FREDERICK MacDONALD

There passed peacefully away at his home in St. Avards on August 29th, 1945, Frederick MacDonald in his 73rd year. He was quite well and active until about two months before he passed away when he was taken suddenly ill and all that loving hands and kind nursing could do was of no avail. He gently fell asleep in Jesus on the above mentioned date.

The deceased was a successful farmer at Cove Head Road until five years ago when he retired and moved in to St. Avards to reside. He was a member of the United Church for a number of years, in which he took much pleasure in attending, and he was visied frequently by his pastor, Rev. J. A. Nicholson of York.

He will be greatly missed by a host of friends as well as by his own immediate family. He leaves to mourn his passing the loss of a loving husband and kind father, his sorrowing widow and the following sons and daughters: Edna (Mrs. Sample), Somerville, Mass.; Jean, (Mrs. Elby Ford) Charlottetown; Roscoe, York; Pearle (Mrs. Robert Parks) Roxbury, Mass.; Dorothy (Mrs. John MacDonald) Stoneham, Mass.; Rema, Charlottetown; Ernest, overseas; Irving, Covehead Road; Ina (Mrs. John Caswell) at home. One daughter predeceased him 26 years ago. He is also survived by one brother James, Somerville, Mass., besides 18 grandchildren and one great grand child.

The funeral took place on August 31st from his late residence where a short service was held, conducted by Rev. J. A. Nicholson assisted by Rev. T. E. McLellan. Then his remains were tenderly borne to York, where service was held in York United Church by the Rev. J. A. Nicholson and T. E. McLellan, the Church being filled with sorrowing friends and relatives of the deceased.

The hymns sung were favorites of the deceased. "The Lord's My Shepherd" and "Safe in the Arms of Jesus" and a solo, beautifully rendered by Mr. Harry Vessey "God Will Take Care of You."

Burial took place in the family plot in York Cemetery.

Address and Presentation

A large number of the residents of Webster's Corner and vicinity gathered at the home of Mr. and Mrs. Griffin on the evening of August 25th, to honor and bid farewell to them and their family previous to their departure for Charlotteown.

Mr. Eugene Callaghan was chairman of the evening, and in a few well chosen words explained the purpose of the meeting, and called upon Mr. Elmer Smith student at St. Dunstan's University, who capably read an address.

Mr. and Mrs. Tyrell Beard made the presentation of a pair of woollen blankets to Mr. and Mrs. Griffin and family, in behalf of the members of the community and individual gifts of money were given to them from friends outside the district.

Both Mr. and Mrs. Griffin feelingly replied and expressed deep appreciation for their gifts, and extended invitations to all to visit them at any time at their home in Charlottetown.

Complimentary speeches were then made by many, after which "For They Are Jolly Good Fellows" was sung, followed by a musical programme.

A delicious lunch was served by the ladies of the district and an enjoyable evening was brought to a close with the singing of "Auld Lang Syne" and "The National Anthem."

The following is the Address:—

To Mr. and Mrs. M. E. Griffin:

Dear Friends: — This evening your friends and neighbours of Webster's Corner and vicinity, have gathered here, to bid farewell to you, and to express our regrets that you are about to leave us for your home in Charlotteown.

Although moving from our midst, you go, doubtless with pleasant anticipations, and with some regrets, as you think of leaving your pretty home here, where the silver threads of the East River, winds rose-tinted between and beside farm lands, in August loveliness so soon to pass.

There is always a tinge of sadness associated with leaving one's community, but we know you will have cherished memories of this place, which we can claim as the birthplace of three of your children, whom we hope will look fondly back to the scenes of their youth as time rolls on.

In your sojourn, amongst us, we have been appreciative of your invaluable assistance, and have found you both ready and willing to do your share, in promoting the best interests of the community. Your help and kindness in trouble will ever remain in memory.

As General Merchant here, Maurice, you have been most successful in your business undertakings, and the people found you courteous and helpful, and ordering for the needs of your customers, seemed a pleasure.

The people of the district and especially the members of the Webster's Corner Women's Institute take this opportunity, Mary of extending to you, appreciation of your valued work in our Institute. Your cheerfulness was an inspiration to us all, and your willingness and ability to assist in all phases of this important work, will not soon be forgotten.

It is our fervent wish, that both you and your children may have health and happiness, and that you will visit us frequently, and tread again the familiar paths of other days.

We now ask you to accept these gifts as a token of our gratitude and friendships.

Signed in behalf of your friends of Webster's Corner and Vicinity.

D. D. T. Limitations in Food Shortage

According to the latest issue of the Forest Insect Investigation Bimonthly Progress Report, Division of Entomology, Science Service, Dominion Department of Agriculture, the results of the experimental aeroplane spraying operations with DDT (dichlorodiphenyl-trichloroethane) in the Kabonga area in the Province of Quebec may be considered successful, inasmuch as they yielded the needed information on both dosage and technique of application. However, results in percentage of control were variable, ranging from 20 to 90 per cent, the principal difficulties consisting of drifting of the spray through air currents and excessive atomization. The best results were obtained from dosage of 3 lb. of DDT in 3 gallons of diluent and 5 lb. of DDT in 5 gallons of diluent. These mixtures gave between 96 and 99 per cent control. In general, the work accomplished at Kabonga, states the Report, while proving that DDT kills the budworm both in its early and later stages of development, points to the need for a great deal of further study on methods of application.
