

THE CENTRAL GUARDIAN

The secret of the fresh and delicious flavor of Moir's Chocolates lies in the chocolate coating. Moirs do not buy their chocolate coatings. They make their own, importing for this purpose the choicest cocoa beans. These are roasted and blended by a secret process in the Moir candy kitchens. Then they are ground by machinery for days at a time until the chocolate paste has the smoothness of satin with a texture so close and fine that the air is excluded. That is why you always find Moir's so fresh and delicious. The wonderful coating preserves their goodness.

He has already stood for Vice-President, was Collector of the Port of New York, and is a distinguished lawyer. Seen at Claridge's, Mr. Malone expressed the view that Mr. Lloyd George is the British leader most popular in American.

Geo. Robey As A Stamp Collector

(By Dominion News Service) LONDON, June 16.—George Robey appeared before the Philatelic Congress in London in the role of a stamp collector. He read a paper on "The Stimulus of stamps." "A few years ago, in a revue at the London Hippodrome," said Mr. Robey, "I told my audience I was a philatelist. They did not know what that meant, but they laughed—sometimes do at these revues."

why it is that glasses are worn more commonly in the present generation than in the past. Some say that the race is deteriorating, some that it is for style, but the real reason is that our modern civilization requires the eye to do more work than was even the case before. Consequently, the eyes, if in the least defective, may give you a lot of trouble though in reality they are no worse than those of your grandfather who did not wear glasses till he was an old man. If you feel the least symptom of eyestrain, remember that it is nature warning to you and consult us at once. G. F. Hutcheson Optometrist
