Mrs. M. J. Sutherland, of Montague, passed away after a long illness, on Monday afternoon, June 21st. She was an excellent woman, and Montague, and especially the members of the Presbyterian Church there, will miss her greatly.

HOMEWARD BOUND AFTER CONFERENCE

ST. JOHN, June 22.—A number of clergymen and laymen returned from the Methodist conference held in Woodstock, on the Boston train last evening. Among them were Rev. Dr. C. R. Planders, Rev. Dr. G. A. Campbell, Rev. Dr. Robert Wilson, Rev. Neil McLaughlin, T. B. Tait, Arthur Prowse, of St. John; Rev. E. J. Shankin, of Alma; Rev. B. O. Hartman, of Dorchester; Rev. Thomas Hicks, of Point de Bute; Rev. William Harrison of Charlottetown.

Why the flash of a gun fired at a distance is seen long before the report is heard. Because light travels much faster than sound. Light would go four hundred and eighty times around the earth while sound is going 13 miles.

WOMEN'S WOES Charlottetown Women are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up" must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture.

"I have been troubled with a very lame and weak back and severe headaches and dizziness. The kidney secretions were also of a dark color and contained a sediment. After numerous attempts for relief by other remedies I finally used Booth's Kidney Pills and was cured. I learned of Booth's Kidney Pills through an advertisement and procured a box at Geo. E. Hughes Apothecaries Hall and their sterling worth as a kidney remedy was soon apparent. After only a few days treatment my back had strengthened and I have not experienced a headache or dizzy spell since. I shall be very glad to recommend Booth's Kidney Pills as a sure kidney cure."

When a candle starts from the breach of a gun, its motion is gradually increased until it leaves the muzzle at a high velocity, and when it reaches the board every particle of matter composing it is in a state of contact the particles of matter composing the target are at rest and as the density of the candle, multiplied by the velocity of the motion, is greater than the density of the target at rest, the greater force overcomes the weaker, and the candle breaks through and pierces a hole in the board.

THE MORNING PAPER Some Reasons Why it Makes the Best Advertising Medium.

A woman's curiosity to know about society, marriages, births, deaths, forces her to read it. The Morning Paper is before her all day long, and it is when she is doing her household duties, arranging and improving the appearance of her home, that she reads the interesting articles of furniture, rugs, carpets, curtains or other necessities show up the plainest, and there could be no more opportune time for a dealer to tell about the new designs, the new styles and the bargains offered for the week.

In a majority of homes the newspaper it practically the bulk of the reading matter, and the long, all-day life from 5 a. m. to 10 p. m. of The Morning Paper gives not only the housewife but every member of the family an opportunity to read it. The Morning Paper is read at the breakfast table, again at home at noon, on the trains, in the restaurants. It is read in doctor's offices, professional offices, clubs, hotels, cafes, barber shops. It is read by employer and employee wherever you go by both.

It is a known fact that throughout the world, possibly with a half-dozen exceptions, the papers with editorial influence and national reputation are Morning Papers.
