The question is often asked—why our soda and other fountain beverages taste so much better than those served elsewhere.

It is because the water is perfectly carbonated. This sparkling water goes right to the thirsty spot.

Our Fountain

Is so constructed that it produces the coldest soda that may be drawn.

The fountain is sanitary and every glass of soda which comes from it means health and happiness.

a foot and sole leather 2 to 3 cents a pound. As our prices were figured this year absolutely on the market, we, of course have to make a slight advance to cover this. We believe that you will be perfectly safe from now on prospects are that if they hold off in buying they will pay a little more. They have been holding off for some time figuring that there would be a further drop, but all indications at the present time do not point that way and would strongly urge buying at today's prices rather than wait.
