ANNOUNCEMENT

Messrs A. Horne and Co. who have taken over the management of the Central Garage as a "Service Station" for Chevrolet and Studebaker cars have been making some big improvements in this the "Biggest Garage" on Prince Edward Island. This Garage is 125 feet long and 60 feet wide and has not a post inside the building all of the work being handled on the ground floor.

The work shop is in the rear where four cars can be overhauled at one time. This department is under Mr. H. W. Chittick, specialist on "Chevrolet and Studebaker Cars". Mr. Chittick has been in the automobile repair business for sixteen years and has worked in some of the best garages in both Canada and the United States. He will have with him Mr. Maurice Martin, who has spent the last six years as an automobile mechanic in the United States. These men will have a number of good mechanics with them and all the work will be thoroughly inspected and tested before being handed over to their customers.

Mr. Ray Jewers will be in charge of the Service Station as Mr. Jewers is a Charlottetown man and having given service on cars for a number of years he needs no introduction to the public. The "Chevrolet" and "Studebaker" cars which you see running through the city and country every day all having come through his hands. Mr. Jewers will have with him Mr. Hudson McLeod, "Sergeant Hutts" as his assistant. Mr. Sidney Rickard, who has been with the Central Garage Co for a number of years will continue in his former capacity.

Mr. R. L. McKee who has served a number of years as automobile mechanic will have charge of the Chevrolet and Studebaker Parts, also the Accessories, Tires, Gasoline, Oils, etc. They have fitted up a new Parts Room at the front of the Garage, and the upstairs will be used as a storage room for surplus Stock Tires, etc.

Since taking over the Garage we have increased our stock of Parts by 200 per cent which will insure that customers will get Parts required for their cars with quick despatch.

We want every "Chevrolet" and "Studebaker" owner to make our Garage their headquarters for Repairs and Service, and our mechanics will only be too glad to give any information which will assist owners and drivers in getting the best results from their cars.

We will have a "free" Water and Air Station on the Street in front of the Garage, which we hope all our customers will make use of . Help us make "Chevrolet" and "Studebaker" Service better by giving us patronage.

A. HORNE and CO
Dealers in Chevrolet nad Studebaker Cars.

MONCTON VETERANS OBJECT TO FARMERS.—Before the pensions commission David Cochrane, representing three hundred returned men laid off from the C. N. R. shops in Moncton, said these men had served overseas and returned to find their position filled by "farmers who had used their farms as a cloak to evade the M. S. A." Further than this the C. N. R. was running a train to take them to and from their work. "Their daughters were wearing seal coats while returned men were walking the streets," Mr. Cochrane declared. There was plenty of work. More than 700 freight cars were awaiting repairs at Moncton, in addition to fifty locomotives. This was while the farmers of the west were asking for cars to move for wheat. Mr. Cochrane knew of a former captain who was working with a pick and shovel at $3 a day in order to feed his family.

HAVE YOU ENTERED THIS COMPETITION YET?

To enter this "Oldest Stove" Competition you do not have to enter a stove or range that has been bought at HOLMAN'S—any stove bought from any place—so long as it is in use—can be entered.

Here are the PRIZES

For the person who sends in the best description of a range that embodies all perfections and improvements—a Holman Reliance Steel Range, valued at $87.00.

For the second best description—a 3 piece set of Aluminum Kitchen Ware.

For the name and location of the oldest stove or range in use on Prince Edward Island (must be doing all the kitchen work for the home)—a 14 piece set of Enamel Kitchen Ware.

For the name and location of the second oldest stove, or range in use on P. E. I.—a Golden Oak Rocker.

To all persons who have been using any stove or range for 10 years or more—a subscription to McClary's Magazine.

These prizes are on display in our Hardware Show Window.

Summerside and Western Guardian

—**IT PAYS** to buy in this pro.

—**WOMEN'S SILK LISLE** Hose sold at 85c now going in our hosiery sale 3 pairs for $1.70. Sinclair & Stewart, Limited.

—**KENSINGTON DRAMATIC CLUB** will present the spectacular drama "Lighthouse Nan" in the Strang Theatre, Kensington, Wednesday, May 4.

—**ONLY A FEW** days left to to secure you tickets for St. Dunstan's Play "Under Cover" in Happyland Theatre, Summerside, Tuesday, May 3rd.

—**COME TO THE CONCERT** and supper in Bradalbane Hall on Tuesday, May 3rd,. If night proves unfavorable will be held first fine night following.

—**UNNATURAL AFFINITIES.**—The first appearance this spring of the unnatural affinities—a straw hat and a fur-collared overcoat—was seen on Water Street, Summerside on Saturday morning and created a mild sensation in the street.

—**THE 4 ACT COMEDY DRAma** "Home Ties" will be presented by the Wide Awakes of the Bedeque Young Peoples society, in the Central Bedeque hall, on Tuesday, May 10, 1921 at 8 o'clock. Admission; Adults 35c; Children 20c. If the weather proves unfavorable, play will be held on Wednesday, May 11th.

—**ENTERED PORT ON SUNDAY**—Schooner Harry B., Capt Duplissey with coal for Joseph Read & Co. Schooner Melrose, Capt Kennedy, from Pugwash with brick for Messrs Holmans, Ltd. On Monday morning the schooner Marine Phillis entered loaded with brick from Pugwash. H

—**WELL KNOWN RESIDENT DEAD.**—The death occurred a few days ago of Benj. Huntley at the home of his mother, Mrs. Huntley, Conway. Ben was well and favorably known in Summerside, where he had been for some time a valued employee of Messrs Holman, Ltd., but on account of ill health, was obliged to resign early in the winter. He was of a quiet disposition, demonstrating that actions speak louder than words. His many friends here extend sympathy to the bereaved ones. H

—**PAID UP.**—The party for selling milk without his license was up before Stipendiary Wyatt Monday morning and contributed to the funds of the town and also took out the necessary papers entitling him to continue the milk business in the town.

—**RESUMED BUSINESS.**—The many friends of Dr. Frank Bowness who was obliged to discontinue business owing to illness the past year, are glad to know that he has opened up his dental parlors again in the same office on Water Street and we bespeak for him a good share of patronage.

—**MAKES PRESENTATION.**—Former associates of Miss Margaret McPherson of Sinclair & Stewart's store met at the home of Mr. and Mrs Geo. Hogg on Friday evening and presented Miss McPherson, who is shortly to be a principal in an interesting event with many beautiful presents, including cut glass, silver, etc., and a very enjoyable evening was spent.

—**POTATOES DOWN.**—Yesterday farmers in the vicinity of Summerside were paying and receiving 25 cents a bushel for potato sets, the lowest price recorded since several years before the outbreak of war. Last year the current price was $3.55 a bushel with a strong market; this year the demand is not in any way brisk. As it is an ill wind that blows nobody good, it looks as if the price of spuds should be a little lower for the average consumer this fall.

—**HOLMAN'S REVIEWED**—The principal article in the April issue of the Canadian Furniture World just received, is a rather complete review and description of the arrangement, sales plans and methods of the furniture department of R. T. Holman Limited, Summerside. The article is well illustrated with views of the store exterior and department interiors. Editorial reference to the account says—"Being located in a small town this company through aggressiveness and progressiveness has built up a furniture business that ranks among the top notch furniture business of Canada."

—**CAPE TRAVERSE NOTES.**—Several of the farms in Cape Traverse have recently changel hands. —Miss Bessie Waddell is recovering from an attack of measles.—Mr. Raymond Wood, Tryon, has been confined to his home for the past two weeks. His many friends hope to see him out again soon.—Miss Laura Muttart spent Sunday in Charlottetown visiting her sister, Miss Mary.—The many friends of Mrs. James Howatt will be pleased to learn that she is out again after her recent illness.—Miss Pearl Howatt, Kensington, spent a few days visiting her parents, Mr. and Mrs. James Howatt, Cape traverse.

—Her many friends will be pleased to learn that Mrs. J. L. Muirhead of this town, is rapidly recovering from her recent attack of illness. H

—Friends of Mr. Earl Corney are glad to see him out again much improved after his recent operation at the Prince County Hospital.

—Mr. Jelas Peters who has spent the winter at Campbellton, N. B., is in town, guest of Mr. and Mrs. Charles Arsenault Cambridge Street. H

—Mr. Ralph Noonan, student at Toronto Dental College, is spending his holidays at the home of his parents, Mr. and Mrs. J. M. Noonan. H

—Mrs. Timothy Ryan of DeBlois was in Summerside Saturday visiting her son, who has recently undergone an operation for appendicitis in the Prince County Hospital. She was accompanied by Miss Mae Nelligan of Tignish.

—Mr. Fred Bourke, superintendent of the Provincial Immigration Hospital for foxes and other animals, who has been in Summerside for some time spent the weekend at his home in Charlottetown Royalty.

—Miss Belle Brennan of Long River was a passenger on the car ferry last week en route to Calgary, Alberta, where she intends to reside. She will be much missed in Long River but more especially in Northora where she had many warm friends. Her friends all join in wishing Miss Brennan much success in the golden west.

FIRST WHEAT CARGO FROM PACIFIC COAST.— In Millwall dock, London, England several days ago, the motor-ship Buenos Aires of Stockholm, newly painted and beflagged, was the scene of a luncheon, to commemorate her arrival in the Thames with the first cargo of Canadian wheat to be brought to Europe by way of Vancouver and the Panama Canal. While the luncheon proceeded the wheat was being steadily discharged from her holds. Sir Geocge Perley, the High Commissioner for Canada, said that for many years in Canada the hope had existed that wheat would one day come out over the western coast, and long ago, in anticipation of that time, they had decided to put up grain elevators at Moose Jaw, Saskatoon and Vancouver. He believed that a great deal more wheat would follow that brought by the Buenos Aires. The agent-general for the province of British Columbia, F. C. Wade, K. C., said they might be on the threshold of a great awakening on the Pacific Coast, and in such an event British Columbia was well equipped, in her physical features and her vast natural resources, to enter into the game.

ONLY ONE FACE—Bobby walked round and round the visitor and seemed to be inspecting her from all sides. "Why do you look at me so, Bobby?" said she. "Mamma said you were two faced, but I can't find but one," said Bobby gravely.

Dr. Harrigan's Advice To Thin, Nervous People

It's worth your while to read what a New York specialist has to say about the nerve and brain cell builder that Hughes Drug Co., Ltd., and other leading druggists sell so much of these days. He writes:

"Let those who are weak, thin, nervous, anaemic or run-down, take natural unadulterated substances such as Bitro-Phosphate and you will soon see some astonishing results in the increase of nerve energy and strength of body and mind."

Bitro-Phosphate is a pure organic phosphate such as good physicians prescribe to increase weight and create abundant nerve force.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.

SOWING GOOD CLEAN SEED PAYS IN RESULTS

Net Profits from Same Area Increase by Planting only Best Seed

Increasing the acreage of crops grown on the farm does not always mean greater net profits. The latter, per acre, are very frequently quite small. If the yield, per acre, can be increased without raising the cost of production the increase in yield will all go towards increasing the net profits. Let us assume, that a farmer's wheat crop yields 24 bushels per acre, and that it takes 20 of the 24 bushels per acre to pay rent or interest on capital invested, and the cost of preparing the land, seed harvesting, threshing etc. This would leave 4 bushels from each acre as the net profit.

On a large proportion of Canadian farms uncleaned or improperly cleaned seed is grown. There is no excuse for sowing so much dirty and poorly graded seed. The fanning and grading can be done in the slack time and well ahead of the busy spring seeding. This grading would not add to the cost of production of the crop and the larger yield secured would substantially increase or , in many instances, double the net profit. Experiments conducted with oats at Guelph over a period of seven years showed the following results:

Large seed.. .. 62 bush per acre
Medium seed ....54 bush per acre
Small seed .. ..47 bush per acre

Similar experiments with wheat, barley, rye and peas gave much the same results in each case. The small, shrunken and split kernels are much more valuable for feed than for seed. Another great advantage obtained by fanning and grading the grain for seed is that weed seeds are cleaned out. One way to prvent having weedy crops is to sow seed grain free from weed seeds. One weed seed sown may mean thousands of weed seeds are cleaed out. One crop. Many of our worst weeds produce thousands of seeds per plant.—
F. C. Nunnick.

GYPSUM

Wide Range of Uses—Building Trades are large Consumers

Gypsum, or hydrated sulphate of calcium is one of the important non-metallic minerals of Canada. It is found in all the provinces, with the exception of Prince Edward Island, in one or more of its three forms, selenite, a crystallized variety; satin spar, a fibrous variety consisting of long silky crystals, and alabaster, a fine-grained white variety.

Gypsum occurs in beds, often of great thickness, and is usually mined by the open quarry method, after which it is crushed to the degree of fineness necessary for the product for which it is required

The principal uses of gypsum are as wall plaster and in the manufacture of plaster of paris For these products gypsum after being finely powdered, is calcined, or heated to drive off the moisture. It possesses the valuable property, however, of being able to absorb moisture again. This permits of it being spread or moulded when in a wet state and of quickly hardening. As plaster of paris it is used for a variety of purposes, such as a plaster finish coat, for moulding and pattern and for casts of art objects. In the making of cold water paints it supplies the body that carries the colour; it also forms the base for paris green and other insecticides. For fireproofing safes, etc., calcine gypsum is used between the metal walls. Moulds for casting babbit metal, for making rubber stamps, hat blocks, etc., are made out of gypsum, while the finest grade of plaster of paris is used for surgical casts and in dentistry for taking impressions for plate work. It is occasionally used as a filler in the manufacture of textiles and paper and in asbestos, wallboard and pipe and boiler covering. In the making of portland cement gypsum is used as an ingredient for the purpose of regulating the period of settling.

As a fertilizer, gypsum has long been used either alone, when it is known as land plaster, or as an ingredient of many artificial fertilizers. It has the property of liberating plant food in the soil.

New uses are constantly being found for this adaptable mineral, and the revival of the building industry will no doubt result in an increased production. In 1920 429,144 tons were mined, of a value of $1,876,595.

UNEMPLOYED COST .$23,133,093—That up to April 23, $133,093.42 had been paid by the Dominion Government to municipalities throughout Canada under the emergency appropriation for relief of the unemployed, was stated in the House of Commons this afternoon, Winnipeg lead the list with $51,003,-49, and Vancouver next with $49,-457. The municipalities and the amounts paid to them as the government's share of the relief plan, follows: Amherst, N.S., $830.54; Montreal, $3,811.03; Winnpeg, $51,-003.49; Moose Jaw, $7,505.10; Saskatoon, $1,320.37; Regina, $10,540.-24; New Westminster, B.C., $113..30; Vancouver, $49,457; St. James, Man., $847.47; West Kildonan, B. C., $316.43; Burnaby, B.C., $140; Nelson, B. C., $105.51; Price Rupert, B.C., $1,558.45; the district of South Vancouver, B.C., $5,519.-28; Cumberland, B.C., $26.21. Total $133,093.42.

CANADIAN MERCHANTS REACH SOUTHAMPTON—A delegation of drygoods merchants from Canada and the United States arrived at Southampton aboard the steamer Olympic. They were met by a reception committee of British drapers who cordially welcomed the visitors and escorted them to London, where they will remain until May 5, when they will begin an extensive tour of the provinces. The visiting merchants will be the recipients of a constant round of luncheons, dinners and visits during the six weeks of their inspection of British drygoods industries factories and related businesses. They will be entertained in London by the Government the Lord Mayor, Lady Astor and a host of others before the departure for the provincial cities.

This Store Closes Daily, Except Saturday, at 5 p. m.
