Sterns'
Fashionable
Livery

Fashionable Livery means stylish rigs; that they are rubber tired, drawn by live and well groomed horses; that we have every style of waggon and carriage that a man of reason could ask for—in fact rigs that compare favorably with those from the finest private stables in town. Our turn-outs haven't got that "Livery stable-rig" stamp about them.
This is very seasonable weather for driving—roads are excellent and the air bracing.
Use telephone if you like—too.

Destruction of Weeds.

There are two classes of weeds—those that come from seeds and those which are propagated principally by means of their roots. Weeds which spring up from seeds can be destroyed by successively bringing the seeds in the soil to the surface, where they germinate. The seeds of some weeds have great vitality and remain in the soil for years. Some are enclosed in clods and are retained for another season, but when the clods are broken and the weed seeds exposed to warmth near the surface, they are put out of existence by the harrow as soon as they germinate, for which reason it is impossible to clear a piece of land from weeds in a season unless every clod is pulverized. The oft-repeated inquiry: "From whence come the weeds?" may be answered: "From the clods." The weeds that spring from roots are cut up, checked and prevented from growing by frequent cultivation, because they cannot exist for a great length of time unless permitted to grow. If no leaves are allowed on such plants they perish from suffocation, because they breathe through the agency of the leaves. The advantages derived by the soil in the work of weed destruction reduce the cost of warfare on the weeds, for every time the harrow or cultivator is used the manure is more intimately mixed with the soil, more clods are broken, a greater proportion of plant food is offered to the roots, the loss of moisture is lessened and the capacity of the plants of the crop to secure more food is increased. The cost of the destruction of weeds should not be charged to the accounts of a single year only, as thorough work during a season may obliterate the weeds entirely, or so reduce their number as to make the cost of their destruction during succeeding years but a trifle.—Philadelphia Record.

NERVOUS HEADACHE.

The Cause of Much Suffering To Women is Permanently Cured When the System is Built up by

Dr. Chase's Nerve Food.

Headache powders relieve headache, but they have never cured them, and they are not intended to make a lasting cure. Beside the risk run in using a drug that is strong enough to instantly stop pain, you may be sure that the reaction on the nervous system is most trying and injurious.

Mrs. N. B. Ward, Douglas St. Charlottetown, P. E. Island, and whose husband is a carpenter, states "I was all run down in health this spring and felt that I needed a tonic. I frequently had severe dizzy spells and headaches and my nerves were weak and unsteady.

The use of Dr. Chase's Nerve Food has proved of great benefit to me and I can recommend it as a great tonic. My whole system has been built up by using this preparation, my nerves are steady and the headaches and dizzy spells have entirely disappeared.

Mrs. J. McLeod, Chestnut Street, Charlottetown, P. E. I. states:-"For some time I have been troubled with attacks of sick headache which were accompanied by indigestion. I began using Dr. Chase's Nerve Food some time ago and have been greatly benefited by it. My digestion has been improved, the headaches have disappeared and I have gained in flesh and weight. I consider Dr. Chase's Nerve Food a splendid health builder.

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

AN UNFORTUNATE WOMAN.

BOSTON, November 7.—Mrs. Lizzie Chase of Somerville, lost or had stolen from her pocket on Saturday, $2,700, the amount of insurance upon the life of her husband, who died last week, and which she had just collected. The money was all she possessed.

OF COURSE YOU WOULD

Suppose you had $10,000

cash capital, and were seeking a mercantile connection, and that Mr. Smith, who had a similar amount of stock, but with an indebtedness of $3,000 on it, invited you to become his equal partner; and suppose further that Mr. Jones, who had a stock worth $10,000 wholly paid for, together with a business connection as good in every way as Mr. Smith's and probably better; suppose Mr. Jones also invited you to become an equal partner, would you hesitate a single moment before accepting the offer of Mr. Jones in preference to that of Mr. Smith?

Let us Suppose Again

you have a certain sum to invest in life insurance. Would you be inclined to invest it in a company whose surplus earnings for years to come will be pledged more or less towards a stronger reserve basis, or would you unhesitatingly cast your lot with that company whose policy reserves are ample for the next generation at least, and every cent of whose surplus earnings is genuine surplus, free from any obligation or charge on account of reserves?

You Would of Course, Choose

the company with strong Reserves, especially when with this advantage went also liberal policy conditions and a long record of good management.

You would in a word choose the Canada Life, for it is the only Company on this continent which fully complies with the above specifications.

FRUIT GROWING

Is getting to be one of the principal industries of our province.
FRUIT GROWING cannot be carried on successfully unless the first trees are systematically sprayed.
SPRAYING cannot be conducted on any extensive sale without the use of an orchard spraying machine. Therefore every fruit grower must have a proper machine, with which to spray his trees.

"THE SPRAMOTER".

Is the best spraying machine to be had in Canada to-day Won gold medal at the Pan-American and first prize over all machines at the Government spraying contest at Grimsby, Ont. Used on all the experimental farms and by all the Horticulturists everywhere.
Made in different styles and sizes, ranging in prices from $8.63 to $50. For all particulars write or see J. W. Boulter, North Tryon or John P. Irving, Cape Traverse.
This is what Rev. J. J. McDonald of Kinkora says about the Spramoter: I have used the Spramoter for which Mr. J. W. Boulter, Tryon, is agent on P. E. Island and have found it to give perfect satisfaction. I heartily recommend it to the fruit growers of the province as an indispensible article in orchard management.—J. J. McDONALD, P. P. Kinkora.
