NEW STYLE OF SPRAYER.—It is interesting to note that R. T. Holman Limited, Summerside, have designed and marketed a new style Spraying Outfit that is meeting with splendid success, and for which there is a constantly increasing demand throughout Eastern Canada. As an instance, when the Government recently required an apparatus of this kind for one of their farms their investigations led them to Holman's Catalogue in which they located just what they needed, and when asking for tenders on the equipment the Government authorities distinctly stated that the spraying outfit must be the same as the one shown in Holman's Catalogue; thus giving it the stamp of their approval. Needless to say Holman's received the order.
