CONFIDENCE EXPRESSED IN DRURY GOVERNMENT

Seventh Annual Convention Expresses Optimistic Hopes of Growing Strength of Agrarian Movement.

(Special to The Guardian) OTTAWA, Dec. 17.—The seventh annual convention of the U. F. O. came to a close this morning with the most important result of the convention was the expression of confidence in the Drury Government. It was only necessary to sit for a few minutes at any of the sessions to find out where the Drury Government stands in the sentiments of the United Farmers of Ontario. Every time Drury's name was mentioned it was cheered. Every time the name of any member of the Drury Cabinet was mentioned it was cheered. The success of the Agrarian movement in politics in Ontario has its complement in the measures of the U. F. O. The hope that next Federal Government would be in control of Farmers was apparent at least from the voluminous applause that greeted the remarks of Mr. W. L. Smith, this morning that a friend of his estimated there would be no less than 150 Farmers returned at the next Dominion election.

ADMIRALTY'S REPORT ON BATTLE OF JUTLAND

Long Looked for Report Has Been Published. Admiral Jellicoe Admits Certain Points of Inferiority as Compared with German Equipment.

(Special to The Guardian) LONDON, Dec. 17.—The Admiralty today published the eagerly awaited volume of 600 pages on the battle of Jutland containing Admiral Jellicoe's despatch describing the battle and the narrative of the British Squadron commanders. Admiral Jellicoe in his covering despatch, dated June 18th 1916, declared he felt no anxiety regarding the position of the forces under Vice-Admiral Beatty, Commander of the battle cruiser squadron. When M. Beatty sighted the enemy battle cruisers, the Vice-Admiral adopted the correct and only possible course in engaging the enemy and endeavouring to keep between the enemy and his base. There has been much controversy over the question whether Jellicoe should have gone to Beatty's assistance when it appeared the battle was imminent. The facts which contributed to the British losses in the battle, and Admiral Jellicoe in his personal reports, were indifferent to the armor protection for the battle cruisers particularly as regards the turret armour and deck plating together with the disadvantage given the light cruisers of the British cruiser action. Admiral Jellicoe reported "was the fact that five German cruisers engaging six British vessels at the same time were able to sink the Queen Mary and the Indefatigable. The German organization at night was very good and their system of recognizing signals was excellent while the British was practically nil. The German searchlights were superior and were used to better effect than the British." The Admiral says that he was reluctantly compelled to the opinion that under night conditions the British had much to learn from the Germans.

(Special to The Guardian) DUBLIN, Dec. 17.—The frank admission that Canon Manger was killed yesterday at Dunmanway County, Cork, shot by an auxiliary cadet was made by Dublin Castle today. "KILL LUXURY TAX IT HAS NO FRIENDS"

Is the Attitude of the Public Generally With Reference to Luxury Tax.

(Special to The Guardian) OTTAWA, Dec. 17.—"Kill it; it has no friends" appears to be the attitude of the general public and the retailers in connection with the Luxury Tax imposed at the last session of Parliament and it is likely will be from all present indications at the Capital. The Luxury Tax was ostensibly exempted in its purpose. It was practically intended to curb extravagance.

MAN MISSING

Mr. Phillip Lecky of Dredge No. 9, disappeared last Tuesday night. He was last seen by Captain Cosgrove of the Dredge which was lying at Bruce Stewart & Co.'s wharf about nine o'clock Tuesday night when he left the dredge to bid good bye to the fireman of the tug "Sogemada" also at the same wharf, who was going to his home in Nova Scotia on the following morning. A couple of phone messages were sent to his people in Ellis River but they were unable to locate him. His disappearance is causing a good deal of anxiety as the captain says he had no reason to believe, but it is hoped that he may soon turn up. OTTAWA, December 17.—Judgment in the claim of the Dominion Iron and Steel Corporation against the Dominion Government for rolling 100,000 tons of steel rails ordered by the Government during the war was delivered by Sir Walter Casella in the Exchequer Court this morning. The President in his judgment fixed the price to be paid at the rate of \$65 a ton for number one rails, and \$63 a ton for numbers two rails. The claim of the Company for interest and profits lost through the fulfillment of this Government order was disallowed. Each side was ordered to pay its own costs. The prices arrived at were those which had been estimated by the Minister of Railways, and the judgment upholds the opinion of the Minister. The Company's claim for interest on profits lost was disallowed. The suit involved the sum of \$1,116,000.
