THE QUEEN'S COUNTY GUARDIAN

1. pays to buy in this Province. Today's Guardian comprises sixteen pages.

Lillian MacEachern, Georgetown; W. L. Gleason, St. John; W. H. Pope, Pictou; A. Martin, Valleyfield; M. M. McLeod, Boston; G. E. Jones, F. D. Fraser, New Glasgow, registered at the Queen Hotel, Charlottetown between the hours of 11.15 last night and 11.30 the previous night.

Rev. Canon Simpson, Charlottetown arrived last evening on the Northumberland. He had been in Windsor attending the convocation of King's College. This year's observance was made somewhat noteworthy from the fact that the degree of D. D. L. was conferred on Col. Sir Henry Bellatt, Toronto, who with his wife, Provost Mackenzie and Nice Provost Lloyd of Trinity College, Toronto, and party arrived in Windsor on a special car. P. E. Island students made brilliant showings at King's as in other Colleges. H. A. Messervey, Charlottetown, won the degree of B. Sc. and came within four marks of the Governor General's Medal. Cuthbert A. Simpson, son of Canon and Mrs. Simpson, Charlottetown, led his class in the first year, winning six firsts and two seconds out of eight subjects. A. L. Collett, Victoria, was similarly successful, made high marks in many subjects and passed in the others.

There's a new size in the celebrated Harmony Rose soap which has just arrived here. The ordinary cake is an unusually large one for the price but this new size is much larger and even better than the smaller size if possible. 15c a cake, 2 cakes for 25c. The McKinnon Drug Co. Corner Great George and Kent Streets.

INVALIDS ENJOY IT.

DIED

GAY—At Hazelbrook, May 9, 1912, Samuel Gay, aged 59 years. Funeral will take place today, Saturday, at 2 p. m. the service starting at 1.30. Interment Pownall Cemetery.

THE FAILURE OF NEW MEADOWS.

(By G. LeLacheur.) Owing to the severe drought in southern King's and Queen's Counties last summer there resulted a very poor catch of clover and grasses in many cases. The nurse crop of wheat, oats or barley robbed the young clover and timothy plants of moisture and plant food. Many new meadows should be broken up this spring for a crop which can be cured for hay, and is suitable as a nurse crop for clover and grasses. Some farmers re-seeded last autumn immediately after harvest. Others waited, hoping much from the effect of fall rains, and determined to re-seed, where necessary, early this spring. This has been done in some cases where failure occurred only in patches. But what should be done with the new meadows which are a general failure? Many farmers stand appalled at the high cost of seed and hesitate to sow the usual quantity in their regular seeding. But surely it would be poor economy to save twenty-five cents on seed and lose two dollars on the crop! Much poorer would be the economy to let fields stand idle and become weed pests when an investment of a few dollars per acre would supply much needed hay for next winter and a new meadow for the year following! From past experiments and the experience of progressive farmers a mixture of oats and peas has proven to be the best annual hay crop. Prof. Zavitz has obtained highest yields of fodder by using two bushels of oats, such as the banner variety and one bushel of peas such as the Golden Vine variety. But this mixture would be too heavy with which to seed down. Perhaps it would not be advisable to sow more than five pecks of oats and two pecks of field peas in order to get a good catch of grasses and clover. This should be cut for hay when the oats is in the

The repeat performance of the comedy drama "Our Wives" by the Prince Edward Dramatic Club at the Charlottetown Opera House last evening brought out another good audience, all of whom enjoyed the performance to the full. The performers were each familiar with their several parts and the play went with a swing from start to finish. The drill of the Cadets was an excellent performance and was heartily applauded. There was a little delay in starting the entertainment of the evening, but the good music of Prof. Vinnicombe's Orchestra kept all in good humor. And the play was by no means long or tedious, in fact there was a dull moment throughout, so that all returned to their homes in good time and thoroughly pleased with the Prince Edward Dramatic Club. This company of local talent has seldom if ever appeared to better advantage than in "Our Wives" and they are assured of a full house whenever hereafter they may have further entertainment to offer to the playgoing people of Charlottetown.

Re-xall Beef, Iron and Wine is a splendid spring tonic, 21 contains all the concentrated nourishment of prime beef, combined with cherry wine and the most palatable form of iron. Some fields which are low in fertility may not give a catch of grass and clover with the nurse crop of peas and oats. In such cases a top-dressing of baryard manure or a light application of commercial fertilizer might be a paying investment. Of course the peas take part of their nitrogen from the air in the soil. Again, the early cutting of the mixture shortens the period of shading the young grass and clover plants. However, where manure is not available the fertility taken from the soil by last season's grain crop may be replaced by applying say, 75 lbs. nitrate of soda, 75 lbs. muriate of potash and 150 lbs. superphosphate per acre. The potash and superphosphate may be harrowed in with the seed but the soda should not be applied until the grain has come up, and then only when the plants are dry. The first rain will dissolve the soda, carry it into the soil and make it available to the plants.

Chronic Throat Trouble Permanently Cured

Seven Days' Use of Catarrhzone Performed Regular Miracle.

Miss Counters' Case Proves the Wonderful Efficacy of Catarrhzone in All Throat and Nose Diseases.

Windsor, April 3—Miss Counter's case will prove of great interest to everyone troubled with sore throat, bronchitis or weak lungs. When asked for a statement, Miss Counter said: "About seven years ago I contracted a heavy cold that settled on my lungs and resisted all treatment. After I had tried several doctors here and specialists in Detroit without benefit, I went to my rugged and asked him for the best remedy he had for cold on the lungs. He recommended Catarrhzone, which cured my cold in one week. It brought back my voice, and I have been ever since free from my old trouble. For coughs, colds and lung trouble I am sure that Catarrhzone is the best remedy. It goes right to the sore spot, gives quick relief, and makes a lasting cure." Catarrhzone cures because its healing vapor is inhaled to the very places that are sore and inflamed. To permanently cure your winter ills, your coughs, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrhzone. But beware of the substitutor and imitator. Look for Catarrhzone only, 50c, and \$1.00, at all dealers, or by mail from the Catarrhzone Company, Buffalo, N. Y., and Kingston, Canada.

WOODRUFF BLAMES MISS ATKINSON AND THE DOCTOR.

BOSTON, Mass., May 9—Lewis S. Woodruff, the young State street broker, whose divorce suit that broke up his wife, is being tried in the Dedham court, testified today that Miss Margaret Atkinson, a Shediac nurse, and Dr. Robert Souther, were among the cause of his troubles. He described an episode at a summer hotel in Ogunquit, Maine, in which Dr. Souther and his wife figured in 1911. Woodruff told of pasting together torn letters from Miss Atkinson to his wife. Describing a conference he had with his wife he said: "I told her, I want to have a talk with you, and she answered, Oh, indeed, I said: You have not told me have yourself, and if you cannot be have yourself like a decent, respectable woman, you have got to get out of my house."

RICHESON'S FINANCEE IN CHARITY WORK.

NEW YORK, May 9—Since the Rev. C. T. Richeson, made his abject confession in Boston of the murder of Miss Avis Linnell several months ago, the whereabouts of Miss Violet Edmonds, the Brookline heiress, who was to have married him and who unwittingly was the motive for his frightful crime, has been as great a mystery as that of Dorothy Arnold, a nurse that the Edmonds family has all along declared itself to be in full possession of the knowledge of where she is living. Boston despatches stated positively last night that Miss Edmonds, after recovering from the shock of the arrest and subsequent confession of her fiance, had decided to withdraw for all time from the social circle where she and her wealthy family had been so prominent, and that hidden in the slums of this city, looking to religion for her sole consolation, she has been living the life of abnegation of a settlement worker.

"We have," said he, "assurance from Mr. Borden that the Government proposes to take up this question at once and to deal with it effectively. We in British Columbia are reminded day by day of all that a navy means. I have confidence that when the premier proposes, as he will do shortly, a strong policy, making for an active and efficient Canadian Navy, he will have the entire Dominion behind him. I have been very encouraged to believe there will be results and quickly too, when one has watched the earnest and splendid fashion in which First Lord, of the Admiralty Churchill has discharged the duties of his office."

N. B. & P. E. L. RAILWAY STRIKE CONTINUES.

SACKVILLE, N. B., May 6—The strike situation on the N. B. & P. E. L. Railway remains about the same. The manager is experiencing great difficulty in filling the places of the strikers. An effort was made to induce an English immigrant who recently arrived here, to act as engineer, but refused, saying that he was no strike breaker. Another man, procured from the United States, left on Saturday night, after working a few days. Congestion on the road is growing worse every day.

GERMAN AIRMEN TO STRIKE FOR RAISE.

BERLIN, May 9—The Aviators' Association, which has repeatedly appealed to the Manufacturers' organization for better wages for aviators, plans to strike on the eve of the big national aviation meet at Johannisthal unless the professional airman's terms are granted.

AMERICAN FLAG IS STRANGER TO THAMES.

LONDON, May 9—The Pall Mall Gazette publishes as a startling fact a report by the Medical Officer for the River of London, that no vessel flying the Stars and Stripes arrived in the Thames in the whole of last year.

POST-WHEELER SEES THE KING OF ITALY.

ROME, May 9—King Victor Emmanuel has given an audience to Post Wheeler, the new secretary of the American Embassy. The interview was a most cordial one. The King and the secretary talked for half an hour.

COLLIER FLIES WITH BROOKINGS UP NORTH RIVER.

NEW YORK, May 9—Starting from his country home at Wickau, N. J., today, Robert J. Collier and Walter Brookings flew over Staten Island, the Narrows, and then up the North River, where the machine became lost in the fog. The flight was one of the longest ever made around New York by two men in a hydro-aeroplane. While it was coming up the bay the duck-like aircraft sailed directly over the steamship Panama, which was coming into port. The big coast liner gave the machine a salute, as did other sorts of craft in the bay and North River.

WED WIDOW OF HIS OWN SON AT 63.

TOLEDO, May 9—John C. Baird, sixty-three, of Zanesville, has married the widow of his own son, Mrs.

A gentleman arriving in Charlottetown on the morning train was asked by another gentleman where he got his clothes made. He answered at James Callaghan's. "I thought so" was the reply, I would know his cut of clothes anywhere, he is the best tailor in the Province. This is nothing new thousands of his customers will tell you the same. His cut and style of garment will command attention anywhere. If you are not getting satisfaction call on him and your grievance will be at an end. James Callaghan is the man, 178 Queen St. is the place. 3-datterd.
