**BOWLING**

Bowling has become the most popular indoor sport in Charlottetown. The Y. M. C. A. has already got away to a good start. The City League, Commercial League, I. O. O. F. League, Bankers League and Rebekah League are well under way and have developed into real keen competition.

Many of the teams for so early in the season are rolling up high scores and indications point to some of the former records going by the boards.

The League of the Cross are now busily engaged in preparations for their opening night for the different bowling teams to be entered. A meeting is being called for Monday night to organize teams and draw up schedules.

The Charlottetown Alleys have had a few match games so far and are getting in readiness for the coming season, when no doubt strong competition will be put forth with the different teams in their games.

So far a Provincial Bowling League has not been spoken of, although there is an abundance of material in the City and Summerside has a number of good bowlers. Now is the time to get such an organization functioning and perhaps have a Maritime playoff in bowling.

Throughout the Maritimes the candle pins are much in evidence and are played in most all Leagues, possibly the City players would take to this game in a Provincial League and thus be in line for a play-off.

This would require some little work on the part of the P. E. Island bowlers, but no doubt could be right executive behind it. All in all it is worth giving a try out.

**La France is Last To Canadian Team**

Stars for Duluth Under Suspension; Likely to Play in U. S.

MONTREAL, Nov. 25.—Leo La France is lost to the Canadian team in the National Hockey League for this season.

He left tonight for Duluth, technically under suspension by the local club but actually, it is believed to play with his old team mates in Duluth, or one of the other American Hockey Association clubs.

La France had been compelled by Canadiens to report on threat of suspension from organized hockey, but it is understood he satisfied the locals that important private matters necessitated the move and that he left with the promise to be back with Canadiens next fall. His departure leaves to club with no left winger to relieve Joliat.

**Donie Bush Active Pilot**

Baseball men look for aggressive leadership of the Pittsburgh Pirates next season by Donie Bush. The new pilot of the 1926 world's champions, succeeding the quiet and reserved Bill McKechnie, brings with him a reputation for rough and fearless leadership in the American Association, where for two years he guided the destinies of the Indianapolis team. A star shortstop in his major league days at Detroit, Bush did not hesitate to speak his mind when he considered plays of poor judgment. Battling with arbiters frequently resulted in his banishment from the field.

**To Form New Hockey Loop Next Season**

TORONTO, Nov. 25.—The Toronto Globe publishes the following in its sport columns today:

Although the past year has witnessed some sensational developments in professional hockey there are already signs in the sky that changes in the national circuit.

The big chiefs in the National Hockey League have survived six months of hectic doings and face what promises to be the greatest season in the history of their organization. In view of this they may not feel disposed to worry about what is almost certain to crop up late in the next spring or summer.

To Stage Series  
 This will then give hockey major leagues after the lines of the major leagues of baseball. A war series between these two leagues will be staged every spring. Another pro hockey circuit will be classed as minor leagues of baseball. A world series between these two leagues will be staged every spring. All other pro hockey circuits will be classed as minor leagues. Cleveland and Philadelphia are the two cities most likely to be granted the additional two franchises for major league hockey.
