REVEAL PLANS FOR PERMANENT ARMY

$8,000 Fire At Pleasant Grove Last Evening

An $8,000 fire at Pleasant Grove last night destroyed the dwelling and three barns belonging to Parnell Curran. The blaze broke out shortly after dark and neighbors, without fire-fighting equipment, were powerless to prevent its spread.

The loss included practically all the furniture and farm machinery and a bull. In addition a brood sow is missing and is believed to have burned. Other livestock were in pasture.

The dwelling was a large homestead. Two barns burned were also large, and the third was a small shed.

A stiff breeze fanned the flames.

The origin of the fire was not learned. There was only a small amount of insurance on the buildings.

OVER SYDNEY CENOTAPH

SYDNEY, Australia—(CP)—The Union Jack which flew over the London cenotaph on Sept. 3, 1939, flew from the Sydney Cenotaph on V-E Day. The flag was received from London in July 1941 as the gift of British ex-servicemen.

Coming Events

"Show St. Peters Wednesday. 9-4-2i

"Show Murray River Thursday. 9-4-2i

"Alert feeders will stock up on wheat and oats while they have a chance. It's an opportunity, we're telling you. Livestock Feed Agency. 9-5-2i

"Western wheat and oats not easily available. We can't buy barley. So stock up while our supply is offering at a close price. Quality, our usual high standard. Livestock Feed Agency. 9-5-2i

"Buying pigs today at Fredericton. Thursday, 9 A. M. New Glasgow, 10, Wheatley River, 11, Brookfield, 1 P. M. New Haven, 3, Kelly's Cross, Friday, 1 P. M. York, 2 Bedford, 3, Mt. Stewart, 4, Waterdale, 5, Vernon River. Paying $15.00 a pair for good pigs over 30 lbs. Will also buy smaller ones. Kindly notice a change in date. Knud Jorgensen. 9-5-2i.

Local Government Stresses Ottawa Responsibility For Veterans' Hospitalization

The taking of "immediate steps to alleviate the present unfortunate conditions through the establishing in Prince Edward Island of the necessary accommodation and medical treatment for veterans" has been urged upon Hon. Ian MacKenzie, Minister of Veterans Affairs, in a resolution approved by the Lieutenant-Governor in Council and forwarded to Ottawa over the week-end.

Action to this effect was taken following lengthy negotiations with Hon. Mr. MacKenzie's department which have proved unsatisfactory from the provincial standpoint.

In its resolution, the Executive Council emphasized by way of preamble that "no preparation has up to the present been made, and no adequate facilities exist in this Province for the hospitalization and surgical treatment of men and women from Prince Edward Island in the armed forces and now returned, or returning from service overseas."

Expense and Suffering

It states that "under existing arrangements personnel requiring medical attention are either obliged to remain in Halifax, or elsewhere, or to return to points outside the Province for necessary treatment", and that the present conditions "entail additional expense to all concerned as well as great inconvenience and suffering in many individual cases."

Prior to approving the resolution, the Executive Council was waited upon by a large delegation representing the Canadian Legion and the Prince Edward Island, Charlottetown and Prince County Hospitals, urging further action in this matter. A similar delegation had previously waited upon Hon. Mr. MacKenzie, but without any definite result.

Federal Offer "Paltry"

Premier J. Walter Jones has been in correspondence for some time with Ottawa on this subject. Mr. MacKenzie's department had suggested contributing towards additions to the three standard provincial hospitals at the maximum rate of $1,500 per bed. This sum, in Premier Jones' opinion, would be "but a paltry contribution for what is solely a Dominion Government responsibility, when it is considered that up-to-date hospital construction will require an outlay of approximately $4,000 per bed." Even the $1,500 contribution per bed, the Premier said, had not been definitely promised by the Dominion Government.

The question of service men's hospitalization was discussed in the Legislature last March, when the Premier intimated that he hoped satisfactory arrangements would be made with the federal authorities. It had previously been urged very strongly, and on several occasions, by Hon. Dr. W. J. P. MacMillan, leader of the Opposition.

H.M.C.S. Niagara To Be Dismantled

SYDNEY N. S., Sept. 4—H.M.C.S. Niagara, last of the over-age four-stacker destroyers turned over to Canada by the United States early in the war, now tied up at the naval base here, will be dismantled, it was learned tonight.

Lt.-Cmdr. R. B. Mitchell, commanding officer of the destroyer was formerly executive officer at the naval dockyard here and later convoy commodore and commander of the naval base at Pictou, N.S.

Jury Reports On Gallant Fatality

A coroner's jury last night found that Hubert Gallant, Richmond Street, Charlottetown, died at the P.E.I. Hospital, August 17, 1945, as a result of pulmonary congestion and hemorrhage. The verdict added that acute alcoholism was likely a precipitating factor.

Dr. I. J. Yeo was the coroner. G. R. Holmes represented the Crown.

A report by Dr. Ralph P. Smith, provincial pathologist for Nova Scotia, was read by Dr. Yeo following which the jury retired to find a verdict without the calling of witnesses.

Dr. Smith's report read: "From the organs sent for examination, it is my opinion that the late Hubert Gallant came to his death as a result of pulmonary congestion and hemorrhage with an associated fatty degeneration of the liver. Acute alcoholism may have been the precipitating factor. No methyl radical was found to indicate methyl alcohol poisoning. The appearance of the liver was in keeping with that of a chronic alcoholic."

The jury comprised Aben MacLean (foreman), Lloyd Moore, Ray Steele, John Webster, N. W. Reardon, John Martin and Roland Diamond.

Cigaret, Peacetime Problem In Britain

BY JAMES McCOOK

LONDON, Sept. 4 — (CP Cable) — The cigaret of peace now is the emblem of discord as drastic action by the Government and the armed services is probable to halt the vast duty-free shipments of cigarets to the continent where they are worth at least 60 cents each.

Men on leave go to tobacconists dressed in civilian clothes and order thousands of cigarets sent to themselves or their comrades on the continent and then pick them up when they rejoin their units.

United Kingdom civilians who are unable to obtain smokes say not only is the Crown losing duty revenue but it is an unfair drain on home supplies. Manufacturers just cannot keep pace with the demand. No cigaret machinery has been made for several years and labor is still limited. A new anxiety is that the cessation of lend-lease may mean further reduction in tobacco supplies.

Continental black market cigaret prices run from five marks (60 cents) in Germany to 96 cents in Vienna, where one cigaret buys a haircut, shave and shampoo. One hundred cigarets in Austria will buy two pounds of lard which cost £25 (about $112.) in cash.

NEWSMAN DIES

NEW YORK, Sept. 4—(AP)—Charles M. Carroll, 77, assistant night foreman of the New York Herald Tribune composing room and a compositor for nearly 60 years, died in hospital here. Born in Media, Pa., he was one of the first printers to operate a linotype machine, and rated one of the fastest. He joined the New York Tribune in 1902.

Homecoming Joyful For Men On H.M.C.S. Puncher

HALIFAX, Sept. 4 — (CP) — Completing her first westward crossing as a troop carrier, the Canadian auxiliary aircraft carrier Puncher docked here today with 733 Canadian service personnel, including a large draft of more than 400 soldiers from Military District No. 6 Nova Scotia and Prince Edward Island.

The carrier, originally slated for Pacific training duties, was converted into a troop carrier and her spacious below-decks filled with bunks to bring Canadians home from Europe.

As Puncher steamed into harbor today, her passengers were lined up in close order on the spacious flight deck "parade ground", while her crew lined the deck aft. The Halifax Skyline wasn't a novelty to them, since Puncher made a brief stay here earlier this summer when she came in for refit before going back to Britain to train Canadian fleet air arm personnel.

Among the army officers returning was Brig. William S. Smith of Edmonton, who served with an artillery unit overseas, and Col. Louis Keene of Oakville, Ont., a member of the famed Lorne Scots.

The repatriated army men were veterans of the Western Front operations and the fighting through Italy and Sicily.

Besides the 400 M.D. 6 men, there were more than 200 soldiers and officers from other parts of Canada, a draft of 76 R.C.A.F. personnel, 28 naval officers, four ratings and six Wrens.

First down the gangplank after Puncher docked was Wren Roma Burgess of Toronto, closely followed by Hilda Carter of Halifax.

One of the returning veterans, Pte. H. E. MacPhee of Heatherdale, P.E.I., was greeted by his sister, Cpl. Jessie MacPhee, stationed in Halifax with the C.W.A.C.

There were many happy reunions like his among the M.D. 6 men. Capt. J. N. Fraser of Sydney, N.S., member of the Cape Breton Highlanders, was welcomed by his wife whom he hadn't seen in four years.

Other Prince Edward Islanders returning included: Cpl. B.G. Riley of Summerside; Pte. G. H. Peters of Souris; Pte. D. A. MacPhee of Montague; and Pte. W. E. Toombs of Charlottetown.

Enrollment Up At P. W. College; City Schools Open

With enrollment still underway, indications last night were that there would be more than a five per cent increase in the number of students attending Prince of Wales College this year, compared with 1944.

Indications are that the enrollment will reach at least 556. Last year it was 471. Some service men are included in the classes this this year but the number is not yet definite.

Students entering the institution yesterday included 33 in fourth year, 100 in third year and 160 in second year.

Today first year students and those entering second year under the special matriculation classification will enroll. It was learned that 223 first year students had informed the College authorities that they would attend. The special matriculation section was expected to number approximately 45.

Saint Dunstan's University does not re-open until Tuesday, Sept. 11.

Enrollment for the City's public schools are approximately: Prince Street, 500; West Kent, 550; Rochford Square, 532; Queen Square, 550.

Paris Fashion Show Opens With All Pre-war Glitter

By CYNTHIA LOWRY

PARIS, Sept. 4—(AP) — In a magnificently varied collection rich in color, workmanship and artful attention to line, Lucien Lelong officially opened the Paris fashion showings today with pre-war glitter.

This first important show among 60 that will continue through Sept. 28 included more than 50 models which circumvented material shortages so ingeniously that spectators expressed confidence in Paris' continued style supremacy.

Lelong definitely has switched emphasis from the back-high point of the spring collection to the front, with all dresses and suits spotlighting wasp waists above draped or shirred hips and with front fullness sometimes carried to extremes by huge pockets and peplums.

He likes pencil-slim suit skirts without pleats, with jackets worn well below the hips and flaring from a nipped-in waist.

As a contrast, Lelong has gone in extensively for wide flaring skirts on wool dresses, although each of his superb black afternoon frocks clings close to the body lines.

Lelong has put touches of silver fox and mink at the throats of dresses, at the pockets and at the ends of sashes on street and house ensembles.

An American military motif appears in the waist-hugging broad-shouldered Eisenhower battle jacket, of brown shaved lamb, and in a hat modelled after the infantry overseas cap, with black sealskin sides and a crown of canary yellow.

Those oversize hats are as dead as Heinrich Himmler. Lelong's heart goes out to pillboxes this year.

Court Action Is Sequel To Fight

LONDON, ONT., Sept. 4—(CP) Sgt. George Dupuis, one of two men wounded in a fight Saturday, was remanded today on a charge of intent to do grievous bodily harm. Bail was set at $2,000.

Dupuis was charged following a fight with Leslie Wilcox, as a result of which both men went to hospital with severe knife wounds. The battle raged along Wharncliffe Road into the house of a city detective, to the threshold of another city policeman's house and back to Wilcox's home.

Wilcox was treated for a severe gash on his left forearm, Dupuis a chef with the R.C.A.F. at Debert, N.S., for a knife wound on his wrist.

Munitions Minister In Quarrel With Unionists

OTTAWA, Sept. 4 — (CP) — Munitions Minister Howe said tonight that four officials of the United Steelworkers of America (C.C.L.-C.I.O.) who yesterday sought to interview him at Toronto's Royal Canadian seniors golfing tournament, "forced their way into the dining room in a manner that was very embarrassing to me."

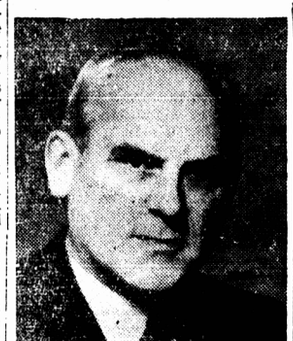
Told of a Toronto Globe and Mail story quoting him as telling the unionists that he wanted them to "get the hell out of here," Mr. Howe said: "I may have said that."

He said that the Union men, who sought him out to tell him a strike was threatening at Research Enterprise, Ltd., because he had not answered correspondence about layoffs, could just as easily have interviewed him at his hotel, where he had kept a number of business appointments.

Replying to a portion of the Globe and Mail story quoting him as telling the unionists to "go ahead and strike—there isn't any better time than now," Mr. Howe said what he actually said was:

"The responsibility is yours. That is a war plant and the war is over. But I advise you to be cautious."

The Minister arrived here by plane tonight from Toronto.



MUNITIONS MINISTER HOWE

Hopes Of Settlement In Ford Dispute Ebb

WINDSOR, Ont., Sept. 4 — (CP)—Hopes for a peaceful settlement of the dispute between local 200 af the United Automobile Workers of America (C.I.O.) and the Ford Motor Company of Canada, Limited, were at a lower ebb tonight after a company layoff announcement was described by a union official as a "provocative act" which "destroys the basis for any conciliation."

As a conciliation board met to consider questions of procedure in its efforts to bring a settlement of the dispute over a new collective bargaining agreement, the Company announced that an additional 1,650 employees would be laid off between now and Sept. 14.

J.L. Cohen, Toronto lawyer who is counsel for the union, said in a telegram to Labor Minister Mitchell at Ottawa that the company announcement destroyed the basis of conciliation and added: "Situation is extremely grave unless absolute assurance received at once against any layoffs and immediate effective settlement of the question of work security and wages."

Total Of Released Prisoners At 2,289

YOKOHAMA, Sept. 4 — (AP) — The total of Allied prisoners liberated from camps on Japan's main Honshu Island reached 2,289 today with the arrival here of 259 by train, plane and water.

Meanwhile Gen. MacArthur gave the Japanese specific instructions on camps not yet freed. He told the Nipponese to turn the camps over to the highest ranking officer held in each and gave the latter authority to demand needed food supplies and medical care.

The stories of the liberated prisoners followed a familiar pattern —beatings by Japanese guards and general malnutrition.

Among those liberated today were 589 British, Americans and Dutch.

HATFIELD, Hertfordshire, Eng., (CP)—David Willson, 13, and his 11-year-old brother Tony are to receive the Scouts' Gilt Cross for gallantry in freeing their mother when she was pinned by a heavy beam in their bombed home. David was blinded by the bombing.

Jail Cell For Boy Instead Of College Hall

VICTORIA, Sept. 4 — (CP) — Seventeen-year-old Charles (Chuck) Kinney who was to have entered college this fall to study for the ministry sat in a jail cell tonight, accused of murder.

Kinney, five foot 8 1-2 inches tall and weighing 258 pounds, today was formally charged in police court with the murder of 18-year-old Phyllis Stroud, a school chum whose almost nude body was found in a sawdust bin in the basement of her home.

Kinney's mother left Halifax today for Victoria and she will be followed later by her husband, Sub.-Lt. Charles Kinney, who will join her in Montreal. Sub.-Lt. Kinney is an engineer at H.M.C. Dockyard at Halifax.

Police said Kinney, who will be 18 in December, confessed yesterday. Kinney appeared in Juvenile Court today and the case was transferred to Police Court where preliminary hearing was adjourned to Sept. 11.

The brown-haired youth lived alone in the lower flat of the Stroud home. His parents left for Halifax a few weeks ago.

Young Kinney was born in Victoria. His former teachers referred to him as an ordinary pupil. He took a general course at Victoria High School and was preparing to enter college this month. He and Phyllis were in the same graduating class this year.

At high school Kinney was a prefect and also belonged to the glee club, the concert troupe and the school drama club. His picture appeared in the high school magazine and underneath it the caption: "Chuck Kinney — hopeless inventor. Claims to have perfected radio but Marconi beat him to it!"

Police Chief J.A. McLellan said today that nearly all the clothes worn by the dead girl on the night she was murdered were found yesterday in the bushes at Beacon Hill Park. Her dress is still missing.

SWORN IN

OTTAWA, Sept. 4—(CP)—Senator Wishart McL. Robertson of Halifax, newly appointed Government leader in the Senate and minister without portfolio, was sworn into office today by the Governor-General.

Senator Robertson succeeds Dr. J. K. King of Ottawa, who recently was appointed Senate speaker.

LONDON —(CP)— Representatives of a Danish air line have come to London to investigate the possibility of purchasing material for use in Danish civil aviation.

Improved Roads For Georgetown District Urged

A delegation from Georgetown and vicinity met yesterday afternoon with the Executive Council of the Provincial Government and asked that the roads leading into the King's County capital be improved by gravelling and other means to enable them to stand up under the greatly increased traffic of the past few years. Mr. George Saville, M.L.A. for the Fifth District of King's, and Mayor Boudreau of Georgetown were the chief spokesmen for the delegation.

Figures submitted to the Council showed that 55,000 bushels of potatoes were carried by trucks and wagons last fall over the roads leading into Georgetown; 3,000 cords of pit props were hauled over the same roads last fall and spring; and 3800 tons of fertilizer hauled from Georgetown into the rural districts within the same time. Such heavy traffic, the delegation pointed out, did considerable damage to the ordinary roads and if encouragement was to be given King's County residents to continue their increasing shipping activities, better roads were imperative.

Premier Jones stated the Government was in sympathy with the wishes of the delegation and would see to it that the roads into Georgetown were put in better condition in the near future.

Prepare For Opening Of Parliament

By FRANK FLAHERTY

OTTAWA, Sept. 4 — (CP) — Drafting the Speech from the Throne, with which the Governor-General will open the first session of the 20th Parliament Thursday is in progress here today.

Some details connected with Parliament's opening were discussed at a noon-day cabinet meeting and Prime Minister Mackenzie King is giving his personal attention to the Throne Speech, which probably will be an historic document since it will take note of the end of the war and forecast the first steps Parliament is to be asked to take in the post-war period.

Among the important financial subjects expected to be dealt with during the session is the matter of extending aid to Britain, either by loan or even an outright gift, possibly in the vicinity of $1,000,000,000, to help the United Kingdom through her post-war trials of world trade.

A good deal of the Speech will be concerned with international matters, summing up Canada's wartime achievements, praising the efforts of Canadian fighting men and forecasting the agreements arising out of long-discussed plans for international co-operation which Parliament will be asked to ratify.

9,000 Illegitimate Germans In Norway

OSLO, Sept. 4 — (Reuters) — Germany deliberately encouraged its soldiers to have children by Norwegian girls and now Norway must care for 9,000 illegitimates whose fathers are German, Dr. Sven Oftedal, Minister of Social Affairs, has announced.

Norwegian wives of German soldiers are being sent with their husbands to Germany, he said, but unmarried mothers will be Norway's responsibility.

Summarizing results of the five-year German occupation, Dr. Oftedal said repairs to damaged private property alone would cost $200,000,000 while maintenance of the thousands of collaborators now in jail would cost $6,000,000 yearly.

U. S. Gov't Ready To Lead Building Boom

WASHINGTON, Sept. 4 — (AP) — The United States Government is prepared to lead a building boom with a 100,000,000 public housing program for low income families.

Projects blueprinted, financed through the federal public housing authority, are ready for builders in a hundred communities from coast to coast.

Those localities had arranged before the war for federal loans and annual subsidies for the houses.

They are designed to accommodate 25,000 families. The monthly rent will average about $20. a family.

War delayed construction. Now the projects are being pushed to get slum-clearance plans in motion again and to provide needed jobs.

Boston is going ahead with a project of 540 dwelling units to cost $3,062,000.

The low-rent projects, though publicly owned, are privately built. Communities plan them through local housing authorities.

The Government lends up to 90 per cent of development cost, is paid back over a 60-year period with interest.

The income of a family eligible to rent one of the modern, well-built dwelling units can't be more than five times the gross rent.

This was $18.26 on the average before the war, including u[illegible] Rents generally are scaled on [illegible] ity to pay.

New Details Of Whole Set-up Made Public

BY JACK BRAYLEY
Canadian Press Staff Writer

OTTAWA, Sept. 4 — (CP) — Plans for an interim permanent army force in Canada whose chief responsibility will be the big demobilization program were announced here today simultaneously with word of the disbanding of the Canadian Army Pacific Force, 10-point reduction in the army discharge score to 130 and a fuller explanation of the whole army program.

Here is the latest picture of the demobilization and redeployment situation:—

1. Discharge regulations for troops in Canada and repatriated men arriving home have been broadened so that nearly every man who so desires can enter the demobilization stream immediately with no distinction being made between general service and N.R.M.A. men.

2. Men with low priority scores, such as N.R.M.A. men, will get leave of absence while men with high scores will get complete discharge.

3. The priority discharge score has been reduced 10 points to 130, which means that service personnel having this point total or more can go into the discharge stream immediately while those under this point total can get only leave of absence. The leave of absence men can apply for final release when their point score eventually reaches the required total.

4. The Canadian Army Pacific Force is disbanded, with high point men entering the discharge stream and low point men going into the leave of absence stream.

5. An interim permanent force is being established on a voluntary basis and its members will be committed to serve for two
