

Our New Hats Are Birds

The Hat of the World
The Stetson

Just as it appears on the surface, so it is right straight through. Its beautiful finish has back of it the highest quality of materials and skill of workmanship. It is always the standard of style in all countries; everyone you go well-dressed men wear them.

Every Stetson Bears the Stetson Name

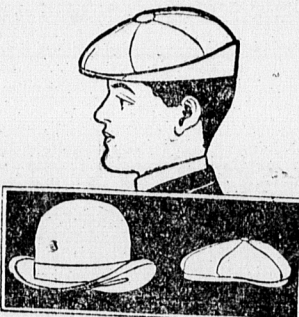

We carry the Stetson in all styles—Soft and Derby.

The showing is so large that it is impossible for us to give you a faint idea of the extensive line we carry. This season our store will be headquarters for stylish hats. In addition to the celebrated Buckley, England's best, we have added a nice line of the celebrated John B. Stetson hat, America's Pride. If you have worn a Stetson, you know its true worth.

The arrival of our new caps is always hailed with great interest by the young men of our city.

This season's grand showing surpasses any former effort made by us, to show the finest line of caps in the city.

Young men, we now ask you to see them, and we will allow you to be the judges as to our claim, that they are the noblest caps ever shown in this city.

S. A. McDonald

COMPLETE CHANGE OF VAUDEVILLE MOTION PICTURES

And Illustrated Song To-night at New Wonderland

It's change night all round tonight the new singer, T. A. Mattaral from at New Wonderland, Bixely and Hol-Quebec. Tonight he will sing "As comb who have sung their way into long as the World rolls on" with instant favor here, with their beautiful illustrations, and this feature of the full voices and clever acting, will to-511 alone is worth the price of admission put on a complete change of motion pictures. The pictures tonight are—act, songs etc. It's too good to tell. Watchmakers holiday—a comedy about in advance, for the specialty is reel telling how the watchmaker and exceptionally clever, and many as his wife went asleep on a summer the laughs were last week, there will holiday, had their valuable watch be more in the present one. Bixely from them, and afterwards the and Holcomb change three times this thieves come into their own shop to week so only a limited opportunity pawn the goods.

MODEL ORCHARDS FOR P. E. ISLAND

ST. JOHN, Feb. 13. — The following is a clipping from the Farmers' Advocate.—The attempts of the Provincial Government in Prince Edward Island to promote orcharding seem to have been attended by uncertain results. The enthusiasm appears to have died as soon as the orchards were planted. It is claimed that the Government had agreed to attend to the cultural operations, but instead this work was left to the owners of the farms on which the orchards were set. All but two of the orchards were neglected, and the result is that the model orchards have been a hindrance rather than an aid to horticulture.

In dealing with one of the two orchards that were cared for by those who owned the land, Prof. Theodore Ross, of Charlottetown, writes: "In 1903 a model orchard was set out on the farm of John A. Anear. It consisted of 2 Northern Spies, 3 Gravensteins, and 5 each of Baldwin, Wealthy, Gravenstein, Ontario, Stark, Ben Davis and King varieties. The soil, which had been well prepared the previous year by bearing a crop of potatoes, was sandy loam, and sloped gently to the south-west. A strip 4 feet wide on each side of the rows has always been kept clean till about the middle or last of July, when cover crops of different kinds have been sown. Up to the present 5 Baldwin, 4 Stark, 4 Gravenstein, 2 Ben Davis and 1 King have died, and have been replaced by 5 Northern Spy, 5 Wealthy, 5 McIntosh Red and 1 Pewaukee.

"Owing, perhaps, to the shelter on the north, this orchard has been badly injured by sunscald. All varieties have been found to be not equally subject to it. In order of resistance they stand, King, Astrachan, McIntosh Red, Ben Davis, Spy, Wealthy and Ontario. The Baldwins and Gravensteins were winter-killed, and the Ontarios were frozen back very badly. The Stark's died the second year; probably they were too much dried out before planting. The King was killed by the oyster-shell bark-lice. Wealthy are making the best growth, while the Kings and Spies are making the slowest. Only the Astrachans and the Wealthies first planted have yet come into bearing. The former have produced a few for each of the last three years, while the latter have borne about 1 1/2 bushels per tree this season.

"This orchard is having an excellent effect on the surrounding community, and already many trees have been planted in the neighborhood, and orchards that have been planted are receiving better care. Chief McNeil, of the Fruit Division, says, in his report of a meeting held in this orchard: 'It is a pleasure to report the very great interest taken in orcharding in this neighborhood.' The value of the meeting was greatly enhanced from the fact that it was held in an orchard which may be pointed to as a model worthy in every respect of the best fruit-growing districts in any of the Provinces."

PAID BIG PRICE FOR GLASS OF GROG

PARIS, Feb. 13. — Mme. Louise Duval, who lives in the Rue de Rivoli opposite the Tuilleries Gardens, caught cold yesterday and treated it last night with a grog which cost her \$1180. She had sold a farm in the morning and received its price in bank notes. These she wrapped up in a newspaper which she put by her bedside. This morning the newspaper and its contents had disappeared. Mme. Duval rushed to the police station, and then suddenly remembered that she had got up in the middle of the night to boil some water for her grog and had lighted the fire with the newspaper containing \$1180 which was the price of her farm.

Whose name has recently been connected with the Governor Generalship of Canada, in succession to Earl Gray.
