Mechanical Man To Be Exhibited At Firemen's Fair

Prof. E. Wilson, formerly of St. John but now of London and New York, has arrived back from Toronto after making arrangements to exhibit that great mechanical phenomenon, the Mechanical Man. The firemen of Charlottetown have been very fortunate indeed in bringing to Charlottetown one of the greatest mechanical exhibits ever seen. This Mechanical Man will be exhibited in conjunction with Firemen's Fair to open tonight at the Forum and this exhibit will continue on for the rest of next week. Thousands of dollars have been spent by foreign countries in their laboratories to develop this great mechanical genius. Great Britain spent one million dollars in perfecting this great Mechanical Man. So perfect is their development that British warships at sea and airplanes in the air can be guided and steered to any given destination.

Millions saw it at the World's Fair in Chicago. Six hundred thousand saw it in Olympia in London, England, and thirty thousand claimed it a great mechanical marvel at the Halifax Exhibition.

Madame Blanche, the famous Mind Reader and Phenomenist will also be at the Firemen's Fair. She tells the past, the present and future. The Madame has toured all foreign countries in her feats of wonder.

The feature event will be the Dixie Entertainers who sing and dance and entertain.
