Modern Pavements Make Feet Tired

The miles and miles of hard surface roadways and sidewalks are very wonderful, but, being hard, non-resilient, and excellent conductors of heat and cold, they torture our poor feet unmercifully.

It has been found that if tired, sore feet are bathed in warm water containing a few drops of Absorbine Jr. they will be delightfully cooled and refreshed.

But this is not the only use for Absorbine Jr. It is a liniment, antiseptic, and germicide in one—the handiest, most useful article in the family medicine cabinet.

Not only does it kill germs and prevent infection in open cuts and sores, hastening the healing—not only does it limber up to new freshness, tired, stiff muscles, but as a mouth wash, throat spray or gargle it protects you against wandering disease germs and leaves behind a pleasant, clean taste and odor. \$1.25 a bottle at your drugist's.

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.

Six Old Country Families For P. E. Island Farms

Six families, comprising thirty-one people are being brought to Prince Edward Island from the Old Country. One family arrived on Saturday night, four last night, while the remaining one is expected this week. The new settlers are being met by Mr. C. M. Williams local Supervisor, at the Department of Immigration and E. J. Reid assistant superintendent of the St. John settlement.

The family who came on Saturday night consisted of William Butler, aged 31, from Leicester, England, with his wife, five sons and one daughter, the children's ages ranging from one year to ten years.

They reached Quebec on the Montreal. Mr. Butler is an experienced farmer, and an ex-serviceman, having served in France with the King's Own Yorkshire Light Infantry.

The Butler family are taking the farm of George Turner at Dundas. The following families will arrive tonight:

Leslie Waddington, with his wife and one child and his brother. They will locate on the W. E. Matthews farm at Brookfield.

Fred Wilkie, aged 26, of Kilmuir, Scotland, with his wife and one son, aged four. He is an experienced farmer and an ex-serviceman, having served in the Dover patrol. They are settling on the farm of Wallace Collings, Montague.

William Brown, aged 42 from Kirkcaldy, Scotland. He is a widower with one daughter aged 20 and two sons 20 and 15 years old respectively. He is an experienced Scottish farmer and an ex-serviceman having served in the Army Service Corps in France. This family is taking the Benjamin Seabough farm, Cambridge Road, Mur Harbour North.

Edward McGee, aged 31 with his wife and five sons. He is a road contractor worthy of special mention is the work of Mr. Donald Easton on the Souris Line Road, and Chester McDonald, Clear Springs, on that and the New Zealand road.

Stanford Bridges Meet Notable One

LONDON, July 27.—Athletic contests in this country now attract competitors from all over the world so that it is not surprising that many titles should be in the hands of foreigners. This year the athletes of seventeen nations challenged British supremacy on field and track, including, for the first time since the war, a team of Germans. The Stamford Bridge meeting was in many respects the most notable held in the history of the champion ships, and one world's record, two British records, one other championship record and the attendance record of the meeting were all beaten on the same afternoon.

The hero of the day was Dr. O. Peltzer, of Stettin, a tall, graceful athlete, whose race in the half mile against our champion, D. G. A. Lowe, provided the most thrilling race of the day. Lowe cut out the pace from the start and on the first occasion, when Peltzer challenged him he retained the lead. Coming round the bend, however Peltzer made a great effort, and a neck and neck race along the straight ensued. The German winning by three yards in the world's record time of 1 minute, 51.35 seconds. Lowe also beating the record. The forty thousand spectators accorded Peltzer the loudest cheers heard at the meeting and although beaten by J. W. J. Rankel, the Cantab, in the quarter mile, he was awarded the Harvey Memorial Cup for the best performance.

The mile was won by B. Baraton of Paris with a German second, while another German, R. Cortis, of Stuttgart, won the hundred yards. The Ceylonese athlete and Cambridge Blue, C. T. van Geysel, won the high jump, with an effort of 6 feet, 1 inch, while the long jump went to Dr. R. St. J. Honner, of Sidney.

American won the pole vault, an event in which the English never appear to advantage, and throwing the javelin, another un-English sport, was taken by a Norwegian. But this country did well to retain ten of the eighteen championships, not including throwing the discus which was won by an Irishman.

Don D. Mellett, publisher of the Canton Daily News, who was slain the other day as he was putting his automobile in the garage of his home. A reward of \$25,000 has been offered for apprehension of the slayer. The publisher was killed, it is believed, because of his activities against alleged gamblers in Canton, Ohio.

\$70,000 Fire at Campbellton

CAMPBELLTON, July 27.—Campbellton is tonight in darkness as a result of a fire which broke out in the shingle shed of the Stetson Culler Co., here, caused a loss of approximately \$70,000 and for a time threatened the east end of the town. The blaze which caught on the shingle mill started about 5.40 p. m. today and in less than half an hour the huge shingle shed, the Campbellton Curling Rink and some seven or eight dwellings were in flames.

In most cases the damage is only partly covered by insurance. Early in the conflagration the Hydro Transmission lines between the last tower and the power house went down and, as a result, Campbellton will be without electrical power for at least 24 hours.

Three invalids were confined to their beds in two of the doomed houses but all were safely removed from both of the fires.

Scores of citizens and members of the nearby mill crew salvaged from the buildings in the path of the flames, and the loss in this particular was thus considerably lessened.

A high wind was in progress at the time of the fire and for a time the situation assumed a very grave aspect.

The auxiliary reservoir was opened here, however, an abundant stream of a high pressure water assisted in getting the flames under control. By 7 p. m. the danger to the surrounding buildings was past. The office of the Graphic Limited, three dwellings in the path of the fire escape without damage.

The curling rink, one of the finest in the Maritimes, was totally destroyed. It was valued at \$15,000 with about \$9,000 insurance. Squads of firemen are still engaged at the site of the blaze as a freshening wind is making the burning shingles a source of anxiety in that neighborhood.

Sarcastic Comment On Maritimes By Dunning

REGINA, July 27.—Referring to his successor in office, Hon. Charles A. Dunning, former Minister of Railways, at a nominating convention here recently, said: "The (Hon. C. A. Black) is a Maritime province man and already the Maritime province newspapers hail his advent as indicating the National section known as the International."

"That was one of my problems to start off with. I believe it is correct to say that in the Maritimes there is a number of matters of importance. The first is being born, the second is a free ride on the territorial, the third is marriage, and the last is death. That is in their order; it was a political railway from the start."

"It was a very good way to run a railway and it piled up deficits year after year. The Liberals made the political mistake, but not the mistake from the point of view of the public when they took it under the National system and the men employed there had the same conditions of work as all the other men."

"We reaped the fruits of it last October. We did not do very well there and we are told that one of the reasons was that we had taken away their railway. Mr. Black is the new minister. The Maritimes are being told day after day by the Conservatives that this means the interests of the Maritimes in their railway will be recognized. We have tried to convince them that it is in their interests that the railway should be part of the National system and we believe it is correct still, and we stick to that policy. We will do better there on returning to New Jersey. Sept. 14—last October."

BRINGING UP FATHER

—Mrs. Peter McDonald, wife and child, of Rumford, Me., are visiting friends in the western part of the island. Mr. McDonald is a successful young lawyer in Rumford. One of the "successful Islanders abroad."

—Mr. Melbourne Morgan is a recent arrival from Boston on a few weeks' visit to his uncle, Mr. Rock Barra. He transported himself in his new Ford sedan.

—Mr. James McAuley, Harms Jct., who sold out last week, has returned to New Jersey, accompanied by his two sisters, Mrs. Melina McLean (Clara), and Mrs. John Campbell (Nellie), opened up the old home and expect to pass the summer months there. Mr. McAuley has some 50 or 60 acres of hay which he expects to harvest before returning to New Jersey. Sept. 14—last October."

The Markets

MONTREAL, July 27.—Owing to the failure of foreign buyers to respond to the prices asked by local exporters, the export trade in Canadian grain on the Montreal market today was again extremely dull.
