RED CROSS MAGAZINE—Readers of the Canadian Red Cross Magazine will regret to hear that the next issue will not be until December. The splendid articles on Health which the magazine always contains are being missed because various members have written to the Provincial Headquarters asking why their magazines have not been received. Some changes in the magazine are being contemplated by the Editorial Committee and it has not been decided yet whether the publication will remain as a monthly or be issued quarterly. The Junior Red Cross magazine, however, is still being published monthly and is very much in demand by the school children.

McCarthy and Mrs. Levlina McCarthy of Timish, P.E.I., the ceremony being performed by Rev. Father D. A. McPhee, cousin of the bride. The bride, who was given in marriage by Mr. James Sullivan, was attended by her sister, Miss Mary St. James, Mr. Melgund Bouchard acted as groomsmen, Miss Bertha Varin presided at the organ. Following the ceremony breakfast was served, the immediate relatives of the bride and groom being present, after which Mr. and Mrs. McCarthy left for Montreal and Quebec.—Ottawa Citizen.

WORDS OFTEN MISUSED: Do not say "I have all of them."—"I have them all" is better.

OFTEN MISPRONOUNCED: dialogue. Pronounce the o as in "of," not as a in "oil."

OFTEN MISPELLED: bailiff.

SYNONYMS: call, assemble, convene, collect, summon, invite.

WORD STUDY: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word, **QUIZZICAL**; relating to, or of the nature of, a jest. "There was a cool, quizzical expression in his eyes."

NEW CAR FERRY STEAMER

Sir.—The new car Ferry Steamer now in contemplation for service on the Borden Tormentine route will establish the method of communication between Prince Edward Island and the mainland for many years to come.

As the report of the plans of the new Ferry Steamer received to date offer little encouragement that it will satisfactorily meet the transportation requirements of the Province rests primarily with the Provincial Government. To give women an umbrella to match each dress, an Englishman has introduced a frame with which is supplied a dozen silk covers in different shades.

I am sir, etc.

Built in 1807, and still using ancient engines and cars, the railway between Swansea and Mumbles Pier, Wales, is to be electrified and modernized.

IN THEIR FOOTSTEPS

Where are the "boys" of yesterday? The men who in the greatness of their minds, "visualized" Canada as a great, powerful and prosperous nation have passed from amongst us to enjoy their reward in the great beyond. But their achievements are their monuments and their glory. The Strathcona's and Mount Stephens of other days have shown us that nothing is impossible in the way of national development while confidence and self-reliance are the major forces in our national character. The men who linked Vancouver to Halifax with ribbons of steel understood the greatness of Canada and the capacity of Canadians. Their lives and accomplishments are our object lessons now and for all time to come.

It is worthy of note and recognition that our young country has today men of similar capacities as her citizens. But yesterday, Nov. 1st 1928 was completed and officially opened and occupied in Toronto, the largest building of its kind in Canada and possibly in the British Empire. This immense structure, the Commerce and Transportation Building, was conceived by Canadian architects and Canadian workmen are to be credited for its erection. Not a dollar worth of brick or other material from outside of Canada was used in its erection. Its promoters can proudly point to the fact that the Commerce Building in the first mammoth structure erected in Canada with all Canadian materials by all Canadian brains and workmen; and financed by Canadian dollars.

Our friends in the Republic to the south of us have been given their first great lesson in what Canadians can accomplish when they determine to "up and at it."

Truly history will link up with the Strathcona's, Mount Stephens and Shaughnessy's the names of Johnston and Thomas, President and Vice-President of the investment banking house of G. A. Stimson & Co., Ltd.

The oldest Bend House in Canada, who sponsored and financed this all Canadian enterprise, the Commerce and Transportation Building Limited.
