LOCAL BREEDER NOTES FEATURES OF ROYAL FAIR

FOUND GUILTY—A verdict of "guilty" was returned by the petit jury yesterday afternoon in the Supreme Court, Summerside against Frank Richards, charged with shop breaking. The case was first tried at the June sitting of the Supreme Court, when the jury disagreed. The court opened at 11 o'clock yesterday when the prisoner's evidence was concluded and another witness John A. Hackett of Tignish was heard. This closed the case for the defense. Mr. Lowell Compton addressed the jury on behalf of the prisoner and Hon. J. D. Stewart, K. C., for the crown. The Chief Justice then addressed the jury. After being out twenty five minutes the jury returned the verdict as stated above. Sentence will be pronounced at the close of the Court. The court adjourned until Monday at 11 o'clock, when it is anticipated that the case of Bernie Grady, charged with theft of butter from the Dunk River factory will be commenced.

PRISONERS SENTENCED TO DORCHESTER—Judge Inman yesterday sentenced in the County Court the two young men Fred Wedge and Thomas Cannon, who confessed to breaking and entering the store of Mr. Gallant at Woodstock, P. E. I., recently and stealing a quantity of goods. The prisoners were given two years in Dorchester penitentiary. Judge Inman set Dec. 10th for the trial of Hubert MacDonald and William Richards, charged with theft, who elected to be tried under the Speedy Trials Act.

SUPREME COURT—The Supreme Court at Summerside, Chief Justice Matheson presiding, was occupied all day Thursday with the case of the King vs. Frank Richards of Tignish. The case was tried at the June sitting, when the jury disagreed. The prisoner pleaded not guilty to the charge of breaking and entering the store of Mr. Shelton of Tignish. During Thursday's proceedings, five witnesses were examined for the Crown and five for the defense. Hon. J. D. Stewart, K. C., and Mr. W. Henry Noonan acted for the Crown and Mr. Lowell Compton for the prisoner.—S.

Mr. Peter Brodie Describes Visit To Toronto Exhibition.

Returning from Toronto, where he attended the Royal Winter Fair, Mr. Peter Brodie, Ex-M.L.A., prominent livestock breeder and farmer of York, declared that the exhibition is undoubtedly "Canada's greatest advertisement of her agriculture and livestock."

The buildings at the Fair have a floor space equal to 23 acres. The new horse barn, which was opened for the first time this year, was much admired by the thousands of tourists and stockmen who visited it. It has 1200 box stalls, on its ground and upper floors, besides an exercising floor which covers nearly an acre, also room for feed and the driver's riser. It is built on an English plan, and is conceded to be one of the best in the British Empire. It cost over \$1,000,000.

The cattle barns house over 3,000 head of cattle. There were between 1,000 and 1,100 dairy cows from all parts of Canada and the United States. Some of these herds were owned by rich men of both countries. Messrs. Jones and Ings of Prince Edward Island deserve credit for taking their herds 1200 miles from home, and in such competition taking a large share of the prize money.

There were over 1200 sheep and 1100 hogs. That the people were interested in the live stock was shown by the immense crowds that watched the judges doing their work in all classes.

On the second floor there was between 7000 and 8000 poultry shown, and in an adjoining room 500 song birds made music that was enjoyed by all.

In the Coliseum there were 247 baskets of potatoes, over 300 sheaves of grain, and over 200 samples of grain all shown in snow white sacks.

The garden vegetables covered a space 100 feet long, 10 feet wide. The flower show was the attraction for the throngs that visited the Coliseum. It covered one and a quarter acres. It was surely a dazzling sight.

The apple space covered three quarters of an acre, and it was interesting to see the way they were arranged. A gravenstein tree with the apples artificially attached, and another tree with blossoms attached, showed the proper way to prune.

The greatest attraction of the Fair was the Horse Show. Every night the arena was filled with people watching the horses being judged, and when it came to the horses jumping hurdles 4 to 6 feet high, the excitement was keen.

There were horses from England, France, the Irish Free State, the United States and Canada taking part in the hurdle races. A horse from France won first prize, although United States took away the heavy end of the money. The greatest excitement was when the English lancers, about fifty strong, came into the ring, each driver in a red coat, red plumed cap with sword dangling at his left side, spear in right hand, and went through the different manoeuvres; and when it came to the charge, the crowd of over 20,000 rose to their feet and gave them a tremendous cheer.

A man shot from a cannon was another attraction. He entered the cannon feet first, and a large netting was spread out from 40 to 70 feet long. He struck the netting 62 feet from the mouth of the cannon. In what Mr. Brodie saw of the small sheaves of grain, potatoes, pumpkins, squash, cabbage, carrots, turnips and mangels, Prince Edward Island could hold her own with any part of the Dominion, and he expressed the hope that next year Island products would occupy a larger space at the Fair than they have done.

To any young man who is interested in Agriculture and Live Stock, Mr. Brodie warmly recommends a visit to "The Royal."

date and fireproof in every way. The flower show at the Fair exceeded anything of previous years, Lady Eaton carrying off many prizes.

On Monday evening the Governor General honoured the Exhibition with his presence.

During the week meetings were held by the different breed organizations. Hon. Thomas L. Kennedy, Minister of Agriculture for Ontario, gave a luncheon in the Parliament Buildings to the live stock exhibitors at which Premier Henry, of Ontario and Hon. George Hoadley, Minister of Agriculture for Alberta, were speakers.

It was the intention of Hon. Robert Weir, Federal Minister of Agriculture to hold a conference with the Provincial Agricultural Ministers on Tuesday, but unfortunately Mr. Weir was taken ill with a cold and was confined to his room in the Royal York Hotel. It is probable that the meeting will be held in Ottawa at a later date.

During the week representatives of the Tourist Associations of Canada held a two day session under the Presidency of Mr. Justice Arsenault. On Tuesday evening the Lieut. Governor of Ontario gave a dinner in honour of that Association. The function was presided over by Hon. Leopold MacAulay, Minister of Highways. Later in the evening Mr. William Findlay, member of the Canada Good Roads Commission in conjunction with Mr. Justice Arsenault, gave an oyster supper to the different members of the Association using for that purpose 150 barrels of Malpeque oysters, freshly arrived from this Province. At this supper Hon. Mr. Sharp gave a talk to the members on the quality of Malpeque oysters, and stressed the fact that oysters found in these Northern waters, especially in Prince Edward Island, are free from the contaminating waters of continental rivers and streams, and are absolutely free from any bacteria of a harmful nature.

Friday was Maritime Day when all Maritime stock was paraded in a ring at the Coliseum. The event created widespread interest and appreciation. On Saturday, Mr. Sharp attended a meeting of the investigation and inspection for registration committees of the Fox Breeders Association, which also met in Toronto during Fair week. Representatives were present from Manitoba, Ontario, Quebec, New Brunswick and Prince Edward Island. Hon. Mr. Weir attended and listened with a great deal of interest to the problems of the fox breeding industry. Along with other live stock industries, Mr. Weir expressed himself as being anxious to help in every way possible the progress of this industry in Canada.

TIENTSIN FIGHTING

TOKYO, Nov. 27. (AP.)—Japan's high military command decided this morning it was necessary to rush reinforcements to Tientsin, China, and the cabinet went into extraordinary session to pass on the decision.

Information received by the war office and from other sources indicated heavy fighting was going on at Tientsin. Rengo (Japanese) News Agency received a dispatch saying that after the Chinese had attacked the Japanese concession they laid down a bombardment on the Italian concession, and the Italian garrison was responding.

The Rengo correspondent declared the Japanese concession was being raked by fire from machine guns and rifles together with some artillery shells.

The war office charged the Chinese had started the attack. Commanding officer K. Shih, in charge of the Tientsin garrison reported the Chinese violated the truce of November 15 by launching an assault on the Japanese concession without warning.

Tientsin was in an uproar today as fighting started again between the Chinese and Japanese. Rifles, guns and light artillery were used by the combatants, and it was reported that the Italian garrison went into action after their nation's concession had been bombarded.

This new outbreak coming when hopes had been raised that a formula of peace had been found, was considered so serious in Tokyo that the military authorities decided to rush reinforcements to Tientsin.

The Japanese cabinet met in extraordinary session to determine whether to approve the war office's decision.

POPULATION OF

will remain unchanged. Quebec is the key province in fixing representation in the Commons. It always has 65 members and the other provinces get proportionate per capita representation. On this basis Ontario would stand to lose four members, but a clause in the British North America Act, provides that a province shall not have its representation reduced if the proportion which its population bears to the aggregate population of the Dominion has not declined by one-twentieth. Complete figures will show that Ontario has not declined to that proportion and therefore will retain its 82 members as in the present parliament. Manitoba would lose one member, but for the same provision. Saskatchewan grew at approximately the same rate as Quebec.

Another clause covers Prince Edward Island. A statement issued tonight by R. H. Coats, Dominion statistician and Hon. H. H. Stevens, Minister of Trade and Commerce follows: "The total for Canada will be around 10,360,000, which I think the people should regard as satisfactory."

"By provinces, the largest absolute gain has been in Quebec, viz., about 509,000. Ontario has gained 490,000, and the prairie provinces about 392,000. British Columbia will probably gain about 165,000 (giving the greatest percentage of gain in the Dominion). The Maritime Provinces, on the other hand, have gained only about 8,000. Nova Scotia having lost about 12,000. Prince Edward Island having lost a few hundreds, and New Brunswick having gained over 20,000.

"The effect on redistribution will no doubt be widely canvassed in the press during the next few days, and probably with a certain amount of confusion. The gain in Quebec has put the unit of representation up to about 44,000, instead of 36,000, as in the last census, and this at first glance might seem to have somewhat radical effects on the constitution of the House of Commons. Recent predictions, in fact, have been that the number of members in the House would be reduced, but such predictions have probably overlooked the effect of sub-section 4 of section 51 of the B. N. A. Act, which provides that unless the proportion which the population of a province bears to the total population of the Dominion has diminished by one-twentieth part since the preceding census, its representation shall not be reduced.

There is also to be considered the amendment in 1915 to the B. N. A. Act, which provides that a province shall always have as many members in the Commons as in the Senate.

NFLD. POST OFFICES CLOSE

ST. JOHN'S, Nfld., Nov. 27. (By the Canadian Press)—The latest curtailment in the civil services of Newfoundland in connection with the government's retrenchment program is the closing of about 300 post and telegraph offices in places where little business is done. In other places post and telegraph offices have been combined, and where possible telephone service has been substituted for the telegraph. Every department of the government services is under survey of experts brought into the country by Premier Sir Richard Squires. They include Sir Percy Thompson and J. H. Penson of the British Treasury, and R. J. Magor of Montreal. It is understood that the axe will fall next on the Customs staff.

one member but for the sub-section 4 above mentioned, but will retain this member under its operation. Manitoba had 0.94 percent of the population of the Dominion in 1921, she will now have about 6.76 per cent of the population of the Dominion in 1931. As the difference is not one-twentieth part of the percentage of the Manitoba population in 1921 to the total population in 1931, Manitoba does not lose her seventeenth member.

"Saskatchewan, Alberta and British Columbia—Saskatchewan showing practically the same rate of growth as Quebec will retain its present representation of 21 members. Alberta having grown somewhat faster than Quebec will get one additional member, and British Columbia, which has shown the greatest percentage of growth of any province, will gain two members.

"Summing up—As we see the situation on the basis of the preliminary and unrevised figures now issued, Nova Scotia will lose two members and New Brunswick one; while, on the other hand, Alberta will gain one and British Columbia two. The House of Commons will therefore remain unchanged in total number of members at 245. These statements can, of course, be regarded only as approximations, as the calculations are rough and subsequent revisions may cause a deviation.

CITY CHILDREN CELEBRATE THEIR ANNUAL "WHOOPEE"

If the question was ever asked, "What annual event is it that draws the greatest number of children together in Charlottetown at one time?" you would answer immediately that it was one of two things—either the opening of Holman's Toyland, or else the arrival of Santa Claus at Holman's.

It is doubtful just which event pleases the Charlottetown Kiddies most. Every year seems to eclipse the previous one in noise, happy faces, and a sort of general "good time being had by all." The opening of Toyland this year took place on Wednesday afternoon. The store was thronged with youngsters of all ages, the smaller ones being accompanied by parents, who appeared to be having every bit as good a time as the Kiddies themselves.

The Toys are better than ever this year. There is every kind of toy that you ever heard of, and many that you never heard of, all designed for one purpose only—to gladden the hearts of children at Christmas time. But there is still another event, perhaps of even greater importance to children, taking place in a few days. This is the long awaited arrival of Santa Claus. Santa, as in previous years, will come to Holman's, arriving between 2.30 and 3.00 o'clock on Wednesday next (Dec. 2nd). He will make a tour of the city and will then come back to his headquarters in Holman's Toyland, where he will greet all his little friends. Don't forget Wednesday.

WASHINGTON, D. C., Nov. 27.—(By the Canadian Press)—Wheat farmers of the U. S. probably would not be noticeably affected by the imposition of a British milling quota requiring 15 per cent of domestic cereal be used in milling mixtures.

British farmers, it is estimated here, produce about 15 per cent of the wheat now consumed in the British Isles. A 15 per cent quota would mean, according to opinion here, that it would remove those farmers dependence upon world prices and insure disposal of their entire production.
