prior to 9.15 a.m. to take care of auto traffic.

It was decided that the matter be referred to a special committee to deal with. The president named as a committee Messrs. R. E. Mutch, Chairman, R. L. Cotton, S. A. Macdonald, and J. P. Crockett.

A number of other communications were placed on file. A communication from the Canadian Chamber of Commerce re the adoption of a system of certification of foreign invoices was referred to the Industrial Committee of which Mr. J. R. Falon is chairman.

Mr. R. L. Cotton reported that the airport committee has been very active. He stressed the necessity for all interested working for the completion of the flying field on Upton Farm. Dr. Jenkins has given a very large tract of land for an airport. If there is an airport in the city in time the air pageant will probably be held here as at other centres.

The machinery of the Department of Public Works would expedite the work of preparing the field and do it very economically. It was moved seconded and carried that the president be authorized on behalf of the Board to express thanks to the C. N. R. for courtesies extended to the Board in connection with the launching of the Charlottetown.

Attracted by the repeated whinnying of a horse, Sam Gilbert, an employee, walked across a field to the pasture. The horse waited for him, and led him some distance into a swamp, where its mate was helplessly mired.

OTTAWA, Ont., June 1.—(C.P.)—Dominion contributions to the Old Age Pension scheme will be increased to 75 per cent, Premier R. B. Bennett announced in the House of Commons today. At present the Dominion is paying 50 per cent of the cost of Old Age Pensions the other 50 per cent being provided by the provinces.

Trade With Australia

OTTAWA, Ont., June 1.—A trade agreement with Australia would likely be submitted to Parliament this session for ratification, Premier R. B. Bennett stated during his Budget speech today. The action of New Zealand in increasing its tariffs against Canada was because of Canada's refusal to allow New Zealand butter to displace domestic butter in this country. Mr. Bennett, claimed the blame for the present situation rests on the former government for making it possible for the trade in New Zealand butter to start in Canada.

Wheat Trade With France

OTTAWA, June 1.—Premier Bennett stated that, as a result of arrangements made with France, that country has brought this year six times more wheat up to the end of April than in any past year. At least one-third more wheat has been sold this year by Canada than in the past.

Subsidies to Coal Industry

OTTAWA, Ont., June 1.—Subsidies for the coal industry in the Maritime Provinces and Western Canada to the extent of \$1,800,000 will be provided by the Dominion Government, Premier Bennett announced today. The present subsidy on Alberta coal shipped to Manitoba will be increased and the area in which the subsidy applies will be extended as far east as Fort Francis and Sioux Lookout in Ontario. In order to assist the British Columbia coal mines a bonus of 25 cents per ton on all coal used in ships and exported to countries other than the United States will be paid. A sliding scale of bonuses depending in the distance shipped will be paid on coal from Nova Scotia and New Brunswick shipped to Ontario and Quebec. Loans to Provinces

Loans to provinces for erection of houses. Under authority of appropriations granted in 1919 and 1920 advances were made to the provincial governments to encourage the erection of dwelling houses throughout Canada. The loans were repayable within twenty years and carried interest at the rate of five per cent per annum. Advances to the amount of \$23,500,000 were made. Repayments received have reduced this to \$10,600,000 on March 31, 1931, made up

in part as follows: New Brunswick, \$1,057,000; Nova Scotia, \$1,017,000; Prince Edward Island, \$36,500.

Meeting Post Office Deficit

OTTAWA, Ont., June 1.—In order to meet the deficit of the post office department, nearly \$6,000,000, the one cent war tax on stamps, which has always applied to drop letters will now be imposed on all letters, Hon. R. B. Bennett announced today. This makes the rate on the ordinary letter three cents instead of two cents. The letters within a city will remain at two cents. The rate on newspapers and periodicals has been increased. This was formerly one cent per lb. but now it will be one cent per lb. only on newspaper, etc., having a circulation of 10,000 copies and less, and on circulation in excess of that, 1 1/2 cents per lb. will be charged.

MAN, 110, EXPECTS TO LIVE 100 YEARS MORE

EAST ST. LOUIS, Ill., June 1.—At 110 years of age, Charles Henry Johnson of this city, who declares two of his grandparents lived almost 200 years and who worked continuously until an automobile injured him recently, considers himself in the prime of life. He says he expects to live another 100 years before death overtakes him.

Johnson recalled the events of years gone by in an interview recently. "I was born in Indianapolis, Ind., when there was only one house there," the old man said. "That house is still there too. They call it the Kingan pork house."

"When I was 10 years old I worked on a farm for 12 1-2 cents a day and I've been working all the time up until last March when I was hurt in an auto accident."

"I was working in Danville in a mine when I was just a youngster—I saw my own coffin then too. I guess not many people see their own coffin. We were working in a mine and we were entombed. Well, they figured we would all be dead so they got the coffins ready. When they finally got to us I was the only one who was still alive. I found a coffin waiting for me when I got back to the house."

"After that I came to East St. Louis. I remember when I first came here there was only a lot of cow paths leading down to the river and just a few buildings."

Johnson said that he has had only a few rides in automobiles and that he still has his first time to go airplane riding. "I don't want to go up in one of them things," he says.

MAGIC MASTERS HOLD FIRST MEET

THREE RIVERS, Mich., June 1.—Masters of magic, professional and amateur, will gather here, June 18, for the first international convention of the Magic Circle.

The fraternity of magicians, organized four months ago, already this country and England, Mexico, Canada, Honolulu, Africa and China. Harry Blackstone, president of the International Magic Circle, recently announced he will bring 16 assistants and a car load of livestock and illusions for the convention.

Other famed conjurers who will attend include: Len Vintus, Canada's leading magician and founder and first president of the International Brotherhood of Magicians; "The Great" Dorfkind; Lighter the Wizard; T. Nelson Downs; King of Koinis Paul Noffke, inventor of tricks and illusions, and Walter Gibson, author of books on magic.

Chris Charlton, of London, who has appeared by command before King George and Queen Mary and four times before King Edward VII will be Europe's leading delegate.

WANTS TO DIE IN CITY DUMP

EL PASO Tex., June 1.—All Ebaristo Alvilvar, 79, wants is a place to die. And he has selected the city dump as the place.

Police have tried in vain to oust him from the small piece of property to which he claims title. When the city began dumping refuse on the place, they told Alvilvar to sell the land, but the city was unable to buy because another man, H. W. Pontius, also claimed title to the land.

In a suit of forcible detainer decided against him in Justice Court, Pontius sought to force Alvilvar to move. Alvilvar has appealed to County Court at Law. Alvilvar clings to a tattered piece of paper which he claims is the deed.

As the city continued to dump refuse about his little home, the land all around Alvilvar's home was highed than the roof.

Across the Rio Grande river is the old Guadalupe mission. "I am going to stay here, by the grace of God," he says. "All I want is to be left alone here to end my days."

Many a man who is a big bug at the office is nothing but an insect at home.

Horrible Death Of Sectionman

MONCTON, June 1.—Literally ground to death underneath the wheels of a giant Canadian National Railways locomotive of the 6100 type, Basil Crawford of Sackville met a shocking death about eight o'clock last night at Crossen's Siding, a short distance east of College Bridge, when eastbound C. N. R. fast freight, No. 467 struck the track motor or speeder he was riding in a westward direction.

It is understood that in addition to the engine, some twenty cars of the train also passed over the unfortunate victim's body, which was horribly mutilated, one hand being completely severed from the arm.

Crawford, who was about 40 years of age, was employed as a Canadian National Railways sectionman at Sackville. He had been in the service of the railways for several years and was held in high esteem by his associates as well as by the rail officials.

WOMAN IS CONVICTED BY AN ALL-WOMAN JURY

WASHINGTON, Pa., June 1.—The first all-woman jury in Washington county demonstrated that it could be as fair as a jury of men in dispensing justice.

Mrs. Josephine Wozolok was complaining witness against Joe Fabk in an assault and battery case. A jury of 12 men found the man guilty. A few minutes later Mrs. Wozolok was herself defendant in another case, charged with violation of the liquor laws. A jury of 12 women convicted the woman.

HISTORIC OAK TREE CUT FOR FIREWOOD

IRONDEQUOIT, N. Y., June 1.—The famous Red Jacket oak has been sacrificed to the automobile. Under its branches Chief Red Jacket of the Senecas addressed conciliatory speeches to his tribesmen, saving them from extermination by the English, according to credible tradition.

The tree was 20 feet in circumference, Village officials had it cut into firewood "because it constitutes a menace to traffic and impedes progress."
