COUNTY COURT CASE.—An interesting case was tried Friday before Mr. D. E. Shaw, Stipendiary Magistrate for Queens County. This was an action brought by the Road Master of District No. 25, Queens County, which includes part of the Bonshaw Road, against Neil Ferguson, merchant of Bonshaw Road, against Neil Ferguson, merchant of Bonshaw, for refusing to turn out and break the winter roads on May 10. Mr. Johnston, K. C., appeared for the defendant, and Mr. Norman Lowther, for the Road Master and the Provincial Government. Mr. Johnston admitted the receipt of the notice and the refusal of the defendant to break the road but argued that under the Road Act, of 1924, residents cannot be ordered out after April 15th, as the winter season ends on that date, also that under the Act a notice is given on that date for the payment of road taxes or the commutation of such taxes by statute labour, and that thereafter the winter season referred to in the Act is ended and the summer arrangements come into force. Mr. Lowther stated that this was a test case. The point requires to be decided as to whether the Government will be bound to pay for the breaking of roads, shovelling snow, etc., while winter conditions prevail on April 15th. The Magistrate reserved his decision till May 31st.

An undertaking which in size is perhaps greater than any ever before attempted in this Province is now being successfully conducted by the P. E. I. Potato Growers' Association in the distribution of over ten thousand five hundred tons of fertilizer chemicals to the farmers of this Island, an outlay of three hundred and twenty thousand dollars. This is a work of tremendous magnitude and could only be handled though well conducted co-operative organization. Every bag of this fertilizer is sold before it reaches the Province.

The Association should be commended for having the re-shipping of all this material done at our Island ports rather than at ports in other provinces, thus patronizing not only Canadian but home industry. Thousands of dollars for labor is thereby kept at home. The discharging and re-shipping as estimated by the secretary of the Association, Mr. J. W. Boulter would approximate the work of one hundred men for a period of 20 days or two thousand working days equal to steady employment for six men for one year. We are further informed that in addition to the above the saving in the first cost of the chemicals means at least forty thousand dollars more money left in the province.

We understand that already on half of the fertilizer has been loaded into cars or otherwise disposed of. The condition of the cargoes is excellent. The acid phosphate and Nitrate of Soda were both remilled before shipment and never arrived in better mechancial condition.

The Ammonia and potash are in the original bags as in former years. The potash is all the German potash and is in sealed sacks analysis guaranteed at least fifty per cent. K2.O. From analyses received the chemicals are all slightly in excess of the guarantee.

The steamer Soknal is expected to complete discharging her cargo at Charlottetown on Thursday. The Fredensborg at Summerside will require several days before she finishes her cargo. There are two other smaller cargoes expected daily.

The fertilizer is distributed to thousands of farmers who are not members of the Association. The price is the same to every one. The handling charge made by the Association is used to defray expenses and any balance is used for operating the business or is rebated to the members.

So smoothly does the organization work that little is known, outside of those immediately concerned, of the volume of business done. The office is too busy to talk and will rarely give a reporter an interview.

A meeting of the Retail Merchants' Association was held last evening in the Board of Trade rooms. In the absence of the President, the chair was occupied by Councillor T. W. L. Prowse. Addresses were delivered during the meeting by the presiding officer, Mr. Nelson Rattenbury, of the C. N. R. Board, Dr., J. S. Allan, Fox Pathologist; Mr. Hazen Baker of Jenkins and Son; Mr. B. Roy Holman, Secretary of the Association, and others.

The chief speaker of the evening was Dr. Howard of Denver, Colorado, who is a large dealer in foxes, and of wide experience in the fox business both in Canada and the United States. Dr. Howard emphasized the importance and prominence of the fur-bearing industry at the present day, and predicted that it would not be long before the leading farmers of the country would take part in the production of fur-bearing animals as one of the principal auxiliaries of the pursuit of farming.

The Doctor's address was listened to with very great interest, and was heartily applauded at its close.

Mr. Hazen Baker suggested that in the interests of tourists, facilities for the parking of cars should be provided for the benefit of strangers visiting the city. There was a general concurrence with this suggestion.

Mr. B. R. Holman strongly advocated the boosting of the Province, and more particularly its capital city. Every merchant and every man in Charlottetown should be a booster, and every effort should be made to retain such industries as the city enjoyed, along with the offering of every possible encouragement for the establishment of more. He spoke with pleasure of the fact that in the person of Mr. Nelson Rattenbury, the Province had an excellent representative on the C. N. R. Board, and a man, who would do all in his power to benefit this Province.

Owing to a train wreck on the mainland, Mr. J. T. Crowder, of Vancouver, B. C., Dominion President of the Retail Merchants' Association, President and General Manager of the Canadian Fur Trade Leagues, was unable to be present at the meeting as intended.

A very pleasing juvenile programme was presented to the Radio audience by the Island Radio Co., Station CFCY last evening. This program was prepared and broadcast under the direction of Miss Berna Huestis, Superintendent of the Kindergarten in Charlottetown.

Some fifteen Kindergarten children took part in solos, recitations and choruses. The reproduction, aside from a slight hollow effect from the nature of the hall, was perfect and the children's voices sounded very sweet over the Radio.

CFCY is certainly a splendid station to listen to and their programmes are always of a superior quality. This is first class Provincial Publicity as well as being of interest to our own people. The station has not yet secured a permanent studio and in the best interests of the community one should be provided for it immediately.
