with the late John MacKay as a harness maker and later until his retirement was connected with the C. N. R.

There are left to mourn his widow and one daughter, Mrs. Keith Compton, also one brother Mr. Dougall Campbell of Lot 16. The Guardian extends sincere sympathy to the bereaved. The remains were taken on Tuesday afternoon to the home of Mr. and Mrs. Keith Compton on Summer Street. The funeral services will be held from the residence of Mr. and Mrs. Compton on Thursday at two o'clock.

### HOCKEY

On Tuesday, March 19th, Hartsville Maple Leafs and Wiltshire Beavers met in what was to be the deciding game for the Balderston Trophy in the Wiltshire rink. Previously these two teams had played through a five game final series each team winning two and being one. Needless to say, excitement ran high and it was generally conceded that Hartsville would take the game and series, in the first place because for the last three games the Beavers had needed only one win and seemed unable to get it and secondly, because the Beavers were forced to start this game minus the services of two of their best men. For Hartsville, McQuaid and Griffin were outstanding, but their efforts went for naught as the stellar work of Berrigan, Deacon and Warren finally resulted in a goal for the Beavers with Warren ending the twines. The game ended 1-0. Nicholson, in the Hartsville net, and Smith for the Beavers, made some marvellous stops, but the real surprise of the game was furnished by Huestis Smith, this youngster used in the place of the Beavers' absent defenceman, played the full sixty minutes and his pokechecking was a big factor in the Beavers win. With the arrival of Warren and MacLean in time for the third period, the outcome was no longer in doubt.

### O'Leary and Vicinity

A very enjoyable evening was spent at the home of Mr. and Mrs. Ralph McLellan, Birch Hill, Friday, March 29. The evening passed all too quickly in dancing and social chat and before any one was aware of it, time was crawling on to the wee small hours of the morn, and reminded the jolly young folks of the good old times at Riverside Inn, also of returning home over the pitchy roads. Among the popular guests from O'Leary who attended were: Annie Carruthers, Bessie Carruthers, George Carruthers, Ruth Noonan, Oswald Haywood, Dan Saunders. The music for the evening was furnished by Albert Noonan, a violinist, Pearl Noonan, organist, Reggie McNeill, guitar, all of O'Leary.

The play held in O'Leary Hall, March 26 was a huge success, the Amateur Broadcasting Station, put on by our own local crowd in aid of the Fire Department. The actors took their parts exceptionally well, and much credit is due them in their effort to make it the great success it was, also the co-operation of all who helped in any way. The proceeds for the evening totalled one hundred and thirty-seven dollars.

A popular young couple were quietly married at Springfield parsonage by the Rev. Mr. Sterling on Wednesday, March 20, when Miss Bertha Bulgar of Lot 8 became the happy bride of Mr. Albert Gay, Knutsford. The young couple will reside at the home of the groom's parents, Mr. and Mrs. Howard Gay. They are receiving the wishes of a large circle of friends for a long, happy and prosperous voyage through their wedded life.

Master Allison Turner of O'Leary, youngest son of Mr. and Mrs. Wm. Turner, celebrated his sixth birthday, Monday, March 25.

Emerson Smallman of O'Leary had as his guests Saturday, his cousin Arnold and Elwood Smallman of Locke Road.

Mr. and Mrs. Gus Shaw Bloomfield, R.R., were the guests of Mr. and Mrs. Avarid Harris, Knutsford, for a few days last week.

Miss Fairly Dorgan who underwent a successful operation in the P. E. I. Hospital recently is progressing favorably.

Mr. Freddie Matthews who is attending Prince of Wales College is home for a short period with his parents, Mr. and Mrs. George Matthews, O'Leary.

Mr. Milford Jelley, who is in Camp Hill Hospital, Halifax, receiving treatment on his eyes, is considerably improved and returned home Saturday night.

Mr. Truman Paté of O'Leary who has been confined to his home is able to resume his studies at school.

Mr. and Mrs. Truman Harris, Knutsford, were the guests of Joseph Dunbar, Alma, Sunday.

Miss Iva Selliker, O'Leary, was the guest of Millicent Crozier, Coleman, Saturday.

Mrs. Nelson Dennis, O'Leary, who has been confined to her bed with a heavy cold is able to be up again. All wish her a complete and speedy recovery.

Mrs. Dan Smallman was a recent visitor to Freetown.—O.

### Rev. Mr. Harding On Prohibition

#### URGES THAT LEGISLATION IS SECONDARY—EDUCATION NEEDED FIRST

In the course of the weekly broadcast over C. H. G. S. Rev. Mr. Harding Summerside dealt with the questions of Prohibition and politics. He said first of all, I don't want to say candidly, that I do not believe that Prohibition should have ever been made a political issue. Several years ago, when it was made a party issue, I was met by a man a leader on his side of politics and he was glowingly describing the benefits of Prohibition, and at the same time was so drunk he could not talk straight. My reason for taking this matter up at the present time, is that in the Maritime provinces the legislatures are dealing with this subject. I am not opposing such legislation, if it is the best thing to be done. But I firmly believe that there is too much dependence on such legislation, and the liquor traffic will never be stopped by legislation, for as long as men have the appetite for strong drink, they will find some way to secure it. Now, if the churches and Temperance organizations find it expedient to seek such legislation, let them go to it, but I will warn them that unless they are prepared to follow up such legislation with a campaign of education, that will mould public opinion into a sentiment that is favorable, their work will not amount to much, as was demonstrated in the repeal of Prohibition. Now, let us look at this question logically and reasonably. Is here is the liquor traffic. Why are these men in that business? To make money, not to make good citizens, not to make happy homes. Not to secure human life on our roads, but to make money, that is clear. Very well, then let us look at the people who drink. Why do they drink? They have formed a habit, have developed an appetite, now all men do not drink, why? because the total-abstainer has not formed the habit. He may have some boys growing up, and they may form the habit; Now, the existence of the liquor traffic depends on the men who have the habit and the appetite for strong drink and the liquor traffic is engaged in doing everything it can to extend its business and make more money, in order to do this it must make more drunkards and bring more unhappiness into the world.

### Regulation

Now efforts are made to regulate the traffic and the unholy and inconsistent spectacle is seen of petitioning a legislature to do something to send men to prison or do something severe, while that government is in the liquor business itself. Now the liquor traffic cannot be regulated successfully, that has been demonstrated over and over again, Prohibition for the state, and Total Abstinence for the individual is the only way out of the clutch of the grip of the liquor habit. It is a moral question and must be dealt with as such.

#### Minister Not Law Makers

We must do something to prevent the people from acquiring the appetite and to my mind the churches and Temperance societies have much to do in that way. In one of the large English towns, there was held recently a Temperance Exhibition, at that exhibition, there was displayed and exhibited the results of drunkards' homes, drunken men making fools and idiots of themselves half naked and half-starved children weeping wives and mothers, young men in prison cells, motor accidents, and a hundred different exhibitions of the terrible results of strong drink on the human family; and I am told that it was the greatest demonstration ever seen by any people. Now, this is what I think should be done. Save our young men and women, by exhibiting before them the results of strong drink, preach about it, Agitate it, Educate for it and if you get our people to see the terrible results and then cause them to quit the habit, and prevent them from acquiring the appetite, you will soon put the liquor traffic out of business, and that is the work of the church and the Temperance societies. Legislation is secondary. I do not think that the church has any right to approach the strong arm of the law in order to secure moral living; I do not believe it is the part of a Christian minister to make laws to send men to prison, even if they are doing wrong. We must roused to Cease the things that are Caesar's, and to God the things that are God's. The mission of the church is to heal the broken hearted and preach the glad tidings to all. The message of the Master works from the inside, from the heart, and influences the life that way. It may be easier to get legislation and turn the matter over to the law, but it will never be effective. We need to exhibit the products of the liquor traffic and carry on the program of Education. The liquor traffic is making every effort to extend its business.

#### Propaganda Necessary

It is spending great sums of money in this effort, why not the Christian people do the same to save our boys and girls? Why not make our highways safe for traveling? Why not save the young men why not do our part to make the coming generation sober and wise, so that this great Canada will have as its citizens the finest types of manhood and womanhood. This is the question, but someone will say it takes money to do that, and most of the churches have it hard enough to get along. Alright then do away with some of the churches we have too many, take some of that money that is absolutely wasted as far as the kingdom of God is concerned and do more to save our young people from this habit, and we will all be the better for getting together and learning to love one another. Let us take this question out of politics, there are good men on both sides. Let us not hammer them by making a moral question an issue, let us not try to get legislation to do what it can never do.

#### Churches Responsibility

We cannot expect to get laws passed that will relieve the churches and Temperance societies of all responsibility so that we can be at ease in Zion. The liquor traffic is in that business for money, the money has to come from our young men and women and they will buy it one way or another as long as they have the appetite; we must educate them to know what it means, we must show them that it ruins homes, that it blasts the lives of splendid men and women we must tell them that in every cemetery there is lying the bodies of men and women, who would be alive and with us today, if it were not for strong drink; we must show them that the only safe way is the way to total abstinence, and that if there was not a single drop of alcoholic liquor in the province, we would not lose one single thing that was worth having, and would gain many things that are good and this work can only be done by the church of the living God being aroused and doing its work for the uplifting of humanity. The religion of Jesus Christ, is a religion of love and sacrifice and self-denial. We must give ourselves for others, for the drunkard and the homeless and the sinner, and the power that will do it, is not legislation but love. Our Motto is that of the W. C. T. U. For God and Home and Native Land.

### Prohibition may be worse

If you prohibit a man from getting what he craves for, you intensify the craving. If you change or destroy the craving, when Prohibition helps, but the desire for Drink, cannot be changed by legislation, that must be done with moral suasion. Now, I do not wish to be mis-understood, I do not want you to think that I am opposed to legislation on moral questions. We must have law and order and we must be subject to the law of the land in which we live, but my contention is that the Church of the living God has no authority for advocating legislation in order to make men better, Christ said my kingdom is not of this world, and again the kingdom in within you. The early Christians did not seek legislation, but were persecuted and imprisoned, but they spread the good news wherever they went, and the way that men were to know that they were His disciples was because they loved one another, God Fried Law, and the thunders of the decalogue with their "Thou Shalt not" was found weak and not efficient. So God tried Love, and that has proved successful when tried as it should be.

#### Love not Law

Now, the law of the New Testament is a law of love and makes its appeal to our reason and intelligence. Here it is. "If I meat make my brother to offend, I will eat no meat as long as I live. It is good that I should abstain from eating meat, if it will prove an offence to my brother, and that is what is requested of every professing Christian and church member. If every one of these would take that stand there will be no trouble with the liquor traffic, if every one will stand on this principle then we will not have so many applying to the doctors for prescriptions when they are not ill, but only want a case of ale or a bottle of whiskey for beverage purposes. We do not need a law that can be used as a smoke screen, but we do need to be living witnesses of Jesus Christ. Let us take Prohibition out of Politics, and put it into the lives of the people. Stop the demand. Keep the appetite from expanding. Stop the sales and you will put the brewer and distiller out of business, and place our country on a high moral plane. Let us be total-abstainers, because of Jesus Christ, and our influence over others. Not law, but love will ever put an end to drink, and it cannot be done by big stick methods. Fining a few bootleggers now and then will not do it. If we use law, then get after the fellows higher up. They may be church-members.

#### Worms in children work havoc

These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.
