

Explorers Dip Into 10 Million Dollars Northern Mineral Fields To Oust "Reds"

(Special to the Guardian) CANTON, Sept. 25.—Reports received here say that merchants of Canton, 225 miles northeast of Swanton, have given General Cheng Kwang-Ming \$10,000,000 with which to oust "Reds" from Canton, Swanton is now held by General Cheng.

Discovery Of Coal Claimed In Quebec

SHERBROOKE, Que., Sept. 25.—While geologists have been searching for coal in any part of this province, a number of residents of Compton and district, some 15 miles from this city, believe that they have discovered what may possibly be a paying coal field.

After "Biggest Bootleggers' Ring" Robber And Captor Slain; Chief Hurt

(Canadian Press) NEW YORK, Sept. 25.—Prohibition officials here claim today to have broken up what they describe as "the biggest bootlegging ring in the country." It is an international organization in which a number of Canadians are alleged to have had part.

Negro Slayer Lynched

NEW ALBANY, Miss., Sept. 25.—A white negro timber cutter, who had been taken here by a mob earlier today, was hanged by a mob here this afternoon. The man, according to Sheriff John W. Roberts, confessed that he attacked the daughter of a farmer in Etah County, 18 miles from here Friday. He was returned to the scene of the attack and burned to death.

Noble Daughter's Plight Revealed

CHICAGO, Sept. 25.—(A. P.)—How a devoted daughter for two and a half years, imposed upon herself voluntarily imprisonment, in a down town hotel room, to care for her mother and prevent exposure of the mother's mental condition, has come to light as a result of an inquiry by her father, Raleigh D. Harding, of Wilmington, Delaware.

Aquaplaning Popular In Berlin Smart Set

BERLIN, Sept. 25.—Aquaplaning is the latest sporting stunt fashionable in Berlin has taken up. The sporting grounds are situated around the Havel lakes near Potsdam. Berlin's fair sex are expected to be the most numerous in this latest imported sport and have beaten the men in it in all respects, according to sporting experts.

College Tour Of World Is Delayed

NEW YORK, Sept. 25.—The "around the world college" a globe circling educational tour in which 50 American college boys and 50 faculty members will participate, will not start until October, 1926. It was announced at New York University, sponsors of the project.

No Better Medicine For Little Ones

Is What Thousands of Mothers Say of Baby's Own Tablets A medicine for the baby, or growing child—one that the mother can feel assured is absolutely safe as well as effective—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use Mrs. Charles Hatt, Tancook Island, N. S. writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

St. John Defeats Springhill By A Score Of 5-3

SPRINGHILL, Sept. 25.—St. John defeated Springhill today in the first game of the Maritime Championship 5 to 3. It was anything but a perfect day for good baseball. A cold northeasterly wind was blowing and the five hundred fans shivered for an hour and forty minutes. Springhill out-hit the New Brunswick champions but failed to get a hit where it was needed. Allon practically lost his own game in the second inning when he walked two men, hit a man, an error to his credit and two hits which counted for four runs. Springhill fought hard to overcome the lead made in the second and came very near to do it in the ninth when the first two men hit and O'Rourke was safe on an error, forcing Wilson out in the second. St. John got nervous in this inning and pulled out Hannah and have won the game for Springhill. Burden, Crawford and O'Rourke struck for the home team and Corbett was the star performer for the home city aggregation. In the seventh inning Allon pitched three balls for three outs. Springhill fans are confident they have the best team and will turn the tables in St. John on Saturday. Erskine of Amherst and Ramsey of St. John, umpired the game to the satisfaction of both teams.

U. S. Breweries—Dry Compromise Urged

NEW YORK, Sept. 25.—Proposals for a compromise in the enforcement of prohibition have been made by Representatives of Brewing interests to officials of the Anti-Saloon League, according to the New York World. The paper declares the League officials are "not altogether unfriendly to the idea," and the matter is now under negotiation. The reported compromise proposal would call for the legalization of the sale of wines and beers of "non-intoxicating" alcoholic content, and consideration of the fact that the Anti-Saloon League to lead all their support to the elimination of the bootlegger and the prevention of the use of "hard liquor."

Bad Checks Passed In Moncton; 1 Held

MONCTON, Sept. 25.—A man bearing a passport issued in Berlin, Germany, in March, 1923, to Kral Thiel, was arrested at Salsbury near here, on Saturday with a warrant in connection with the passing of spurious checks on Moncton firms in July last. Thiel was identified by two Moncton merchants as the man who in July last, under the name of W. E. Caleb, paid for purchases by means of checks drawn by the Harworth Marble Company on the Union Trust Company, of Cleveland, Ohio. The checks were stamped, certified and marked to that effect. Local banks with which the checks were deposited discovered that the Harworth Marble Company was unknown to the Union Trust Company of Cleveland.

U. S. Explorers At Work In Greenland Says Average Man Talks Too Much

(Canadian Press) WASHINGTON, Sept. 25.—Carrying out its plan of determining whether there is connection between the Morserus of Greenland and of Labrador, Commander MacMillan and scientific staff aboard his Arctic exploration ship Peary is visiting various fjords and ports to the south of Godthaab, Greenland. Later with the Bowdoin they will visit the Labrador and if Lieutenant Commander Byrd in charge of the navy section deems it feasible, airplanes will be used to visit interior ruins reported by Indians and Eskimos, but never visited by white men.

300 OF ROYALTY AT THIS WEDDING

TURIN, Italy, Sept. 25.—With only a little more than a week intervening before the wedding on September 29, of Princess Mafalda, second daughter of King Victor Emmanuel, and Prince Philip of Hesse, preparations for the nuptials are daily nearing completion. It is expected that there will be some 300 members of royalty and nobility present. Prince Philip himself has invited nearly 150 persons to the nuptial Palace royal court at the end of the present week, as well as a corps of the royal cuirassiers, who will lend additional splendor to the ceremony through their magnificent uniforms. Under the personal supervision of Queen Helene, the little chapel in Villa Verena, situated at the extreme end of the castle grounds, is being completely transformed and re-decorated. A profusion of red, black and orange velvet is being used in the color scheme of the chapel, which will be the scene of the nuptial mass celebrated by Monsignor Beccaria, chaplain of the court. With the exception of a few state officials and close personal friends of the bride and bridegroom, only members of the house of Savoy and Hesse have been invited to be present at the religious ceremony. It has been decided for this ceremony the women shall wear black evening gowns, the men long, double-breasted coats and top hats and officers full dress uniform. King Victor Emmanuel, who will wear Mafalda's altar, will wear the dress uniform of a marshal of Italy. The festivities will begin this week, for many of the guests invited to the wedding will come early in order to attend the celebration of Crown Prince Humbert's birthday on Tuesday, when he attains his majority. After the birthday celebration a series of banquets has been planned for nearly every day until the wedding takes place the following Wednesday.

BRITAIN AGAIN SHOWS THE WORLD THAT SHE IS IN VAN OF PROGRESS.

LONDON, Sept. 25.—The new wireless station which the British government expects to open next year at Rugby will make it possible for Great Britain to talk to the entire world without the aid of intermediaries. Trials start in November, with twelve "Eiffel Towers," as the giant masts, which rise 250 feet in the air, are called. Never before has the Eiffel Tower in Paris been approached so nearly in height within the British Empire, although the famous tower in Paris is 900 feet high. The masts are among the tallest in the world, and are twice the

Weekly London Letter

THE OFFICE OF THE HIGH COMMISSIONER FOR CANADA IN LONDON 3RD SEPTEMBER, 1925 WEEK BY WEEK.

General Sir Fabian Ware, Vice Chairman of the Imperial War Commission, leaves for Canada on September 11th, to deliver a number of lectures in leading Canadian cities. He will deal with the work of the Commission in caring for the dead who fell in the Great War.

The High Commissioner's Office is informed by the Trade Commission in Great Britain that they have received the following enquiries for Canadian goods during the past week: A Manchester firm wishes to get into touch with Canadian exporters of Turkeys, for this season's Christmas trade.

A Glasgow firm desires to be placed in touch with Canadian exporters of Chemical Fire Extinguishers. A Belfast firm of high standing desires to import Linsed Cake direct from Canadian manufacturers.

A firm in Nottingham who are leather and sundries and accessories for boot traders, would be glad to consider samples and quotations from Canadian exporters. A Glasgow firm supplying manufacturing confectioners desires to get into touch with Canadian exporters of Glucose.

A Birmingham firm of manufacturers desires quotations from Canada on refined Nickel bars, rondells, pellets or cubes. Quotations to be in 25 ton lots, c. i. f. U. K. port. A firm in Northern Ireland desires to get in touch with Canadian exporters of Cattle Feeding Stuffs.

A Birmingham indent house, dealing with China, India and Straits Settlements, desires catalogues and prices from Canadian manufacturers of Hardware of all kinds. A firm in Copenhagen, Denmark, wishes to be placed in touch with Canadian shippers of Oilcake and Oil Mill Offals, sulphate of Copper, Manganese Sulphate of Iron (Copperas).

Further details of these can be obtained from the Commercial Intelligence Branch of the Department of Trade and Commerce, Ottawa or from the Canadian Government Trade Commissioner, Canadian Building, Trafalgar Square, London, S. W. 1. Four shipments of Canadian Store Cattle numbering 1,761 animals have arrived in the United Kingdom during the past week, all being landed in good condition. The High Commissioner for Canada from the Agricultural Co-operative Society in the North of England wishes to arrange for the importation and sale of Canadian Store Cattle.

Press Bulletins circulated recently from the High Commissioner Officially included a Canadian Official Mining News Letter dealing with the Asbestos Industry of Canada, and a Bulletin dealing with Casen and its Industrial Applications. Bulletins have also been circulated reporting harvest prospects and estimates of the stock of grain on hand in Canada on July 31st.

To sharpen scissors take the back edge of a table knife and use the scissors as if cutting the knife. Do this several times and a keen sharp edge will be the result. WEMBLEY AND CANADA'S INDUSTRIES.

Now that the close of the Empire Exhibition is at hand, it is not inopportune to review the many far-reaching results achieved, as detailed by Mr. J. S. McKinnon.

Nature's Warnings

Danger Signals That Everyone Should Take Seriously Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pains in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints; headaches are a sign that the nerves or stomach are out of order. In some ailments, such as anaemia, pain is not so prominent as in this case Nature's breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Berndt, of Annapolis, Ont., has proved the great value of this medicine and says:—"I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

the Director of Industrial Exhibits. The entire Exhibition has been a valuable object lesson, and no one country has merged into the sunlight more than Canada. Quite apart from the Canadian Pavilion bringing home forcibly the capacity of the Dominion, on only to provide homes for countless thousands of the British race, and also to furnish new avenues of profitable trade and investment, but Wembley has brought about the public recognition of Canada as a great manufacturing country occupying the foremost place in the whole Empire next to the Mother country itself.

It is said that seeing is believing, and Wembley has brought the people of Great Britain face to face with the fact, demonstrated by the actual products, that the manufacturers of Canada embrace many industries, and that the Dominion's industries are consequently most widely diversified in automobiles, agricultural implements, cotton woolen and silk textiles, leather, shoes, rubber goods, pulp and paper, furs, furniture, iron and wood-working machinery, tobacco, wines, tinned salmon, stoves, ranges, household labour saving devices, etc., etc.

With reference to Salmon, Mr. McKinnon points out that, as cases were left unused in 1923, but as the result of the Exhibition these cases have been absorbed and the entire pack for 1924 and 1925 has found a market. Canadian times Salmon, in fact, at the present moment, stands higher in the United Kingdom than at any previous period, and so great is the call for Canadian lobsters that the Dominion is now unable to supply the demand.

The Exhibition has also proved that Canadian furniture can be sold in almost every part of the world, and Canadian furniture in India and Egypt. In a South American public building 2,500 Canadian chairs, ordered at Wembley, will be in evidence.

Another important result of the Exhibition is the general recognition of Canada as a great rubber manufacturing country. One Canadian Company in Wembley, as a direct outcome of Wembley, has formed a branch Company in London, while another Company last month booked an order for 35,000 pairs of rubber boots. As a matter of fact, Canada can secure a much larger part of her goods than the great value of her goods has been seen and appreciated.

Appropos of furs, Canada has always been regarded as the great producer of raw furs, but it has been shown at Wembley that there is a big demand for the Dominion's representative fur, the firm alone at Wembley, Canadian Pavilion has sold close to 100,000 dollars worth of made up furs.

Canadian agricultural implements are second to none and find their way to all the agricultural present moment one of the Government's representatives, and are preparing to export business. The High Commissioner has been asked to draw the attention of the authorities in Canada to the proposal to hold a third Public Works and Exhibition in London next November.

The Trustees of the British Museum (Natural History) have notified the High Commissioner with deep regret, of the death from malaria of Mr. W. E. Cutler, leader of the British Museum Expedition to the University of Manitoba and was engaged for the work on account of his extensive experience of collecting large dinosaur fossils in North America.

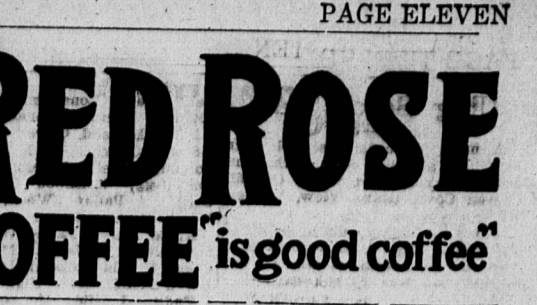

Now that the Canadian Office occupies such a commanding and central position, Canadian visitors to London are making good use of the Reception and Writing Rooms conveniently situated at the entrance of the High Commissioner's Office.

The High Commissioner's Office is informed by the Trade Commission in Great Britain that they have received the following enquiries for Canadian goods during the past week: A London firm wishes to effect connections with Canadian producers and exporters of Sausage Castings.

A London Company asks to be placed in touch with Canadian manufacturers of Ladder Rungs in a position to undertake export business. A Belfast Agent, who has had many years experience as a traveller in Canada for a first-class Canadian manufacturing firm, desires to represent, on commission, Canadian houses in Ulster. The products particularly in view are oatmeal, Oats, Barley, Flour and Hay.

A Birmingham Company wishes to get into communication with Canadian manufacturers of Electrical Sundries and of Metal Goods suitable for the Hardware Trade. A Company firm would like to receive samples and quotations from Canadian manufacturers of accessories used in the manufacture of boots and shoes, such as: Heeling Boards, Shank (Steel, Wood and Board), and Stiffeners. A firm in the North of Ireland wishes to secure the representation of Canadian exporters of Gall-on Apples.

A West of England merchant desires to get as representative for Canadian firms for all types of agricultural accessories, including insecticides, fertilizers, hay and poultry applications, lawn mowers, etc. A Manchester firm asks for quotations from Canadian manufacturers of Broom Handles, Clothes Props and Wood Rollers.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with Crop conditions in all sections of the districts mentioned.

Wheat cutting is now practically completed in the Prairie Provinces, though temporarily delayed by wet weather. In Alberta and Southern Saskatchewan deliveries are exceptionally heavy at country points. In Ontario all the grain crops have been harvested and threshing of fall wheat practically completed. The fruit harvest is at its peak in Quebec Province grain harvesting is still in progress. Threshing returns so far showing an excellent yield. In the Maritime Provinces favourable weather continues and the outlook generally is satisfactory. Fine harvesting weather in British Columbia during the week has improved the outlook. Details follow:—

GENERAL. PRAIRIE PROVINCES. EDMONTON DISTRICT.—Wheat cutting about completed. Threshing should be general this week. It has been started in the eastern section but delayed by rains. CALGARY DISTRICT.—Wheat cutting in eastern section. Threshing was well under way when delayed by rains, but should be resumed shortly. Yields generally satisfactory. Grades averaging No. 2. LETTIBRIDGE DISTRICT.—Threshing delayed by rains but should be resumed shortly. Yields in western section continue satisfactory, little crop in eastern section. NORTH-EASTERN SASKATCHEWAN.—Cutting nearly completed with exception of late sown grain. Threshing delayed by wet weather but should be general in few days. Wheat expected to average 18 bus. per acre. SOUTHERN SASKATCHEWAN.—Threshing now general. Yield and grade of wheat vary greatly but are generally fairly satisfactory. Coarse grain crops are light. Harvesting temporarily delayed owing to heavy rain. MANITOBA DISTRICT.—Harvesting operations have progressed rapidly during the past week under favourable weather conditions. Threshing general and deliveries are earlier than last year. Wheat is turning out better than expected.

PROVINCE OF QUEBEC. Corn shows improvement but is below average. Rot reporting in the potatoes does not appear to be serious and an average crop is expected. Vegetables are plentiful and good. Pastures need rain. JUSTICE CALDWELL said the prisoner appeared dissatisfied, then he raised the sentence to 60 days. Evidence indicated that McLeod had been spreading revolutionary propaganda among the harvesters.

Halifax Youth Is Jailed For 60 Days

YORKTON, Sask., Sept. 25.—Elmer McLeod, 22, who gave his home address as Halifax, was sentenced to 30 days hard labor by Justice of the Peace Saldwell, Saturday, after being found guilty on a charge of vagrancy, remarking that "you might just as well send me down for the winter. The harvest will be over by the time I am released."
