## ANGLO-AMERICAN

## TREATY PUBLIC

### Taft Wants Public Opinion on it. French and Two South American Pacts Also Given Out

WASHINGTON, Aug. 5.—The Senate today adopted the rather unusual but not unprecedented course of making public the text of four treaties which have not yet received action at its hands. These were the Anglo-American and the Franco-American general arbitration treaties and the treaties providing for the adjustment of the finances and customs of Honduras and Nicaragua.

Publicity was given to these im-

portant conventions at the request of the administration, which desires that the subject shall receive the fullest consideration by the press and the public in order to advise the senate as to the real sentiment of the country as a basis for its action.

Some justification for this procedure developed today when in the course of executive session two senators of opposite parties, Borah, of Idaho, and Bacon, of Georgia, voiced their dissent to the conclusion of the arbitration treaties in the forms submitted. Their criticism was aimed at article 3 (identical in the two treaties) which, in their opinion, provides for compulsory arbitration, and thus tends to deprive the United States Senate of their constitutional prerogatives.

The treaty advocates, however, felt that there had been a misunderstanding of the scope of the treaty by the

undecided until noon Friday 9th August 1911 for the purchase of his one property at Bonshaw, also for dwelling house and about four acres of land, and for six acres of land adjoining the farm of Mr. John MacManus. Tenders will be received for the properties to gether or for each separately.

Tenders to state amount to be paid, and terms of payment required, and nature of security.

The highest or any tender not necessarily accepted.

## Booth's Kidney Pills Cured

### What Doctors Called Bright's Disease

Mrs. M. Lewis, 13 St. David Place, Toronto, Ont., says: "I had doctored for over two years with many different specialists but could find little relief for what they termed Bright's disease. I was so weak and run down that I could not get up from a chair without supporting myself with both hands. My whole system had become so weakened and run down that I could scarcely walk. I was advised by a friend to try Booth's Kidney Pills. They gave me quick relief and I was soon rid of my suffering. I will always gladly recommend Booth's Kidney Pills and speak a good word for them."

Don't neglect your kidneys; once they go wrong they get a firm hold before the sufferer knows it, and backache, headache, lumbago, lumbar, urinary troubles, dropsy and Bright's disease follow in merciless succession. Cure the kidneys with the guaranteed and safe remedy, Booth's Kidney Pills.

two senators named, and that a clause in article 1 of the treaties, which provides that there shall be no arbitration except under the terms of a special agreement, effectively guards the rights of the senate as such special agreement shall receive the senate's sanction in order to become operative.

## WILL CONSULT SELF-GOVERNING DOMINIONS.

The British and French treaties are substantially the same with the exception of the preambles, some small differences in dates of existing treaties referred to therein, and some of the mechanical differences between the treaty-making methods of the two governments. One important provision in the British treaty requires the British government to obtain the concurrence of any of its self-governing dominions affected by the proposed arbitration.

In view of their importance, it is intimated that a motion may be made to ratify them in open senate, an almost unprecedented procedure.

The preamble, after reciting the fact that all outstanding differences between Great Britain and the United States have been settled by arbitration since the Treaty of Ghent, goes on to state that it has been desirable to extend the scope of the arbitration treaty of 1908. The treaty, which is practically the same in both cases, reads:

"Article 1: All differences hereafter arising between the high contracting parties, which it has not been possible to adjust by diplomacy, relating to international matters, in which the high contracting parties are concerned by virtue of a claim of right made by one against the other under treaty or otherwise, and which are justifiable in their nature by reason of being susceptible of decision by the application of the principles of law or equity, shall be submitted to the permanent court of arbitration established at The Hague by the convention of October 18, 1907, or to some other arbitral tribunal as may be decided in each case by special agreement, which special agreement shall provide for the organization of such tribunal, if necessary define the scope of the powers of the arbitrators, the question of reference to issue, and settle the terms of reference and the procedure thereunder.

The provisions of articles 37 to 90, inclusive, of the convention for the pacific settlement of international disputes, concluded at the second peace conference at The Hague on the 18th of October, 1907, so far as applicable, and unless they are inconsistent with or modified by the provisions of the special agreement to be concluded in each case, and excepting articles 53 and 54 of such convention, shall govern the arbitration proceedings to be taken under this treaty.

## MOUNT ALLISON INSTITUTIONS

At Sackville, N. B., almost at the very centre of the Maritime Provinces, are the Mount Allison Institutions, whose students make up one of the largest educational communities in Canada—save, of course, those communities in some of the bigger cities. The institutions include the University, the Ladies' College and the Academy. In today's paper will be found the advertisements which tell something of the splendid work which these schools are doing.

At the University courses are given in Arts, Engineering and Theology. Various special and honor courses are also given as well as an advanced course in Finance and Commerce. In the Engineering Faculty a two years' course is given and on completing it students are admitted without further examination to the third year at McGill and other great engineering schools. Students securing their Engineering courses in this way are able to do so at much lower cost than by taking all four years of their work at one of the larger technical colleges. The University has one of the finest stone residences in Canada, and in this building nearly all of the male students make their homes and thus secure the great benefit which comes from being members of one large "home" community.

The University offers students a number of prizes. This year, among other prizes, are five Entrance Bursaries to the value of \$75 each. Full information regarding all prizes is found in the University calendar which will be sent free on application to Rev. Dr. Borden, Sackville.

The Ladies' College, which is the largest residential ladies' college in the Dominion, includes not only the Literary Department but the Conservatory of Music, the Massey-Treble School of Household Science and the School of Fine Arts. It provides Literary and Household Science courses; instruction in Painting, Drawing, Designing, Modelling, Leather and Metal Work, etc.; courses in Oratory and in Piano, Pipe Organ, Violin and Voice. The Art School, with the Owens Art Gallery and a magnificent collection of valuable paintings, is under the direction of a member of the Royal Canadian Academy who is also an exhibitor in salons across the water. He is as-

isted by talented and trained teachers. The Conservatory of Music is under the directorship of an English professor who has associated with him as teachers ladies and gentlemen, nearly all of whom have been trained abroad. The staff of the college includes over twenty teachers and four occasional lecturers. At this institution, too, a number of prizes are offered. A calendar will be sent free on application to Rev. Dr. Campbell.

The Academy is a pleasant residential school where boys are prepared for matriculation in Arts, Engineering, Medicine, etc. Special courses are also given. Connected with the institution is the Commercial College in which excellent instruction is given in Business Courses, Shorthand and Type-writing. The staff of teachers is strong both in the Academy and in the Commercial College and the constant aim is to make the institution one which will not only give the

best of instruction but will also be instrumental in moulding character along desirable lines. The principal, Mr. J. N. Palmer, M. A., will send full information on request.

The Mount Allison authorities are fortunate in that their schools are located in one of the most healthful towns in eastern Canada. This, of itself, leads many parents to send their children to these steadily growing institutions.
