

EVER SINCE

We have been in the grocery business for many years and we have never sold better coffee than we are selling right now. Our customers are not only satisfied with our coffee but they tell us that's what they like to drink, and when their friends try it they talk about it too. Now coffee must be mighty good when everybody keeps on talking about it. If you will try a pound of our coffee you will find that everything you heard about it is true.
