Now for THE LATEST DIRT

Whether it's the latest or the oldest dirt makes little difference to Bon Ami. Dirt and grime of all sorts disappear as if by magic under a few easy strokes with this matchless cleanser. For Bon Ami is a fine, pure powder that quickly penetrates dirt—and "absorbs" it. That's why Bon Ami doesn't scratch, as coarse, gritty cleansers do. It acts on the dirt—not on the surface it cleans. Makes the dirtiest kitchen sink immaculate in a jiffy—and cleans and polishes utensils, windows, mirrors, bathtubs, basins, tiling and many other things.

Bon Ami is odorless, never clogs drain pipes and doesn't redden or roughen your hands. Sold at all grocery stores. Bon Ami Limited Montreal

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake Up Your Liver Bile . . . Without Calomel, And Feel Like a Million Dollars.

Nothing can put your system out of kilter more quickly than liver. All it has to do is stop pouring its daily two pounds of liquid bile into your bowels—and life certainly gets grey. That sluggish flow of bile slows up digestion and elimination and makes you feel puny. Your stomach acts up—gas, bloating, sourness, pain. Your breath is bad and the taste in your mouth is nasty. Your head aches. Skin is blotchy. All, of course, because your system is full of poisons. Liver bowel movers like salts, oil, mineral water, roughage, laxative candy or chewing gum are not good enough to correct this condition entirely. You're livery and you must wake up your liver bile to be happy again. Avoid calomel (mercury). The thing for you is a box of Carter's Little Liver Pills. They never upset you because they're purely vegetable, gentle and safe; but how they do change your view on life. Don't waste your money on substitutes. Be definite. Ask for Carter's by name—and get them! Look for the name, Carter's, on the red label. 25c. at all druggists.

I feel sure there isn't a tonic on the market today that can equal the 'Discovery' for strengthening the weak spots in the human system."

BUCKING BED SUBDUED
 London's bucking bed refused to perform for Harry Price, of the National Laboratory of Psychological Research, when he tested it the other night. The bed is of Elizabethan carved oak, and its woman owner, who is reported to have been thrown on to the floor, says that it possesses uneasy powers. Others had reported that they could not sleep in it. Price and C. E. M. Joad erected a camera to record themselves when they were thrown out. But the bed was so docile that they had several hours' sleep. There were 95.611 pounds of putty imported from Belgium in September. The value was \$1,000.
