Shipping in this harbor experienced a decided lull yesterday. Just one schooner entered the port while only three cleared. The calm prevailing in the afternoon prevented schooners from getting inside the harbor; one schooner with all sail set was observed in the same position nearly all the afternoon—just outside the harbor's mouth.

Harry B. Mutch, son of Henry Mutch, Southport, P. E. I., and Miss Helen G. White, formerly of Charlottetown, P. E. I., were united in marriage by Rev. R. Newton Powell at the Kitilano Methodist parsonage on Thursday morning, May 18. Mr. and Mrs. Mutch left shortly after the ceremony for a wedding trip to the Sound cities and will return to Kitilano in ten days where they intend to reside.

C. D. McNamara, berthling clerk with the Canadian Northern Steamships, Limited, who made a host of friends while at Halifax last winter, has severed his connection with the Royal line. It is reported that the will open up a tourist agency in Halifax. His numerous friends in business and sporting circles will hope that he will become a permanent resident of the city—Halifax Exchange. (Mr. McNamara is well known here.)

On Tuesday evening, May 23rd, Rev. H. E. Thomas of the First Methodist Church, Charlottetown, delivered his splendid lecture on the "Making of a Nation," in the public hall at Vernon in aid of the Methodist Mission. To all who were privileged to be present it was a season of great pleasure and profit, and it is vain to attempt a detailed description, it must be heard to be appreciated. It was a great and inspiring theme, well and worthily handled. Miss Margaret Furness gave great pleasure in her singing. Mrs. Rogerson kindly accompanying her. Icecream and candy were plentifully provided and a most enjoyable time was spent. On motion E. P. Irving, M. L. A. seconded by Hayden Van Isterdine the lecturer and all concerned in the success of the gathering were heartily thanked.

M. Bohan, St. John, representing the Wm. Patterson Co., Brantford, was in the city yesterday on business trip. Mr. Bohan crossed on the Northumberland on the evening of the 24th and registered at the Victoria. He had an experience with one of his travelling cases while en route which is rather unusual in this part of the country. On the arrival of the boat at the dock here Mr. Bohan proceeded to gather up his grips, numbering three in all, and to his annoyance, found that one of the largest, a square case of considerable size, was missing. He looked around in the immediate vicinity but his case was not to be seen and inquiry from boat officials elicited no information which would throw light on its disappearance. He proceeded to his hotel in the cab and registered. He paid a call on one of the grocery stores and in a short while returned to the hotel. He hardly had been seated when the hotel clerk, who had learned of the disappearance of Mr. Bohan's case, noticed a young man passing the hotel windows carrying on his shoulder a case similar in description to that spoken of by the poster. He drew Mr. Bohan's attention to the party and the latter immediately followed the chap down towards the station. When he approached near enough to the young fellow to recognize the grip he accosted him abruptly, catching him by the arm. The thief evidently recognized the owner of the case and, violently shaking himself free and dropping the grip in haste, made his escape. Mr. Bohan was naturally elated at the recovery of his sample case. The young fellow who took it was of medium build and wore a light overcoat and a hard hat. He had been over to New Glasgow witnessing the football match and had been noticed by Mr. Bohan and others in company with some girls on the steamer. The weight of the case evidently impressed him with the idea that there was something in it worth taking but he may be interested in knowing that it contained nothing but a fresh supply of biscuit samples.

Thankfully received at the Falconwood Hospital and the Infirmary papers and magazines from Dr. James Warburton, city.

The annual business meeting of the Provincial Rifle Association, called for last night, was not held as pre-arranged. Quite a goodly number of the members assembled but it was decided to adjourn until Tuesday night and the place of meeting will be announced through the daily press.

The usually quiet scenes at the station on the departure of the afternoon trains was somewhat departed from yesterday afternoon when those of the P. W. College students who were leaving for their homes after attending this year's sessions were given a hearty send-off by their fellow students. The customary hoisting and other college demonstrations, including the oft repeated yell, were the features of the farewell given those leaving.

The general topic among horsemen for the past few days was that on the performance of the Baron Wood, owned by W. S. McKie, at New Glasgow on the 24th. It must be remembered that this youngster has not received any training except what driving he has done on the streets, and to capture second money and one heat in 1:20 is a feat of more than ordinary Mr. McKie and the driver, Hammond Kelly, Southport, are greatly pleased over the event, and it is promised that Baron Wood is a natural born race horse and in the near future will make a whirlwind and a record breaker and Mr. McKie is receiving the glad hand of his friends over his excellent prospect.

The steamer Kilkeel, from Port Hastings, is at Cunard's coal wharf. Captain Elsworth reports that on May 19, while on the way from Halifax to Port Hawkesbury, a fireman named Ludwig Adolf Pawelski was discovered to be missing, and the only explanation is that he either fell or jumped overboard while at sea. On the date mentioned the captain saw some object floating in the water, thought it might be a log or something else, but, when a few seconds later a fireman was reported to be missing he immediately had the steamer stopped and they steamed back, but there was no signs of anybody on the surface.—Ex. (The Kilkeel was in this port a few days ago.)
