THE SCIENTIFIC INSECTICIDE DEVELOPED AT MELLON INSTITUTE OF INDUSTRIAL RESEARCH BY REX RESEARCH FELLOWSHIP

LESS than a teaspoonful of FLY-TOX, and five minutes are all that is required to kill hundreds of flies, mosquitoes, moths, roaches and other insects in the FLY-TOX "Chamber of Death". Kills insects quickly, but is absolutely harmless to people.

In the FLY-TOX laboratories a vast army of insects is bred to the highest state of health and vigor. These insects are released in the FLY-TOX "Chamber of Death" to prove with absolute certainty the killing qualities of FLY-TOX before it is sold to you.

Has a new purifying, perfume-like fragrance

**TRAFFIC ON INCREASE**—Tourist traffic to and from Prince Edward Island has near reached its peak, the Guardian learns from the Bureau of Publicity. During the past few days visitors have flocked into the province by all routes and have been directed to hotels and boarding-places. An unusually large proportion of the tourists who have arrived this summer, it is understood, are from Ontario. Mrs. McFadyri, secretary of the Bureau, ascribes this increase to the publicity work of the Maritime Trade Commission in Toronto.

A wide circle of friends in this city and elsewhere, will learn with profound regret of the death of Mrs. Peter MacKinnon, which occurred suddenly at her home, Number One Fire Station, Mechanic Street, at 7:25 o'clock last night. The deceased lady was very well and favorably known, more especially among the city firemen, for whom she always had a pleasant smile and a cheerful word. In other walks of life she was also most highly esteemed and respected, and her passing will leave a void that will be hard to fill.

The late Mrs. MacKinnon suffered a paralytic stroke some two months ago, and two weeks ago pneumonia set in, but in spite of this serious drawback, she maintained her cheerful spirit to the end. Only yesterday morning she was able to sit up in her chair, and recently her condition was considered favorable to recovery, so much so, that she induced her husband, the well known driver of No. One Chemical, to take his annual vacation. Mr. MacKinnon is now visiting friends on Prince Edward Island, and will return home today.

The deceased was a faithful member of St. John's United Church, and took a deep interest in all matters pertaining to the Church, and in things generally that was for the
