

### It is Highly Palatable...

Don't be under the impression that Abbey's Effervescent Salt is unpalatable. It is a most delicious preparation to the taste—so pleasant, in fact, that it is oftentimes taken as a beverage. It is an unequalled thirst- quencher. But aside from these excellent qualities, it is the most wonderful regulator of health known.

### Abbey's Effervescent Salt

taken daily, will purify your blood and cleanse your system. Its effect is mild—almost imperceptible—but certain. Take it every day and you will enjoy constant good health. Abbey's Effervescent Salt, which is prescribed and endorsed by physicians, is a standard English preparation which all druggists sell at 60 cents a large bottle. Trial size, 25 cents.

Keep it by you. Beware of imitations. Buy only the Genuine—Perry Davis'.

Sold Everywhere.

### The Great Home Dye

MAYPOLE SOAP

Is the modern scientific form of home dye. Its convenient form has contributed to its popularity. Gives a new appearance to the goods dyed with it. It dyes Silks, Satins, Woollens and Cottons Equally well.

Is superseding all other dyes wherever introduced. May be used by anyone without previous experience. Entire freedom from streaking. A strong point. Beauty, freshness and evenness of colors. Are characteristic.

Do not give that common appearance imparted by common dyes.

### MAYPOLE SOAP

Made in England.

10 cents a cake for all colors and 15 cents for Black.

At all Druggists. In all colors. For all fabrics.

Free Book of Sample of Work from

LET us have the amount of that little account to-day when down town. and oblige.—MOORE & McLEOD.

### Matters in Newfoundland.

We have late information from Newfoundland which is very interesting to Canadians as presaging increased intercourse between the Dominion and that island, which has so long been removed from us and but too little known. The first subject mentioned by our informant is the cod fishery, which has been satisfactory this year in quantity and quality. While the fish are good and the catch large the Spanish-American war is interfering with their sale. As to sealing, the season has been a successful one. The spring was much later than usual; the fogs and icebergs hung about St. John's longer than usual, which kept general business back. Spring goods were late in selling.

The matter of the French inshore fisheries is looked upon as being pretty well settled, and while the terms have not been made known, it is understood that the advantage is not now on the side of the French. A number of English tourists are at present visiting the island, and several mining experts from Canada and elsewhere have been looking about. One strong syndicate of Nova Scotians has secured timber limits on the new line of railway, and other parties have representatives going out exploring with the object of securing mining and timber lands. The opinion is generally expressed that the Road syndicate, which has been so enterprising and liberal, will deal generously with any such parties.

Several commercial travellers from Western Ontario and Montreal visited the island in early June and they bid fair to compete successfully with Old Country emissaries of the same kind. The opening of the railway enables these men to time their arrival and their departure, for there are now two and will presently be three boats a week from North Sydney, Cape Breton, to Port au Basques. Doubtless the convenience of this route will induce many more such visitors.—Times.

### EDITOR'S MAIL.

#### Weeds and Tramps.

Sir,—Is the present a good time for a dissertation on weeds—here goes then. Our farming population are happily free from two kinds of petty annoyance, namely tramps and weeds. From the former our insular position will likely always secure to us freedom, not so in regard to the latter. Two or three weeks ago beautiful fields in Ontario and Quebec were as yellow with wild mustard blossoms as air covered with cloth of that shade; other fields were about half and half, some had only a mere sprinkling of the pest. So far as I can learn wild mustard is chief of all weeds for its badness, principally because it refuses to let go once it has gained a foothold. I am told that for thirty years it will remain in the ground to spring up when said ground is turned over. Grass is frequently imported here from the provinces named, and farmers cannot be too careful lest wild mustard should come; an inch of prevention worth a fathom of cure.

This letter looks short, but I have nothing more to say except  
VERBEM SAT.

### SAVE THE BABY!

A mother will risk her own life many times over, to save her babe from the horrors of hydrophobia. There are graver dangers to a mother should she watch her child. A mad dog is a rarity, but thousands of children die daily because of the seeds of disease implanted in their little bodies before birth. A woman may insure the health of her babe if she sees to it that she is thoroughly strong and healthy in a womanly way during the period of gestation. Dr. Pierce's Favorite Prescription cures all weakness and disease of the delicate and important organs that sustain the burden of maternity. It makes them strong, healthy, vigorous and elastic. It banishes the nervous and queasy spells of the expectant period and makes baby's introduction to the world easy and nearly painless. It rids maternity of peril. It insures the newborn's health and an ample supply of nourishment. It transforms sickly, nervous, fretful, despondent, childless women into healthy, happy, helpful, amiable wives and mothers. Over 90,000 women have testified to the benefits derived from this marvelous medicine. It does away with the necessity for the embarrassing examinations and local treatment upon which most physicians insist. It substitutes certainty for the doubtful treatment of obscure physicians, who seldom correct their errors. It is sold by medicine dealers, and Dr. Pierce will cheerfully give free advice to ailing women who write him. Scores of women who have been permanently cured of obstinate and dangerous diseases by this great medicine, have permitted their names, addresses, experiences and photographs to be printed in Dr. Pierce's Common Sense Medical Adviser. This book is free and contains 1008 pages, telling the home-treatment for most diseases. Send of one-cent stamps, to cover mailing and customs only, for paper-covered copy. Cloth binding 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.
