donal accounts under fictitious names at three other banks in the city. He then deposited in them forged checks against the accounts in his own ledger at the Farmers Loan and Trust. When the worthless checks returned from the Clearing House he destroyed them and made no entries in his ledger.

By raising the total of his ledger he forced a balance with the general ledger, and by this method the banks in which he had his own accounts received credit. It has been ascertained that there is still \$14,000 in these accounts. He did not tamper with the money of any depositors. The loss is covered by bond.

curred, remained in the position in which it was at the time of the explosion, the hang fire from the left gun would have gone into the centre of the city of San Pedro, witnesses aboard the ship said.

When the gunner's hand guiding the controls was wrenched away by the explosion, the guns kept revolving and stopped as they pointed aft.

SAN PEDRO, June 13.—All danger of another explosion aboard the Mississippi anchored outside the harbor breakwater, was removed today when the third charge of TNT in turret number 2 was taken out according to Lieut. L. N. Morgan, flag communication officer.

ABOARD the hospital ship Relief lay the dead and injured victims of the premature explosion in the Mississippi's number 2 turret. Aboard the U. S. S. New Mexico the flagship of Division Four of the battle fleet, members of the Naval Board of inquiry prepared to open an investigation of the disaster.

ABOARD the Mississippi, anchored outside the breakwater, officers and men watched the flame shattered turret where the 14 inch gun, exploded its charge. It was a "flare back" from one of the guns that shot death in flames and poisonous gases back into the turret through its open breach.

The second gun, its breach locked, let loose in the harbor as the Mississippi steamed home with its dead and injured men watching the flame shattered turret where the 14 inch gun, exploded its charge. The Studebaker Light-Six!

More are sold than of any other six in the fifteen-hundred-dollar price class!

More because—it is the sweetest, smoothest-running Six you ever drove. Its specially designed offset valve motor, its machined crankshaft, its four big crankshaft bearings, its perfectly precision cylinders, pistons and reciprocating parts are the reason.

More because—no other car in its price class shows such obvious indications of quality—genuine leather upholstery, a hand-tailored top and curtains, carefully selected details of equipment, lustrous baked enamel finish.

More because—its 40-horsepower motor, its correct gear ratio, its beautiful balance and low center of gravity, make it like lightning in the "get-away," never failing on a hill, and effortless under a full load on any reasonable road.

More because—it is backed by a great service organization, immediately and willingly accessible.

More because—its recognized used car value protects you with the lowest possible depreciation when you come to trade it in.

To prove its goodness by performance we will lend you a Light-Six any day this week—come in and ask for it.
