Deliver Terms To French On Historic Site Nazi Leader Takes Great Pains To Re-live 1918 Situation In Reverse.

(By Louis P. Lochner, Associated Press Staff Writer) COMPIEGNE FOREST, France, June 21—(AP)—A yes or no answer—unconditionally and now—was demanded of France tonight to the terms of a conqueror's peace dictated by Adolf Hitler. The four emissaries of the Third Republic remained in steady telephone communication with their governments. They conferred for a second time, too, tonight with the representatives of the Fuehrer. Whatever their reply, Hitler has ordered brought to Berlin the long-enshrined railway car where defeated Germany signed an armistice in 1918 and offered one in victory today. Along with the historic car, Hitler will take away the memorial tablet that marked the spot, and the monument the French set up with the graven legend: "Here, on Nov. 11, 1918, was frustrated the criminal arrogance of the German Imperial Reich, defeated by the free peoples which it sought to enslave." Slabs marking where the train stood were ordered destroyed. Hitler personally decreed, that the monument to Marshal Foch be preserved undamaged, and remain in the same place. He demanded an end to resistance; that the French give him "all guarantees necessary" to him to continue his war against Britain; that the acceptance of "pre-conditions" for a new European order designed to make "reparation of the wrong done to the German Reich by this war." This was the heart of a long preamble given to the French delegates—that and a declaration that Germany had no intention of casting "aspersions against an enemy so brave." His specific terms—not announced in detail pending their acceptance or rejection—were left with the French in a meeting that was heavy with a sense of history repeating itself, but in reverse.

R. A. F. Raids Italian Areas

CAIRO, June 21—(CP-HAVAS)—The following Royal Air Force communiqué was issued here tonight: "British planes twice yesterday attacked Diraawa, Abyssinia, hitting the railway station and workshops. The airframe was set afire. All the British planes returned. An Italian tri-motored plane came down on the desert and the crew of six was captured. 'El Gubbi and Eadem, Libya, were also bombed last night. All the planes returned. The extent of damage is not known."

News Briefs

TOKYO, June 22—(Thursday)—(AP)—Circles close to the Government indicated today that Japanese policy now are crystallized around a program calling for closer relations with Germany and Italy, possibly direct action in British-French possessions in the southern Orient and a negative attitude toward any United States efforts toward rapprochement. BUCHAREST, Rumania, June 21—(AP)—King Carol tonight announced the formation of a new cabinet party on the German pattern and it was reliably reported, drafted decrees to turn his country into a state of the Nazi-Fascist type. Tomorrow night he will make his first political broadcast to tell his people about the new "party of the nations" which will supersede the present party of national rebirth. LISBON, June 21—(AP)—The Spanish Government is being reorganized, it was reported here tonight, with the cabinet in session since early afternoon. (The bare fact that the cabinet was meeting was reported in Madrid dispatches.) CAIRO, June 21—(CP)—Premier Ali Maher-King entered the cabinet's resignation to the King, which has not yet accepted it. The Premier said he was ready to make way for a coalition Government if one could be formed. Encouraging reports, showing another year of successful activity, were submitted at the annual meeting yesterday of the Protestant Ladies' Auxiliary of the Protestant Orphanage. NEW VICEROY TAKES OFFICE

OTTAWA, June 21—(CP)—In one of his first official acts as Governor-General of Canada, the Earl of Athlone today gave royal assent to a newly enacted bill to mobilize all the human and material resources of Canada for the prosecution of the war. His Excellency, who with his wife the Princess Alice, arrived in Ottawa just before noon had just been sworn in when he was asked to approve the bill which symbolizes Canada's resolve to see the fight against aggression through to a finish and its unity of purpose and aim with other nations of the British Commonwealth which have taken similar steps. Parliament took no time off from its work and the bill was passed in the new Governor-General. The oath was administered before parliament's usual time for assembling. In keeping with the demands of wartime, the bill, which was eliminated, but the essentials of the ceremony, usually performed when a Governor-General first sets foot on Canadian soil were carried through.

4th Contingent Of Canadians Reach English Camp

Come From Every Province In Dominion—Ready To Repel Nazi Invaders.

(By Edwin Johnson, Canadian Press Staff Writer) SOMEWHERE IN ENGLAND, June 21—(CP Cable)—To the strains of martial music and the welcoming cheers of the populace, a large contingent of Canadian troops marched or rode proudly into camp today. They have come from every province of the Dominion to the aid of the Motherland in her hour of direct need. Train after train disgorged its complement of smart, sun-tanned soldiers who have been in training almost as long as their proficient comrades of the 1st Division. They were glad to be off the train after a journey of more than 12 hours, but happier still in the knowledge they now are in the actual theatre of war with the prospect of seeing action before long. With the new arrivals came the first detachment of Canadian nursing sisters, most of them from Toronto and Winnipeg. They were split up into two groups, the westerners proceeding to Canadian Red Cross hospital and the Toronto nurses to a military hospital near the Canadian theatre of operations. Both hospitals will be opened shortly. Meet Old Pals The long journey over sea and land ended, the contingent came home to the community of their own kin. Canadian troops mingled with towns people at every hand,

Nazis Are Met By Strong Defence On Night Attacks

BRITAIN thus took the initiative in striking at enemy points where the Germans may be establishing bases from which they might be expected to attempt any planned invasion of Britain. The Canadian aviator, whose name was not given, first dropped his bombs on Calais guns positions and then circled around, photographing the rest of the attack. He brought back vivid pictures of devastation caused by many direct hits. The same Canadian had discovered and photographed the German gun emplacement on a previous reconnaissance when he flew at less than 1,000 feet to get pictures. LONDON, June 21—(Saturday)—(CP)—Wave upon wave of German bombers blasted at southern and eastern England with heavy demolition and incendiary bombs early today in the most violent air attack of the war. Roaring across the coast for the third attack this week, the Nazis rent the early morning air with thunderous explosions and started fires which cast a crimson glow over the countryside. (The Royal Air Force apparently was replying in kind with a raid on Berlin, where an alarm was in effect for 36 minutes and anti-aircraft guns around the capital fired at invading craft.) The bark of anti-aircraft guns, the chatter of machine guns and the challenging whine of fighter planes made an earsplitting overtime to the sound of the raiding planes and the intermittent thud of the exploding bombs. Air raid alarms shrilled with the approach of the first attackers and the civilian population crouched in shelters while the battle raged. One salvo of high explosive bombs struck a lumber yard in an undisclosed eastern area, shattering windows in the immediate vicinity and shaking buildings as far as three miles away. Reports from the attacked areas said that as soon as the ominous drone of the Nazi craft became audible, their motors were drowned out by speedy British fighters darting into the skies to the attack. Explosions occurred intermittently for more than an hour in one northeastern inland area. Searchlights probed the sky for a high flying raider which later headed out to sea.

British Said To Have All French Navy

NEW YORK, June 22—(Saturday)—(CP)—The New York Herald Tribune says in a dispatch from Washington today that high officials of the United States Government have received information that Great Britain has taken over the French Navy "virtually intact" and "as a going concern." The dispatch added: "German claims that they had captured the new, 35,000-ton French battleships Richelieu and Clemenceau at Brest when the Nazis entered that Atlantic seaport were contradicted by the information reaching Washington officials." "The Germans, it was said, captured only twisted, scorched metal and other debris in the Brest naval yards, as the French unable to tow away the uncompleted capital ships, had blown them up before retreating from the German invaders." "Details are not available as to how the British managed to acquire the French fleet, but presumably it was a 'friendly kidnapping' arranged with the consent of the French Admirals. Whether the French warships are in the Mediterranean or have retired to the Atlantic was not made known."

ORPHANAGE HOLDS ANNUAL, ELECTS SLATE

Mr. W. A. Stewart is re-elected Chairman of Trustees.

The P. E. I. Protestant Orphanage held its regular annual meeting yesterday in the St. Paul's Parish Hall. Reports from the various committees were heard and appointments made for the coming year. The Chairman, Mr. W. A. Stewart, and the secretary-treasurer, Mr. Ira M. Brown, were again re-appointed. Mrs. H. S. Henderson, the very efficient comptroller of finances, again heads that department. Mrs. Henderson informed the meeting that despite the many difficulties in the way, there was again a small surplus this year. The meeting expressed its gratitude to her for her long and efficient service at the head of finances. Miss Eva Beers, nurse in charge, reported for the year. The retiring trustees, W. A. Stewart, L. T. Beaton, Mrs. A. Henry, and Mrs. H. B. Horne were re-appointed for a further term of three years. Major T. E. MacNutt added his congratulations and praise to those expressed by the meeting which closed with the benediction by the Rev. Hugh Miller. CHATHAM, Eng.—(CP)—Radios must be turned off in barracks here between "lights out" and reveille. Young soldiers complained radios belonging to oldsters were keeping them awake.

Senator Demands Roosevelt Quit His High Post

WASHINGTON, June 21—(AP)—A demand that President Roosevelt resign lest his foreign policies bring "disaster" upon the United States was made in the Senate today by Senator Gerald Nye while at Hyde Park, N. Y., the President accused his critics of partisanship. Nye, an advocate of "stiffness" from European affairs, also urged that Harry Woodring, resigned secretary of war, be called before the senate military committee for questioning. The North Dakota Republican said he would be "very much surprised" if the committee did not learn that Woodring had been asked to transfer "National defence secret No. 1"—an airplane bomb sight—to the Allies, and that he had been ousted because he refused. This brought from Senator Alben Barkley, Kentucky Democrat, the reply that Major General Henry H. Arnold had assured him that "at no time or under any conditions has any consideration been given to revelation of any secret bomb sight."

David Walsh, Massachusetts Democrat, in a vehement speech in the senate, asserted that he would "walk out of this chamber—put my resignation on the desk" rather than vote to enter any European war. It was all right, he declared, for private American companies to aid the Allies but "I want our own army and navy to keep clear of this European war." Senator Claude Pepper (Dem-Florida) declared he knew of no one in the senate "who wants to take this country to war" but he assailed the "outworn military tradition that the only way to defend yourself is to wait until the other fellow hits you."
