Another amendment embodying a resolution introduced several days ago permitting Donald J. O'Callaghan, Lord Mayor of Cork to remain here, was thrown out on a point of order. Representatives Mondell of Wyoming, the Republican leader, pleading for defeat of the political refugees amendment, declared its adoption would open the gates "not only to William, the damned, but the Emperor of Austria and all the hordes of Russia and elsewhere."

## Sad Death of a Boy at French River

(Special by Phone)  
Lester Adams, son of Mr. Dean Adams, French River, was drowned on Friday afternoon under peculiarly sad circumstances. With his father he was out in a fishing boat helping to draw nets. While the sail was lowering, Lester was knocked overboard by the boom. He was at once rescued and taken ashore and home, a distance of two miles, but he died two hours after the accident, due no doubt to being stunned when hit and the shock of the cold water. Dr. Jardine was at once summoned but nothing could be done to save his life, a bright promising lad of about 15 years of age. The funeral takes place at 10.30 on Sunday. To the bereaved family sincerest sympathy is extended.

Haywood, secretary of the Industrial Workers of the World who was scheduled to begin a sentence at the Leavenworth, Kansas, penitentiary this week, and fled from the United States and now is in either Moscow or Riga. Charles F. Clynne, United States district attorney, announced that a search had been started for Haywood. Reached Russia. New York, April 23.—Officials of the American civil liberties union here said today that they had been advised "Big Bill" Haywood, for whom federal authorities are searching, had arrived in Russia. This information, it was said, had been supplied by friends of the I. W. W. leader.

## BUDGET AND ESTIMATES ARE CONCLUDED

APRIL 20th — EVENING SESSION (Continued).  
Continuing the debate on the budget Hon. A. E. Arsenault in reply to the Hon. W. M. Leas said:—  
There is just another question I all put to the Commissioner of Agriculture. He continues the grant to the Egmont Bay exhibition last year; does he propose to make a similar grant this year?  
MR. LEA—Does my hon. friend think it a good proposition now that we are perfecting our School Fair? does he think it a good policy to carry on all these small fairs? Had we not better drop them?  
MR. ARSENAULT — Personal I think it should be continued. If the Commissioner will meet the directors of that exhibition and if he can convince them that he is right in the matter; well and good. But if the directors can show him that the benefits are such as to warrant the small expenditure of the grant, he should act accordingly. It is of sufficient importance for him to give it his attention in any case. If the Commissioner will do that, I am sure the directors will be very glad to meet him.  
HON. MR. LEA replies that he would be pleased to go. The grant was given last year to the exhibition as usual. He had intended to visit the exhibition at the time but was away from the island.  
MR. ARSENAULT — There is another item in the agricultural estimates on which I would like some information. This is the sum of \$1,000 under the head of "Debt Statistics." I understand that the whole cost of forms and getting them published was to be undertaken by the Federal Statistical department at Ottawa. That is why uniformly was required in every province. Is this being done or is the provincial department doing the work?  
MR. LEA — The Federal department. I cannot recall just what the cost was but it was very considerable.  
MR. ARSENAULT — Is the department duplicating this work?  
MR. LEA — We are carrying it out.  
MR. ARSENAULT — Are you paying for gathering these statistics?  
MR. LEA — I cannot give you the information on that at the present time. That is the one item I am not prepared on.  
MR. ARSENAULT — Consider, that the Dominion does this work it seems to me there is no need for this expenditure.  
MR. HESSIAN asked the Commissioner of Agriculture whether he was going to build a building in King's County for agricultural purposes; if so, where, and what would be the approximate cost?  
MR. LEA — There has been representations made for an agricultural hall in King's county. It is under debate. The department has not decided where or what amount we could give for it.  
MR. ARSENAULT — Is there anything in the estimates for it?  
MR. LEA — It is in the federal grant.  
MR. ARSENAULT — There is the Hall to be built.  
MR. LEA — We have not decided. It depends upon the representations made from the towns. Some further discussion on this question took place between Mr. Leas and Mr. Hessian, the latter attempting vainly to draw from the Commissioner of Agriculture a definite statement as to the location of the proposed building.  
MR. ARSENAULT — Why does my hon. friend propose building more agricultural halls when he allows the halls already built to remain vacant. There is a splendid agricultural hall in Summerside, which he is not making use of. The hall in Charlottetown he uses very little.  
MR. LEA — Oh no, we use it a lot.  
MR. ARSENAULT — Well, what about the hall in Summerside? I know my hon. friend is not using it very much.  
MR. SAUNDERS — I know he is.  
MR. ARSENAULT — Yes he is using it for moving pictures.  
MR. HESSIAN believed the government should build a hall in Georgetown where it would be used.  
HON. MR. JOHNSTON said the Commissioner of Agriculture was going to take a trip down to Georgetown to see if there was room enough to build a hall there.  
MR. HESSIAN — retorted that the Attorney General had found enough room there to parade around and swell himself out.  
Some further discussion followed. Mr. Leas said King's county had a right to a hall. Mr. Arsenault replied it certainly had, provided the government would use it when it was built.  
The estimates for the Board of Health were carried without comment. The next items were under Executive Council.

## Toronto's Unemployed Threaten Trouble

(Special to The Guardian)  
TORONTO, Ont., April 23.—Three hundred unemployed marched to the City Hall today and presented a resolution demanding work immediately. The men met at the labor temple and drafted the following resolution to present to Mayor Church: "At a mass meeting of the unemployed held at the labor temple April 22, we the unemployed here assembled demand to be gainfully employed immediately or failing this, allowances to be granted at the rate of \$15 for single men and \$20 a week for married men, with an additional \$2 for every child. Be it further resolved that failing this they adopt such methods as will accomplish the results desired."  
When the men arrived the City Hall was like a beleaguered fortress. Policemen stood guard at all the entrances while in the lobby a large number were mobilized in the event of an emergency.

## Sudden Death of Mr. Thomas Burnett

Citizens learned with a shock yesterday of the sudden death of Mr. Thomas Burnett, registration clerk of the Charlottetown Post Office. Mr. Burnett, though few knew it had been in poor health for over a year. On the advice of his physician he left on a trip to the United States last autumn to consult a specialist and returned about the first of the year apparently improved somewhat in health but lately symptoms of his former trouble returned. This condition preyed on his mind to such an extent that his friends noticed it to a considerable degree and feared that he was merging into a condition of melancholia. Yesterday morning a fellow boarder at the Strathcona, entering his room to get the loan of a paper was shocked to find him dead. The coroner was summoned and after inspecting the body decided that an inquest was unnecessary. Deceased was 39 years of age and a son of Mr. Matthew Burnett of Port Augustus. He was a man of splendid character and held in high esteem by all who had the pleasure of his acquaintance. He was employed in the Postal Service since 1907 and previous to that had been employed in the office of the Secretary of Public Works. During the war he was with the Postal Service at Aldershot Camp, N. S., and rendered excellent service among the soldiers. Besides his parents there are left to mourn three sisters and a brother to all of whom deep sympathy goes. The funeral takes place at 10 o'clock this afternoon from the Knights of Columbus Home by road to Port Augustus, where interment will be made on Tuesday morning.

The latest date on any of the coins was 1823. Young Dameron was fearful that his fortune might be taken from him and kept his discovery a secret until today.

## GERMANY RAISES FURTHER OBJECTIONS TO GOLD TRANSFER

### Insists that Terms of Treaty are Fulfilled by Promise not to Export gold Before October 1.

(Special to The Guardian)  
PARIS, April 23.—Germany, instead of either agreeing or refusing to transfer the gold reserve of the Reichsbank to occupied territory in the Rhineland as the allied reparations commission had demanded, has offered to agree not to export or permit the exportation of gold from Germany before October 1st next. Germany's note in reply to the reparations commission, delivered to the commission today, in which this offer is tendered says her preferred agreement would adequately protect the allies who had demanded the transfer because the second paragraph of article 248 of the treaty of Versailles prohibiting the exportation of gold becomes inoperative May 1. The second paragraph of article 248 of the peace treaty reads up to May 1st, 1921, the German Government shall not export or dispose of and shall forbid the export or disposal of gold without the previous approval of the allies and associated powers acting through the reparations commission. This provision was intended to prevent Germany, should she feel inclined to do so, from disposing of any of her gold holdings prior to final settlement of the amount and methods of her reparations payments.

## Average Salary \$300 Per Month

OTTAWA, April 23.—In the Senate yesterday Senator McMeans called the attention of the Minister of Labor to the statement of Chief Commissioner Carvell of the Railway Board that he had found a conductor and engineer drawing six hundred dollars each for a month's work on the railways and asked the Minister to reconcile this with his statement in the Senate some time ago that the wages of engineers did not exceed three hundred dollars a month. In reply Senator Robertson, Minister of Labor, said the average salary for conductors and engineers on the Canadian National Railways was less than three hundred dollars a month and the Railway Commission had quoted one case for a particular month for particular service. This was no index of average salary earned by Railway employees.
