

Penlar Buchu and Palmetto Compound

A reliable time-tested remedy for the treatment of kidney disorders.

It has proven itself of real value time and again—Wherever it has been tried it has been heartily endorsed as a successful relief.

We believe it deserves a trial in your case and the sooner you start treating kidney trouble, the less likely you are to suffer further complications.

Let us tell you more about this splendid kidney relief which we sell in two sizes.

50c and \$1.00.

EMBARRASSMENT, THE RESULT OF COUGH

You've seen it often—just as the singer, preacher or great actor reaches the climax and the audience is keyed up to the highest pitch of anticipation, there comes this uncontrollable cough or sneeze from somewhere in the audience. How embarrassing for the victim who knows that the pleasure of many has been spoiled.

You can avoid being in a similar position by always carrying a box of Dominion C. B. Q. Tablets (in the red box). One or two doses will stop a cold before it gets started, or break up a hard cold in short order. Get a box to-day. National Drug & Chemical Co. of Canada, Limited. 12

Stops Headache

TABLETS (in the red box)

Break up Colds and La Grippe in a few hours, 25c.

IN LOVING MEMORY of **GEORGE C. FEAYOUR**

Who departed this life on November 28, 1918

Gone but not Forgotten

INSERTED BY HIS MOTHER

CENTRAL GUARDIAN

BEAN SUPPER LAST EVENING.—The Bean Supper held at Notre Dame Convent last evening passed off very successfully. The hall was tastefully decorated for the occasion and presented a busy scene between 6 and 8 p. m. Much credit is due to the ladies who served the tables, for the efficient way they carried out their work.

DANCE AND WHIST.—A very successful dance and whist party was held last night at the Charlottetown Club. About 200 ladies and gentlemen were present and all evidently thoroughly enjoyed themselves. Refreshments were served during the course of the evening. The merry dance was sustained until well past the midnight hour.

TELEPHONE DIRECTORS MEET.—A meeting of the directors of the Prince Edward Island Telephone Co. was held in the city yesterday. There were present Mr. J. H. Winfield of Halifax, general manager of the Maritime Telegraph and Telephone Company; Mr. S. C. Reid, Tryon; H. J. Palmer, K. C., and W. S. Grant. A substantial increase was given the employees to meet the high cost of living.

PERSONALS

Premier Bell and Lieutenant Governor McKinnon returned Wednesday night from Halifax, where they attended the dinner given in honor of the Prince of Wales by the Government of Canada at the Halifax Club and the luncheon on board H. M. S. Renown given by His Royal Highness.

MARRIAGES

RILEY—BURKE.—Married at London, N. S., on Tuesday, Nov. 25th, by Rev. Louis Graham, Daniel J. Riley and Bessie Burke, both of Charlottetown.

ROBIN HOOD FLOUR

Is Different

It bakes Great, Big, Golden Brown loaves of nut-like flavor that only a genuine hard spring wheat flour can produce.

LOCATING THE POULTRY HOUSE

In locating a poultry house it is best to select an elevation having a natural drainage away from the building, for damp ground means cold ground. If the house can be built in the lee of a windbreak or a hill, or in front of farm buildings, so much the better. A dry, porous soil such as sandy or gravelly loam, is preferable to clay soil, for the former is more easily kept in a sanitary condition. If it is impracticable to select a soil that is naturally dry, the soil should be made dry by thorough underdrainage. A purely sandy soil should not be selected, for a soil not good enough to support plant life is unfit for poultry.

As sunlight and warmth are essential to success, the buildings should face the south; other things being equal, they will be warmer and drier. When a direct southern exposure can not be obtained a southeastern is preferable to a southwestern exposure, for fowls seem to prefer morning to afternoon sun. A gentle slope facing the south is the most suitable.

IN MEMORIAM

CAPT. ALEX. JACKSON

On November 9th, Capt. Alexander Jackson passed away at his home, at Point Pleasant, in the 72nd year of his age. The deceased had been in poor health for nearly a year. Finally pneumonia crept in upon him and after a few days of hard fighting he passed away. He leaves to mourn, his widow, two daughters in U. S. A. and two sons in the Canadian West. In the passing of Mr. Jackson the Murray River Baptist Church has sustained a great loss for Mr. Jackson was most faithfully devoted to his church in every thing attempted for the honor of God.

Owing to the illness of his pastor the services at house and grave were very kindly taken by Rev. W. H. Sweet (Pres.) who gave a very helpful message from the 12th verse of the 90th Psalm.

Germany Refuses To Co-operate

LONDON, Nov. 25—Germany has refused to co-operate with the Allies in bringing economic pressure to bear on Soviet Russia, Sir Hamar Greenwood, Under Secretary for Home Affairs announced in the House of Commons today.

LONDONER DIES IN CALIFORNIA

SAN FRANCISCO, Nov. 25.—Herbert E. Easton of London, England, secretary of the British Empire Land Settlement League, died suddenly yesterday of heart failure immediately after concluding an address before the California development board on British plans of aiding former soldiers to become farmers.

"Pussyfoot's" Eye To be Removed

(Special to The Guardian.) LONDON, Nov. 27.—Surgeons this morning will remove the right eye of William E. "Pussyfoot" Johnson, the American prohibition worker who was severely injured by students following an address in the city. The operation was decided upon to prevent Mr. Johnson losing the sight of his left eye.

Robbers Secured \$20,000 Worth of Liberty Bonds

VINCENNES, Ind., Nov. 25.—Robbers early today drilled into the safety deposit vault of the Peoplesville State Bank near here and escaped with Liberty Bonds valued at \$20,000. About half of the bonds were registered. The safe in which the bank's money was kept, had been tampered with, but the robbers had not effected an entrance. No clue has been found.

Admiral Jellicoe Tells of the Navy

VANCOUVER, Nov. 25.—In a brief address before leaving for the East Admiral Jellicoe said: "That our navy kept up absolutely to the mark during the war, was I think due to the fact that the British seaman has the real sea spirit. That is where they differed from the Germans. The principal reason the German navy broke up was because the Kaiser did not have the sea spirit. The Kaiser tried to install this spirit and I had an opportunity of seeing his efforts at Kiel regatta before the war. What he did succeed in doing was installing a system of splendid discipline, but he failed to inculcate the sea spirit. Sea-power is a very real thing and it is just as important to the far as the interior as to the coast. I am proud to be a part of the sea. The farmer could not dispose of his product."

DEATHS

Daughter of Dr. B. C. Borden Passed Away

SACKVILLE, Nov. 24.—A telegram was received here yesterday afternoon by Dr. B. C. Borden president of Mt. Allison University, announcing the sudden death of his daughter, Mrs. Elaine Borden-Dickie, beloved wife of Mr. Frank Evans Dickie, of Shawinigan Falls. Deceased had a host of friends in Sackville, who will learn with deep regret of her passing away. She was but 31 years of age, and besides her husband and parents, is survived by a twin sister, Miss Gladys Borden now in Edmonton, Alta.

Her husband and mother will accompany the remains to Sackville for burial, arriving here on the C. P. R. Tuesday night. The funeral is expected to take place Wednesday.

Much sympathy will be felt for the family in their sad bereavement.

As a result of negotiations carried on in Paris by the American representatives, the French may probably establish a similar school which will be "sponsored" in the abolition. The director of the British school is Prof. John Garstang, of Liverpool, assisted by an able staff. As soon as political conditions warrant, the American school will erect on its property its first building with the \$50,000 bequest from Mrs. James B. Nies, of Brooklyn.

Prof. James A. Montgomery, University of Pennsylvania, Philadelphia, is chairman of the executive committee of the managing committee and Prof. George A. Barton, Bryn Mawr College, Bryn Mawr, Pennsylvania, is the secretary.

Prince's Message to Ontario

OTTAWA, Nov. 25.—The following telegram was received this morning from His Royal Highness the Prince of Wales in response to a message sent by His Honor the Lieutenant Governor, wishing in the name of the people of the province of Ontario His Royal Highness a pleasant voyage home.

"Lieutenant Governor Sir John Hendrie, Government House, Toronto, Ont., I am deeply grateful to the people of the province of Ontario for their kind wishes, and I hope you will convey to them my thanks, I wish them an revoir and the fullest measure of prosperity." (Signed) "Edward, P."

SCHOOL OF ORIENTAL RESEARCH TO REOPEN

PHILADELPHIA, November 26.—The American School of Oriental Research in Jerusalem, which has been closed during the war, since the end of 1914, has now been reopened. The director, Prof. William H. Worrell, reached Jerusalem on October 7 and is now on duty. It is expected that before the end of November he will be joined by Prof. A. T. Clay, of Yale University, Dr. W. F. Albright, of John Hopkins university, and the Rev. John P. Peters of New York City. Negotiations have been carried on in London with the newly formed British School of Archaeology in Palestine, which will result in a close affiliation between the two schools and hearty co-operation in all enterprises. Also,

ANTI-BRITISH PROPAGANDA IN EGYPT BEING CIRCULATED IN UNITED KINGDOM

LONDON, Nov. 25.—In the House of Commons, Edward Sheppard, Home Secretary, referred to the immense amount of anti-British propaganda with reference to Egypt purporting to emanate from the American press and circulated here in the form of pamphlets. He declared that it was most difficult to take action looking to the suppression of these publications. He explained that seditious utterances and allegations of atrocity in Palestine, which were first distributed to news papers in the United States by the propaganda bureaus there; they were clipped from these papers and republished in Great Britain as opinions expressed by the American newspapers.

The Government, he said, was considering action against the authors, and the matters would not be dropped.

DEPRAVED APPETITE

I have sixteen head of cattle and the most of them chew sticks and bones or any kind of rubbish and there seems to be something they want they are not getting. They have had all the salt they want and have been out on good pasture. They have clover pasture and will go right out of the clover and look around for something else and they are losing flesh. They have been grained with barley and oats.—R. W.

Feed oats and wheat bran and twice add one ounce of bicarbonate of soda. The cows crave some ingredient lacking in this feed. The above treatment often proves remedial. If it does not in these cases, mix bone meal or precipitated phosphate of lime in the feed, starting with two teaspoonfuls daily twice and increase the amount if found necessary.

Do You Know

That we operate the only Lens Grinding Plant on P. E. Island?

That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses?

Those are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses.

Send your glasses in by mail, you'll get them back promptly and in perfect condition.

Call in and look over our plant.

G. F. Hutcheson

Optometrist and Optician

POULTRY

TIMES PER DAY TO FEED

Some poultrymen feed their flocks twice a day. The best plan is to feed fowls in confinement 3 times a day and those having free range in summer twice a day. When there is a very long interval between feeds it is difficult to keep fowls busy which are kept in confinement. Idle fowls often contract bad habits, such as feather pulling and egg eating, besides going out of condition from lack of exercise.

In case it is not convenient to feed three times a day, the moistened mash may be fed in the morning, and at the same time the noon feed of grain may be scattered in the litter, which will keep the fowls busy a great part of the day.

For those who can not conveniently feed their fowls early in the morning a good plan is to scatter grain plentifully in the litter after the birds have gone to roost. This grain will furnish feed for the early morning.

Some poultry keepers can look after their fowls only once a day. If this is in the morning, moistened mash may be fed, followed by throwing grain in the litter to furnish feed for the remainder of the day. If it is in the evening, before dark, a moistened mash may be given, and either after the fowls go to roost or in the morning, before daylight, grain may be scattered in the litter for eating during the day.

Keep Minard's Liniment in the house

LOCATING THE POULTRY HOUSE

In locating a poultry house it is best to select an elevation having a natural drainage away from the building, for damp ground means cold ground. If the house can be built in the lee of a windbreak or a hill, or in front of farm buildings, so much the better. A dry, porous soil such as sandy or gravelly loam, is preferable to clay soil, for the former is more easily kept in a sanitary condition. If it is impracticable to select a soil that is naturally dry, the soil should be made dry by thorough underdrainage. A purely sandy soil should not be selected, for a soil not good enough to support plant life is unfit for poultry.

As sunlight and warmth are essential to success, the buildings should face the south; other things being equal, they will be warmer and drier. When a direct southern exposure can not be obtained a southeastern is preferable to a southwestern exposure, for fowls seem to prefer morning to afternoon sun. A gentle slope facing the south is the most suitable.
