only responsible for all the above enumerated outrages, but also for practically every other preventable ill from which Canada is today suffering. If this is not partisanship gone mad, or worse, please tell me what it is!

The return of Mackenzie King to power is a notice to the American manufacturers and farmers that Canada will continue to be a dumping ground for all their surplus products and American newspapers are not slow in calling attention to this fact. The Boston Transcript of September 16th, says, editorially:

"Mr. Mackenzie King's return to power will mean a quietus on attempts to increase the tariff as against American goods. This will no doubt be taken as good news for American manufacturers."

The Boston American of September 17th, says:

"The sweeping Liberal victory in Canada will be PLEASANTLY RECEIVED IN THE UNITED STATES for various reasons. It will, in the first place, INSURE AGAINST an early revision of CANADA'S tariff upward, which would retard a free flow of commerce across the border."

Other American newspapers take the same line. American paper manufacturers are also now assured that they may continue to have free access to the small remaining supply of Canada's pulpwood without hindrance or molestation.

Mr. King is said to be receiving congratulations upon his election from some of the organized Liberal Clubs, which is quite in order so far as Mr. King's personal welfare is concerned, but at what a cost to the Canadian people.

Mr. King even boasts of the increased exports, while he cleverly sidesteps the fact that these exports are made up to the extent of seventy per cent. of irreplaceable raw materials, consequently Canada is daily becoming poorer in stead of richer through her exports.

Since Canadians have voted to return a government with such a record, a government which persists in allowing the free export of their priceless raw materials, my advice to Mr. King's American friends is to now come and help themselves to Canadian pulpwood.

Canada, will, as the Hon. Geo. F. Graham observed, soon be but a memory.

Mr. King's flimsy excuse for reducing the tariff while every other country in the world is increasing theirs is that it will reduce the cost of production, but he knows full well that his iniquitous policy will paralyze Canadian industry and eventually force the country into bankruptcy.

The United States has a high protective tariff and cost of living is no higher there than in Canada. Low cost of living in China does not save millions of her people from starvation.

Can anything be any plainer than the fact that all of Mr. King's policies are in the interest of the United States and that they will result in the economic destruction of Canada?

Some may suggest that since the King government has been elected give it a chance to see what it will do. Unfortunately, this is unnecessary as this is exactly the same kind of government that we have been suffering under for the past five years, namely, a Liberal Progressive combination and a leopard cannot change its spots by a mere change of name.

A Liberal Progressive is merely a Progressive demanding more liberal treatment from an already overburdened country. This same King-Foxke combine has simply produced chaos with our manufacturers, our mines, our agriculture

RETURN TO CALIFORNIA.—Mr. and Mrs. W. H. Coffin and little son of Pasadena, Calif., accompanied by their daughter, Mrs. G. I. Hemphel of New London, Conn., who have been visiting relatives and friends in this Province left on return home Thursday, Mr. Coffin visited his mother, Mrs. Edwin Coffin of West St. Peter's, who is in her 92nd year and smart as a woman many years her junior. On her return she drove by car from Charlottetown to St. Peter's to poll her vote and was none the worse for the outing. The visitors while in this City were the welcome guests of Mr. and Mrs. Benjamin Jarvise and Mr. and Mrs. A. J. Jarvise. It is thirty-five years since Mr. Coffin left this Province and while missing many familiar faces notes with pleasure the improvements in Charlottetown and surrounding country and he is a good judge, being one of the finest builders who has left here to win access in other parts. Mr. Coffin was head foreman for many years for the firm of H. R. Douglas in Boston and later in New London, Conn. He is now successfully located in California but still retains a very warm regard for his native province where he will always receive a cordial welcome.

and our customs and has caused a heavy burden of taxation and debt to remain which but for its iniquitous policies and reckless administration would have been greatly reduced or entirely removed. Consequently the Canadian people have nothing to hope for and nothing to expect under the new government except a progressive repetition of the disastrous consequences resulting from the past five years' mal-administration of this same Liberal/Progressive combination, with an increased short of our people. Nothing short of a vigorous contest in every bye election that occurs will be worthy of the Canadian people, regardless of what the results may be.

Are Canadians going to sit with arms folded while a few disloyal self-seeking politicians scuttle the ship—Not while the spirit of Vimy Ridge remains.

To the Canadians whose investments are such that they can fold their tents and depart to other lands, leaving nothing behind except a feeling of shame for their birth-right, it is not quite so serious a matter, but to those who have their all in their factory, their store, their farm or home, it is a deplorable situation and forces the prayer to my lips of God save Canada.

I am, Sir, etc.
FRANK J. D. BARNJUM.

IN MEMORIAM

MR. ARTHUR HOLROYD

Our people both in City and country were shocked to learn of the unexpected death of Mr. Arthur W. Holroyd which occurred on Wednesday the 29th inst. at his home "Wyther Grange," Winsloe.

Mr. Holroyd was in excellent health and spirits on Sunday last but the next day he complained of feeling unwell and by Wednesday his illness became so serious that his attending physician was hurriedly sent for, but before the latter's arrival Mr. Holroyd's spirit had passed to Him who gave it.

Mr. Holroyd was born in December 1849, the only son of the late Hon. Joseph and Mrs. Holroyd of Wythe Hall, Yorkshire, England, his two sisters, Mrs. Louis L. Jenkins and Miss Louisa Holroyd of also leaves to mourn his widow, Alice, daughter of the late J. T. and Mrs. Jenkins, and three sons, Joseph L. of Edmonton, Alta., John C. of Waterton, Lakes Park, Alta., and Stephen G., at home.

The late Mr. Holroyd enjoyed a wide circle of friends throughout the country by whom his warm heartedness and hospitable and kindly nature will be sadly missed. He was one of the best known and highly respected agriculturists in his community because of his deep interest in farming and stock raising.

Mr. Holroyd was all his life a devoted member of St. John's Anglican Church, Milton, in which congregation his place can never be filled. In politics he was a staunch Liberal and in his younger days always gave his party strong and ready assistance in the political campaigns.

To the family and friends the loss is a heavy one and it is extended
