A meeting of the Tourists Association was held in Summerside on Thursday evening in the Council Chamber, when the matter of providing accommodation for visitors during the Exhibition was discussed. It was decided to ask hotel keepers and private citizens to hand in their names together with the number of guests they could accommodate to the secretary D. K. Currie at whose office a register will be kept for the purpose and where accommodation will if desired, be looked in advance for intending visitors. It is hoped that citizens will cooperate with the association in this matter as it is quite probable that there will be more visitors than the hotels can accommodate.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadest declaration, and the broader the scope of the announcement, the more effective the advertising. No occupier of space that does not attract attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged excessive. - American Medical Journal
