

# Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. It is especially prepared for babies. A baby's medicine is essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Opium, Morphine and other narcotic substances. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its use is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

**THE UNIVERSAL FLOUR**—Most flours are good for making toast, but some are better than others. Ask anybody who is using "Regal" flour what sort of toast it makes. If you do, you will be strongly tempted to specify "Regal" the next barrel of flour you buy. Carvell Bros. have been selling a very large quantity of "Regal" flour this summer, and the report they get regarding it is that the customers could not be better pleased with the results obtained. They find that "Regal" not only makes the best bread, but also that it spends well and gives the maximum result in quantity of loaves to the barrel. If you have not yet a barrel of "Regal" in your house, please delay purchasing no longer. Once you have tried it you will swear by "Regal".

From the days of the "Tax Curse" of 1877 up to the Bell Government's taxation of everything "tangible and intangible," every tax act was conceived in the camps of Liberals, and framed into law and imposed on the people by local Liberal legislatures. It was the Sullivan Conservative Government that repealed the "Tax Curse," and have always since avoided passing extreme taxation acts.
