Austria's Emperor May Be Banished

(Special to the Guardian) PARIS March 12.—Information has reached responsible quarters in Paris that the Austrian Government is contemplating the enactment of a law banishing former Emperor Charles.

Germans Try to Excite Revolution

(Special to The Guardian) PARIS, March 12.—The Council of the great powers heard today a statement presented by Dr. Benes of the Czechoslovak delegation on the widespread conspiracy alleged to exist against the new state.

WEAK, WORRIED WOMEN

Can Find New Health and Strength Through the Use of Dr. Williams' Pink Pills

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But, at the same time, it is the duty of every woman to save her strength as much as possible.

To guard against a complete breakdown in health the blood must be kept rich, red and pure. No other medicine does this so well as Dr. Williams' Pink Pills. This medicine actually makes new, red blood, strengthens the nerves, restores the appetite and keeps every organ healthily toned up.

"Two years ago I got weak and badly run down, and could scarcely do my housework. I grew so thin that my friends used to comment upon it. At that time my baby was six months old and the care of it and my housework was almost too much for me. It was at this stage that my husband got me a supply of Dr. Williams' Pink Pills, and before I had been taking them long we could see an improvement in my condition.

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

GERMANS DENOUNCE LEAGUE OF NATIONS

(Special to the Guardian) WASHINGTON, March 14.—General opposition to the proposed League of Nations is reflected in recent German newspaper comment received by the State Department and made public today.

KING'S COUNTY SEED FAIR

King's County Seed Fair, Domestic Science and Poultry Show was held at Georgetown on Tuesday, March 11th.

The Domestic Science exhibit was a new branch in the Seed Fair this year. This has usually been seen only at the annual fall exhibition, but many are in favor of having it with the seed fair as well and it is to be hoped the committee will make arrangements for it in future.

With the exception of Poultry and Seed classes every one was fully filled. In the Domestic Science, judging was made difficult by the immense numbers of entries and the excellence of them all.

Special mention may be made of the splendid poultry in the White Wyandottes and Plymouth rocks sections there were many entries.

The geese and turkeys, although not many specimens were submitted, were most excellent.

On the whole, the people of this county are to be highly congratulated on the fine showing their products make at these fairs. They should strive as each year comes around to make the quality if possible higher than the last year.

Following is the prize list:

Tageblatt, now learn that in the League of Nations statutes "established at Paris without consultation, no attention appears to have been paid to Germany, evidently considered a second or third rate power. The league is a draft, not a League of Nations but a league of arms against Germany."

The Leipzig Tageblatt says:—"It is our misfortune we are in a disadvantageous position regarding power. That should not deter us from approving the erection of a league, for the cause is of too great importance to us. Our existence as a national and economic body is at stake, and this is better safeguarded within than without the league. It does not follow that we must swallow the treaty in its present form."

The Vossische Zeitung terms the "draft a grievous disappointment merely an instrument merely to maintain the supremacy of England and America."

Britain is Not Building Dreadnoughts

(Special to the Guardian) LONDON, March 14.—Replying to a question in the House of Commons last night Thomas J. Builds You Up

The Right Way—Spring Medicine that Begins and Ends Right

So generally successful is Hood's Sarsaparilla as a Spring medicine, and in all ailments of the blood, stomach, liver and kidneys, that it may truly be said to give universal satisfaction. It has been before the public for nearly 50 years, and today has the largest sale of any sarsaparilla. Nothing under the sun could keep up this great demand but phenomenal efficiency and loyal support by the people of a good medicine.

It thoroughly renovates the blood, adds red corpuscles, creates an appetite, tones the stomach, aids digestion, perfects assimilation, secures 100 per cent benefit of the food you eat. Hood's Sarsaparilla represents the wisdom of one of the best physicians Boston ever had, combined with the practical experience of a pharmacist who has been putting up prescriptions for more than 50 years.

PLOT TO OVERTHROW THE U. S. GOVERNMENT

(Special to the Guardian) WASHINGTON, March 14.—Evidence gathered by the Post Office Department and the Department of Justice showing a country-wide radical propaganda urging overthrow of the United States Government by violence, and the setting up of Bolshevism, was put into the Senate propaganda investigating committee's record today by Major E. Lowery Humes, counsel for the committee. The document included a memorandum submitted yesterday by Solicitor Lamar, of the Post Office Department, asserting that the I.W.W. Socialists and other radicals in this country had found a common cause for the first time in Bolshevism.

Some of the Propaganda.

One of the Department of Justice exhibits was an anarchistic poster which made its appearance recently throughout New England. It was described as a typical piece of red propaganda. It denounced the proposed alien radical deportation law, and said among other things: "Deportation will not stop the storm from reaching these shores. The storm is within, and very soon will leap and crash, and annihilate you in blood and fire. Another piece of propaganda declared "every strike is a small revolution and a dress rehearsal for the big one."

Completing the Peace Terms

(Special to the Guardian) PARIS, March 14.—The first rough outlines of the peace treaty are beginning to take form as a result of the rapid disposal of the main questions before the council of the Great Powers. The preliminary draft will be well along within the present week. It will embody, however, only five or six main divisions namely, first, military, naval and aerial terms; second, reparations for the war damages; third, German boundaries; fourth, economic and financial provisions and probably, fifth, responsibility for the war.

TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea sets in. Baby's Own Tablets should be given the little one. They sweeten the stomach; regulate the bowels and keep baby good natured. Concerning them Mrs. Marcel D. LoBlanc, Memramcook, West, N.B., writes: "I have used Baby's Own Tablets for the past six years and have found them indispensable. To my mind nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Help Him to Help Himself

We owe the returned soldier every effort we can make towards securing steady employment for him. Do not try to throw the burden entirely on employers. They have a grave responsibility, but only insofar as every man, woman and child gives willing help can Canada ensure a fair day's pay for a good day's work for all her men.

How can YOU help? By investing in War-Savings Stamps. How will THAT help? Canada must secure foreign purchasers for the products of her forests, farms, and factories. Many nations are anxious to buy our goods, but can only do so if Canada grants credit to them. Lend your money to Canada, so that Canada may re-lend to those who must buy on credit. The money is being raised by the sale of War-Savings Stamps, so that when you invest in a War-Savings Stamp you provide a day's pay for some returned soldier. A War-Savings Certificate with 10 W.S.S. affixed will be redeemed by the Dominion of Canada on January 1st, 1924, for \$50.00, for at that date the W.S.S. are worth \$5.00 each. War-Savings Stamps cost \$4.02 in March; \$4.03 in April; \$4.04 in May, and they may be purchased at any place displaying the Beaver-Triangle sign.
