A STATEMENT AND AN APPEAL TO YOU ON BEHALF OF THE PRINCE EDWARD ISLAND HOSPITAL

More than thirty five years ago the Prince Edward Island Hospital was started through the efforts and contributions of a number of generous and public spirited men and women.

Here is an illustration of the increase in cost of five items.

Table with 4 columns: Item, Year 1917-18, Year 1913-14, Increase. Items include Coal, Groceries, Meat and Fish, Milk, Medicines.

And no saving can be made on any one of these items. The Hospital must be kept as warm, the patients as well fed as before prices advanced.

It is therefore up to you to say by your response to this appeal whether the Hospital shall lessen, maintain or increase its usefulness.

In order that you may have an opportunity of contributing Queens and King's Counties have been organized by school districts, an executive of three appointed in each district and this executive will appoint collectors who will call on you on or shortly after the first of November.

Give the collectors a hearty reception.

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Secure from your druggist Lounce of Parnint (D. sole strength). Take this home and add to it 1-2 pint of hot water, and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should be kept open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parnint used in this way acts directly upon the blood and mucous surfaces of the system and has an tonic action that helps to obtain the desired results. The preparation is easy to make, cost little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment. 911.
