COURT Cabot, No. 1599, I. O. F., held the first meeting in the new hall in the Clark building, Friday night. The officers for the ensuing term were installed by Bro. John M. Clark. Everybody was pleased with the new hall and much satisfaction was expressed that the Foresters had now a hall of their own. Court Chautauqua will dedicate the hall on Friday evening next by having a public entertainment. A vocal and instrumental program is being arranged for and along with this refreshments will be served, giving an opportunity for an evening of enjoyment.

The fine weather and good roads during the past few weeks have kept trade quite brisk in Summerside. Usually at this time of the year business has been dull but so far this season the climate has favored all and money has exchanged hands freely, which is evident to a considerable extent on the countenances of our merchants. All that is troubling Summerside at present is the want of winter communication but between the Journal the Patriot and the Pioneer this great question will probably be satisfactorily settled ere another winter sets in.

## CHRONIC INDIGESTION

By far the most important part of digestion takes place in the intestines and it is folly to expect stomach medicines to cure a severe case of indigestion or dyspepsia. The kidneys, liver and bowels must first be made regular and active and the only remedy which acts directly on these organs is Dr. Chase's Kidney-Liver Pills. They are purely vegetable, act pleasantly and naturally and positively cure dyspepsia, biliousness and stomach troubles. One pill a dose—25 cents a box, take no substitute.

## COLDS THAT HANG ON

Pneumonia is the result of neglected chest colds, colds that hang on and inflame and irritate the bronchial tubes and lungs. To promptly and thoroughly cure chest colds, tightness in the chest and all colds in the throat and bronchial tubes, Dr. Chase's Syrup of Linseed and Turpentine has proved itself the most effectual remedy extant. Its sale is simply enormous. 25 cents a bottle. Family size cents 63.

## Gee Willicken's Items.

1.—A young lad was fishing trout at Cardigan Bridge a few days ago, when a classical gentleman approached him thus:—"Adolceus, art thou not endeavouring to entice the finny race to engulf into their denticulated mouths a barbed hook upon whose point is affixed a dainty allurement?"

"No, sir," was the innocent reply, "I am fishing."

2.—A citizen of Montague claims that the reason for one of his legs being shorter than the other, is because he lives on the side of a hill.

3.—It is said that the tallest man gets short sometimes.

4.—There are some people in Charlottetown whose hearts are shrunk within them like dried nuts. You can hear them rattle as they walk.

5.—I fear that some of the people who are trying to get to Heaven on their creed will find out at last that they didn't have a through ticket.

6.—Summerside is the only place where I ever saw a wheel-barrow used for a baby-carriage.

7.—Music! Ah sir! Music is to me as the soft murmuring of the brooklet as it flows over the pebbly surface—entrancing,—captivating the eye, the ear. The whole soul at once goes out to its dulcet rhythm as you listen at the lattice window of your lady love's boudoir to the heart-touching strains of her Aeolian harp and on thine ear falls the silvery notes of her melodious voice singing Ta-ra-ra-boom-de-ay.

8.—I asked an irate old doctor a few days ago why it is that women are seldom troubled with lock-jaw. "Ah," said he, "because they never give their jaws a chance to lock."

9.—There is a man living in Georgetown, who opens his mouth so wide when he laughs that if he would keep smiling he'd never need to wash his face.

10.—Professor Funnylove says that babies are stars and belong to the Milky Way.

# LARDEAU MINING SHARES

SCOTTISH CAN. COMSTOCK PRIMROSE O IDCCID CAN-LARDEAU

This is a splendid list of good sound shares. The companies good properties and are doing best to turn them into dollars. I have seen such payers, and confidently offer this list as taining little risk and good profit.

The Lardeau was not known to the outside world few years ago—but it is now! The mining world has come to the knowledge of it as one of the richest districts of British Columbia. It is a district of high value in silver, copper, lead. Not a mine is shipping ore running over \$100 to the ton. Some are shipping \$300 to \$500

These are values which the world have not been to, but we who know the Lardeau do not wonder at them.

The district fairly teems with ore, lots of it, too. Its only drawback has been lack of a railway, but get one in the spring and then many fortunes will be made in the Lardeau just as was the case in Rosland a few years ago.

It is only five years since the Roi started shipping. Then its shares were sold for a few cents each. Today they are from \$30 to \$40 each.

Those who get in early and right will make money. Now is early and my list above is right. Better investigate this by writing me soon.
