Pure Wool Versus Shoddy

Everybody sees the folly of buying clothes made from shoddy cloth but the large majority of consumers not being experts do not know until after they have worn them "what was in them" and then it is too late. People buy shoddy cloth and clothing chiefly because the price forces the sale of such stuff, there being more profit in it. And the purchaser thinks they are cheaper not being able to discriminate between shoddy and pure wool. We Use No Shoddy In Our Factories Suits to order and ready-to-wear pants and overalls, home-spuns and flannels, cloth and tweeds, horse rugging and blanketing, yarns and stockinette.
