STEAMER IS IN SAFE POSITION

Good News From What Seemed a Fatal Wreck Crew in Good Spirits.

Special to The Guardian. DETROIT, November 16—The steamer James Hoyt which ran aground on a reef 27 miles northeast of Otter Island in Lake Superior, is reported to comparatively safe condition. Capt Ainsworth reports the crew in the best of spirits.

WOMEN HOPING AGAINST HOPE

Pathetic Plea of Widowed Miners' Wives Mine Sailed to Quench the Fire.

Special to The Guardian. CHERRY, Illinois, November 16—Today brought increased anxiety to the families of the 300 miners still entombed in the St Paul mine. Despite the belief expressed by the officials that there is no possibility of any of the men ever being brought to the surface alive, scores of grief-stricken wives gathered about the mouth of the hoisting shaft, which yesterday had to be sealed because of the renewal of the fire in the interior. Haggard and worn to exhaustion by the terror of three sleepless nights, the women approached the officials, imploring some glimmer of hope. "There is still a chance, ain't there, Mister," they pleaded. "Don't say they are dead for certain."

CANADA RECEIVES A VALUABLE GIFT

OTTAWA, Ont., Nov 15—A most important gift has been made to the people of Canada by the British Government. This is the complete and original correspondence sent by the governors-general to the home office from the year 1791 to 1840, the period during which Upper and Lower Canada were separate provinces. After a cursory glance over some of the papers, Dr Dougherty, Dominion archivist in whose care they have been placed, is unable to say whether they will have the effect of modifying in some cases, and of correcting in others, data which has hitherto been considered historically accurate. The correspondence deals with such interesting subjects as division of the country into Upper and Lower Canada in 1791, the abolition of slavery in Upper Canada in 1793, the exclusion of judges from parliament in 1811, the first treaty with the Northwest Indians in 1817, the Earl of Selkirk signing against it on behalf of King George III, the rebellion of 1837, the beginning of difficulties regarding the United States fishermen in British waters, and ending with the union of the two provinces under the name of the Province of Canada, the year after the death of Lord Durham.

NO TRACE OF THE BENNETT'S CREW

BLACK ISLAND, B. I., November 15—What became of the bodies of the eleven victims of the collision between the Nova Scotia barkentine John S. Bennett and the schooner Merrill C. Hart, on November 8, is still a mystery. The wreck of the Hart, in the middle of Black Island sound, was blown up today by United States engineers but no bodies came to the surface. The great charges of stant powder removed the Hart as a menace to navigation. The Bennett's wreck lies just south of the Hart. The engineers will blow her up tomorrow. It is believed the six members of the Bennett's crew are imprisoned in the wreck of their ship.

DEAD DOWAGER EMPRESS BURIED

China Has Begun Erection of First Legislative Building Peking.

Special to The Guardian. PEKING, November 16—The body of the late Dowager Empress of China which was removed from the Forbidden City a week ago, was buried in an eastern tomb today. The construction of the Imperial Senate buildings was begun today in the Imperial city.

GREAT MEETING OF KING'S BUSINESS

The Methodist Church Was Again Filled to the Doors. Interest Unabating.

Again the First Methodist Church was filled last evening to the doors to hear the Gospel, proclaimed and sung by Dr Elliott and Mr Nafziger. The King's Business has attracted not only the attention of the city but the whole province. People from many parts of the province were in the audience.

A large number of requests for prayer were read and Dr Elliott offered a brief but fervent prayer on behalf of all.

Mr Nafziger sang "They Say My Lord Was Not a Man" and the great Evangelist took up the subject announced: "A Christian Answered."

He chose as his text Luke 15:2 "This man receiveth sinners and eateth with them." Christ was criticized and misunderstood more than any man. The world has never learned to appreciate real goodness and those who stand for highest things in the community are the ones most likely to be criticized unkindly. But critics always betray their own true nature by the bitterness of their words. It is the motive and the intent of the heart that counts in God's sight.

But in the face of all criticism Christ was pre-eminently a gentleman. In answer to the bitter words of Scribe and Pharisee He told three stories recorded in the fifteenth chapter of Luke. The Lost Sheep, The Lost Coin and The Lost Boy.

Good music, oratory, sociability, apart from Jesus Christ and Him crucified, will fail to grip the heart and life of man. The music hall, the public platform and the barroom outwit all mere human means to charm and elevate. Jesus Christ alone can regenerate and uplift because He is more than man. Shame on us who may doubt for one moment the Divinity of Jesus when a poor old pagan nity standing by the cross could say: "Truly this was the Son of God."

Christ's temptations were as real to him as ours to us and they were the very same. He enters into and sympathizes with our life because He too was human and He knows. Therefore: He can help us when we are tempted and tried.

Jesus Christ is not only the great Saviour but one to whom we can all draw near. Unlike so many of the great ones of the earth He is approachable and draws every needy and sin-sick soul close and closer to His loving heart. By His grace and love we can all be victorious over our besetting sins.

VENANGO REACHES PORT HAS NARROW ESCAPE

HALIFAX, Nov 16—After being buffeted helplessly about the ocean by great seas, an almost driven on Mistaken Point, the marine graveyard of the Newfoundland coast, where the bones of the Allan Line Laurentian and a score of other staunch steamers lie high and dry on the rock-ribbed ledge, the big Furness liner Venango reached this port and her officers tell a tale of the sea seldom experienced on the North Atlantic ocean. The Venango is from Liverpool via St. John's Newfoundland and left the latter port early Thursday morning. When passing out the narrows the steamer ran into a strong wind, which increased in fury through the day, and all night the steamer was in the teeth of the terrific hurricane that swept the Newfoundland coast. So fierce was the gale that the Venango could not make headway, and was driven back, and had it not been for the skillful steamship of Captain Beth and his officers "Mistaken Point" would have added another name to many tarponins were torn from name to the long list of victims. The steamer showed many signs of her experience, stays were smashed the hatches. The Venango will load here for Liverpool. Minard's Liniment Cures Diphtheria.

DENTAL PARLOR FOR THE PUPILS

Hamilton Dentists to Give Their Services Free. Only Nominal Charge Made.

Special to The Guardian. HAMILTON, November 16—The Board of Education is making arrangements to open a dental parlor for the care of teeth of public school children. Local dentists will give their services free and provide instruments, the Board furnishing the material used.

BIG COLLEGE SCORE GRIDIRON VICTORIES

CAMBRIDGE, Mass., Nov 15—The superior punting of the Dartmouth halves was outwitted on Saturday by Harvard's smashing and victory rested with the Crimson with a score of twelve to three.

The first half was practically a punting contest, with Ingersoll of Dartmouth outkicking Mnot of Harvard. The loss, however, was almost immediately regained by rushing. But both sides usually kicked on the second or third down.

With inevitable defeat before them the Dartmouth players rallied gamely and capturing the ball in the middle of the field, followed it with an outside kick to the Harvard 34-yard line, where Captain Tobin dropped back and sent to ball over the cross-bars from a placement on the Harvard's 24-yard line. The Harvard players came through the game in good shape, with the exception of Capt Fish, who retired after the first half, after receiving two severe blows in the chest.

NEW HAVEN, Conn.—A crowd of thirty-five thousand spectators saw a most interesting gridiron battle at Yale field on Saturday, when the home eleven gained a splendid victory over their old rival Princeton, with a score of 17 to 0. The match was an exhibition of clean football. Nothing but the skill of the backs in taking punts saved Yale's clean score from disgrace.

Yale worked incessantly from the signal to begin. Coy was especially strong in punting. Both halves had intense moments and the match was probably the most spectacular of the season.

PHILADELPHIA.—The University of Pennsylvania football eleven went down to defeat on Saturday at the hands of Michigan. The score stood twelve to six and the game marked Pennsylvania's first defeat since 1907. All the points were made in the first half.

MOUNT ALLISON FACULTY CONCERT

SACKVILLE, Nov. 15—The annual concert of the Faculty of the Mount Allison Ladies' College and Conservatory of Music was given on Friday evening in Beechworth Hall and, as in former years, afforded the Sackville public a rare treat. Seldom has one the opportunity of hearing such a company of artists on a single program and the audience which welcomed them this evening attested to the genuine pleasure which these concerts have always given. The various departments of the college were represented by a member of the Faculty. The Misses. Ruggles and Smith most sweetly and charmingly rendered their vocal selections. Miss Tait, of the Oratory staff, gave two scenes from "The School for Scandal." Miss Tait during the past summer pursued advanced work in her special art at Boston and was never heard to better advantage.

Her rapid transition from one character to another deserves special mention. Miss Booth gave two piano solos in her usual dainty and characteristic style. Professor Frederic Beaumont, who was appointed as assistant-director of the Conservatory of Music at the beginning of this year, appeared on this occasion before a Sackville audience for the first time. The music loving people of the town have been looking forward to hear Prof Beaumont and his performance last evening was up to the usual high standard by the Mount Allison Conservatory professors. Prof John Barnett,

of the Royal College of Music, speaking of Prof Beaumont says: "He is a most accomplished pianist and is in every respect well qualified for a professorship of music." A leading English paper speaking in praise of his playing on one occasion said: "Chief place must be given to the brilliant pianoforte playing of Mr. Beaumont. His playing is characterized by all the delicacy and vigour of interpretation, the eloquent phrasing and the artistic finish of a player of the highest attainments." Professor Harry Horsfall, Director of the Conservatory, gave both piano and organ solos. Mr Horsfall is equally at home with either instruments and is always listened to with intense interest and appreciation whenever he appears on a concert platform.

"BLIND PIGS" IN COBALT RAIDED

Nine Violators Found Guilty Whose Fines Total Two Thousand Dollars.

Special to The Guardian. COBALT, November 16—This was a great day in the local police court, nine men being arraigned on 17 charges of running "Blind Pigs" as a result of the raid on Sunday night. Some sensational evidence was brought out.

All the accused men were found guilty and heavily fined, the provincial coffers being swelled by \$2,000.

MARINE AGENT AT SAINT JOHN

Special to The Guardian. OTTAWA, November 16—G. H. Flood has been appointed agent of the Marine Department at St John, in place of Fred Harding, superannuated.

SMASHED AEROPLANE TO SAVE A CHILD

NEW YORK, Nov 15—The first instance of an accident that may be common enough in the near future, occurred at Morris Park today when an aeroplane was deliberately turned into a fence and smashed to avoid collision with a man who had a baby in his arms. Dr Wm Green, in a machine of his own design was about to alight from a practice flight, when he saw a man with a baby crossing his path just as he glided toward the ground. Seizing the tiller he brought his machine about at an acute angle and flew into a fence. All one side of the bi-plane was smashed, but Dr Green stepped out of the wreckage unhurt as a crowd of spectators cheered him. The baby, quite unconscious of its distinction, rested safely in its father's arms on the other side of the track.

PRISONER GOT OUT; LOCKED CHIEF IN

SMITH'S FALLS, Nov. 15.—An amusing trick was played on Chief of Police Edwards of Smith's Falls yesterday. A young Assyrian girl, who was a prisoner in a cell at the police station on the charge of vagrancy, asked him if he would kindly step inside and open the window to let some air in. He obligingly acceded to her wishes, and as he was in the act of raising the window, the girl stepped nimbly outside, with the remark: "Just see how you like being locked up there yourself," at the same moment snapping the lock. The chief sprang to the door, only to find that he was himself a prisoner. He called out, and some one who happened to be in the corridor heard him and released him from his temporary prison. The girl did not succeed, in making her escape and was soon in the toils again.

TO ESTABLISH PREVENTORIUM

NEW YORK, Nov 15—Nathan Straus has given his \$500,000 interest in the famous Lakewood Hotel at Lakewood, N. J., to the cause of the anti-tuberculosis crusade. The beautiful structure, which for years has attracted society and notables from all parts of the country to the noted health resort, will either be sold and the profits devoted to the care of tuberculosis children or will be transformed into a great hospital where a host of little sufferers may be treated at one time.

BANISH FOREIGN FLAGS FROM ONTARIO

TORONTO, Nov 15—Banishment of foreign flags from Ontario's provincial parks and other crown lands whereon tourists and holiday seekers want to locate, is understood to be a regulation which will soon be adopted by the government. The enactment will probably be part of general park policy now in course of preparation for presentation to the legislature.

Minard's Liniment Cures Cold, &c.

VILLAGE BURNT WITH BIG LOSS

In Early Morning, but Sleepers Were All Awake and Rescued.

Special to The Guardian. PITTSBURG, November 16—The village of West Zeclarsville, Washington County, was destroyed by a fire of unknown origin early today with a loss of over \$50,000. A score of sleeping persons were rescued.

CARS ARE SHORT IN NORTH WEST

C. P. R. Issues Warning to Manufacturers and Shippers. Affects All Canada.

Special to The Guardian. MONTREAL, November 16—The freight car congestion in the west is so great that the Canadian Manufacturers' Association has issued a circular warning its members that there is great doubt if the railway companies can live up to their obligations.

Bosworth, Freight Traffic Manager of the C. P. R., said there was a car shortage in the west which would affect all Canada to a certain extent. It was a healthy sign, he said.

EAGLE KEEPS WATCH OVER SCHOONER

HALIFAX, Nov 15—Any one who has been contemplating robbing the wrecking schooner, Angola, lying at Central Wharf, had better take another think, for Samuel is on the job. Samuel isn't any common, ordinary watch dog. Far from it. He is a big golden eagle and he it about the most effective thing in the way of a guardian the Angola yet tried on board that craft. Chained by one leg, Samuel perches on one of the ships boats all day long. Occasionally he tries to fly off to his native haunts in Newfoundland, but gradually he is coming to realize that all such attempts are futile.

Samuel was procured on the last trip of the Angola to Newfoundland. When only a few days old he was taken from his nest and has been associated with human beings ever since. As he is now only three months old his appetite is rather light. About all he eats for a meal, provided it can be procured for him is a few rats, three or four coldish, as much meat as there is to spare, and any similar light diet. By the time he is a year old the crew of the Angola, hope to have him trained to masticate fence wire and ere bass.

WATER SPOUTS BROKEN BY FIRING SHOT GUN

BOSTON, Nov 15—The barge Lansford Portland, for Elizabethport, the stern barge in tow of three of the tug Nemasket, collided with an unknown Reading barge in the Roads, lay damaged, but far above the water line.

NATIVES SHARE IN INDIAN RULE

SIMLA, British India, November 15—The plan for the reform of the British administration of India, which was outlined by Lord Morley, secretary of state for India, in the house of lords last December and which is designed to give India a constitution admitting the natives to an independent share in the legislation of the country, came into effect today. Thus begins a new and striking epoch in the history of British rule in India.

For more than three years the imperial government and the Indian administration have wrestled with the details. Under the program adopted, all religious and special interests may elect representatives to the viceroys and provincial councils, but in view of recent anarchistic outbreaks a safeguard is provided in a qualification which empowers the imperial and provincial governments to declare ineligible those persons whose election is considered contrary to public interests.

The viceroy's council in the future will have three hundred and seventy members, instead of one hundred and twenty-six as formerly, of whom a total of one hundred and thirty-five will be elected as against thirty-nine elected heretofore. The functions of the council will be considerably enlarged and it will be enabled to take an active part in the making of the budget and in legislation. The local councils will assemble in January.

LONG WAY IS THE CHEAPEST

Shipments from Ontario to Vancouver Now Going by Long Water Route.

Special to The Guardian. MONTREAL, November 15—General merchandise from Ontario for Vancouver is now being shipped via Mexico, on account of the cheaper rates obtained by that route than by the Canadian Pacific.

The steamer Borna which sailed from St John for Mexico, carried 1300 tons of freight from Central Canadian points, destined for Vancouver and Pacific coast points.

When landed in Mexico this cargo will be carried to the Pacific coast by the Tehuantepec Railway and thence by steamers to British Columbia. This method of shipping goods was started in a small way and has grown considerably during the present season.

CRIME IN CANADA DURING PAST YEAR

OTTAWA, Nov 15—The annual report of the inspectors of penitentiaries, indicates a considerable increase in the penitentiary population of the Dominion, due, doubtless, largely to the financial depression of last year.

There is no perceptible increase in criminality in rural districts, but convicts from urban districts brought the population at the close of the fiscal year up to twenty per cent greater than at the close of the preceding year. The average daily population during 1908-09 was 1,625, as compared with 1,418 for the preceding twelve months.

One convict who escaped during the year is still at large. Three convicts who escaped in previous years were re-captured. During the past ten years 19 escapes have occurred. Of this number 9 have been recaptured.

The inspectors draw attention to the fact that every year, by the fixed sentence system, scores of dangerous criminals are set free to prey upon society.

SAYS INDIANS ARE OUT OF HAND

VICTORIA, B. C., Nov. 14—Constables, with arms and ammunition for twenty more, have started from Prince Rupert by special steamer for beleaguered Hazelton, intending to ascend the Skeena river as far as navigation is possible, and thence take the trail. An expedition of fifty more is expected to be sent up Naas river and overland sixty miles.

DEFIANT GIRL SAYS SHE SHOT LOVER

DETROIT, Nov. 15—Just before he died yesterday from two bullet wounds received during the night, Samuel Morley, the former London manager of a large rooming house, twenty miles from Detroit, said that Bertha Leitzau, cook at the farm had shot him, because he refused to marry her.

At the Pontiac jail Miss Leitzau said: "Morley did me a wrong in promising to marry me and in refusing to do so. So I shot him. And if I were to do it in three minutes I would not ask forgiveness for what I have done. He got what was due him."

Morley, who was thirty years of age, had an excellent character.

HIS HOLINESS HOLDS JUBILEE

Receives Many Messages and Good Wishes From All Over the World.

Special to The Guardian. ROME, November 16—The episcopal jubilee of Pope Pius X occurred today. Many messages of congratulations and well-wishes reached the Vatican. The Pope desired to spend the day quietly and without a formal celebration.

He celebrated mass in the private chapel, admitting only his own sisters from Venice, with whom he breakfasted.

Later in the day His Holiness received the officials of the Vatican, who presented greetings.

BANDIT SHOWS PLENTY OF NERVE

KEEWANEE, Ill., Nov. 14.—John Powers, a farmer living east of here near Tiskilwa, his wife and son, two hired men and a little girl, were held up and terrorized in their home by a lone bandit, masked and armed with three revolvers and a bowie knife, after covering the six persons with a gun from 6 o'clock in the morning until 2 o'clock in the afternoon, tied the men, drove the women into the kitchen and forced Fred Powers to drive him to Tiskilwa to cash a check for \$250, which he made Powers sign at the point of a revolver. Mr Powers however, succeeded in loosening his bonds and reached a neighbor's telephone to head off the payment of the check.

The robber, after failing to get the money, was pursued in an auto by officers who had been notified by the bank. The auto came within eight of the robber's buggy but was held back by the bandit protecting himself behind his driver, Fred Powers. The buggy was driven into rough country where the auto could not go and when it was reached the robber struck off on foot. He is still being pursued by the officers.

WATER SPOUTS BROKEN BY FIRING SHOT GUN

BOSTON, Nov 15—The barge Lansford Portland, for Elizabethport, the stern barge in tow of three of the tug Nemasket, collided with an unknown Reading barge in the Roads, lay damaged, but far above the water line.

A shot gun in the hands of the Captain of the steamer Hannah M. Bell, from Progresso, Mexico, proved a successful means of breaking the great water spouts reared themselves steamer, spouting great volumes of shot gun brought on deck and disintegrated each with a shot. The water. Captain Cooper ordered a geyser then lost themselves in the heavy seas.

CHRISTMAS TREES FOR NEW ENGLAND

FREDERICTON, N. B., Nov. 15—Fred Crosby, of St John, is loading a scow here with several thousand Christmas trees and will forward them to St John for shipment to the east and teams at work hauling them from Maryland Hill.
