—PLEASANT AFFAIR.—A very pleasant social evening was spent at the Epworth Hall, Friday evening under the auspices of the Epworth League. The evening was spent in games, songs and duets and a stump speech by Morley Bell was enjoyed by all.

A PAINFUL ACCIDENT.—Mr. Clifford Bell, assistant engineer of the tug Sogonengo, which is receiving repairs to her machinery, met with a very regrettable accident on Saturday afternoon. Mr. Bell was engaged at his duties, when his clothing caught in the set screw of the main shaft, as the engine started. He was whirled round by the shaft and but for the prompt action of the chief engineer in stopping the machinery almost instantly, Mr. Bell would undoubtedly have met instant death. As it was, almost all his clothing was torn from his body, his right leg was badly broken below the knee, and he was badly bruised, one toe being so mangled that it had to be amputated. He was removed to the P. E. I. Hospital, after receiving treatment from Drs. Yeoman and Ledwell. At last reports he was getting along nicely, considering his painful injuries.

WEDNESDAY
—KINDLY REMEMBERED.—On the eve of her departure from the firm of Messrs. Brace, McKay & Co., Ltd., Summerside, Miss Avis Schurman who has been a valuable member of the crèche department was presented with a beautiful gift and an address by the employees as a token of their regard. A committee of the Council was appointed to make formal application to the local government for a grant for the improvement of Water Street. The matter of drainage of our upper streets came up for discussion. The Council decided to inspect the streets in a body on Monday evening and report on the matter. The meeting was adjourned until Monday evening at 7.30.

—NURSES GRADUATION.
The graduation of the nurses of the P. C. Hospital, took place last evening in the Assembly Hall, and was very largely attended. Mr. Harry Holman, President of the Board, was chairman for the evening, and clergy, Doctors and Trustees, occupied chairs on the platform. Mr. Holman gave a fitting address on the difficulties of the past and the present success of this grand institution. Great credit was given to the matron, Miss Ross, who helped the P. C. Hospital to reach the pinnacle of success it has attained to. Mr. Holman announced from the platform that Mr. George Williams, the "Florist," kindly donated a hundred carnations to be sold on Saturday, the proceeds in aid of the Hospital. Judge McQuarrie was called upon to present graduating Diplomas to the three graduating nurses, the Misses Lidstone, McCarville and Smallman, who were then presented each with a bouquet by the little Miss Margaret Sinclair.

A great gloom was cast over Brackley Point and surrounding districts, when the sad news was received by wire, of the death, in the hospital, Somerville, Mass., of Vera L. Shaw, beloved daughter of Mr. and Mrs. Albert Shaw, in the 21st year of her age.

She left here about six months ago, to spend the winter with her aunt, Mrs. J. Wallace Shaw, where she took sick, and despite all that medical skill and tender care could do for her, on Sunday evening, April 4th, her spirit passed to Him who gave it. Many would wonder to look at the fair young form, beautiful in death, why this young life with every promise of a bright future, should be cut off so soon.

Vera was a bright and lovable girl, and endeared herself to all who knew her. In the home, where her thoughts were always of others, her passing has left a vacant place which never can be filled.

There are left to cherish her memory besides her grief stricken parents, two sisters, Mrs. Oliver D. Nunn, Winslow, North, and Mrs. Lemuel A. Horne, South Milton, and one brother Everett at home, to whom the sympathy of the whole community goes out in their hour of sorrow.

Notwithstanding the bad condition of the roads, upwards of one hundred wagons followed the remains to their last resting place, which goes to show the esteem in which the young lady was held.

The pall-bearers were, John McLore, Fred Horne, James McDonald, Heber Horne, Vernon McDonald, Charles Shaw, Interment took place to Cove Head Presbyterian Church Cemetery.

WEATHER PROPHECIES.—An exchange says: Local weather prophets predict that the cold and chilly weather of early May will continue for another three weeks yet or at least until the moon again changes. This change takes place on May 18—following that event, the weather will be warm and mild. We hope that their predictions will not adhere to the literal truth. The winter has been quite long. The winter has been quite long. The winter has been quite long. The winter has been quite long. Half of the population of Nova Scotia has expressed the regret, that Great Britain ever took this country from the Indians.

BARRETT-SMALLWOOD WEDDING.—A quiet but pretty wedding took place at 6 o'clock Wednesday morning at the Methodist Parsonage, when Charles Golding Barrett, of Kingston, P. E. I., and Miss Lily May Smallwood of Charlottetown, were united in marriage by the Rev. G. W. P. Glendinning. The bride was dressed very becomingly in her tailored suit of blue, with hat to match and veil, and attended by her sister, Miss Charlotte A. Smallwood. The happy couple left on a wedding trip to St. John, N. B., and on their return will reside at Kingston. The many friends of the bride sincerely regret her removal from Charlottetown, but unite in wishing her a very happy and prosperous life.

The new instructor of the P. E. Island Boys' Naval Brigade, Petty Officer A. Clements, late of H. M. S. Newcastle and H. M. C. S. Rainbow, of the Pacific Coast Squadron, has arrived in Charlottetown from Halifax to enter upon his duties. Attired in the jaunty uniform of a full-fledged man-of-war'sman, and having an experience of ten years of duty on the sea, Mr. Clements not only looks like the right man for the job, but has the full qualifications which ten years of steady service in the navy is bound to bring. Mr. Clements is a native of England, and this is not his first visit to Charlottetown. He was here in the Niobe the year that ship made her first trip to this port, and although his stay here was only a very brief one, he formed a very favorable opinion of the place, so much so, that when the present position offered, it no doubt had something to do with his decision to accept it.

The Boys' Naval Brigade at present has a strength of 30 members, which it is proposed to increase to sixty. The boys will be sub-divided into classes of fifteen each, each boy attending one afternoon and one evening each week. They will be taught signalling under its various branches; semaphore, Morse and International Code, boat work and lead-line, knots and splices, the meaning of sea terms, squad drill and the mysteries of the compass.

Even if the boys have no intention of taking up a seafaring career, the object at any rate, will be to make men of them, and if they decide to follow the sea, the knowledge gained will be invaluable.

By the middle of the present month, the boys of the Naval Brigade will have their uniforms and the public will have an opportunity to see them at work.
