Say Husband Was Justified

(Special to The Guardian.)
FRESNO, Calif., Oct. 27.—Justifiable homicide was the verdict rendered today by a coroner's jury that inquired into the death of Mrs. Clara Harlow, nineteen months ago, when she was shot by her husband, George A. Harlow, thirty an electrician, was said to have clubbed her to death with a shotgun near their home at Northford early yesterday when he found her in the company of a young man of his age.

War Widows Have Great Advantage

(Special to The Guardian.)
OTTAWA, Oct. 27.—English writers are concerned themselves about the plight of girls of marriageable age whose matrimonial opportunities they claim are being prejudiced by the state-dowered attractions of war widows according to a news story on the front page of the Journal today.
Up to June last nearly a third of England's war widows had found solace in husbands, and of 236,000 women on pensions, 74,000 had remarried. Almost the same thing is true in Canada where in six years 3,251 war widows from a total of 13,000 have remarried, making the second marriages almost twenty-five per cent of the whole.
Analysis of the figures might cause more tears among Canadian girls, for 809 of the war widows were from England or the United States.
There was a steady crescendo of widows' weddings from March, 1916, to March, 1920. To March, 1917, the total number was 80, and 63 of the marriages in Canada. The following year it jumped to 360; in 1919 to 516 and from March 1919, to March 1920, reached 897. The next year the total was 772 and last year 626. Last month 47 pensionable widows took vows for the second time.

Protest Change in Armistice Day

(Special to The Guardian.)
OTTAWA, Oct. 27.—A protest against the changing of the date of Armistice Day in Canada was voiced in a resolution passed at yesterday's meeting of the Dominion Veterans' Alliance.
The resolution "urges that the government take immediate steps to rectify this change with the expression that such change of date is unpopular throughout Canada and certainly will never be recognized by the men who assisted in bringing about that armistice on the day of Nov. 11, 1918."
The resolution is being forwarded to the government.

Sir Henry Thornton Prepares for Coming To Canada

Discusses Railway Problem About to be Undertaken and Speaks Hopefully of the Task.

(Special to The Guardian.)
LONDON, Oct. 27.—Sir Henry Thornton, the newly appointed chief of the Canadian National Railways system, is the busiest man in London these days. A multitude of friends and organizations have asked him to crowd far-reaching functions into what few remaining days he will spend in England.
Discussing his plans for the re-organization of the National system, Sir Henry said in an exclusive interview "the first thing to do is to hammer these different railways into one physical entity."
"I am going on the assumption that the present officers are competent and efficient and until they are found to be otherwise they will be no disturbance and to commence a policy of importation which will be unfair and unwise," he replied.
Obviously in this as in many other businesses anyone who cannot pull his weight in the boat must give way to someone who can. But every man will have a fair run for his money."
The task would be to prevent the system becoming a financial burden of the people of Canada, Sir Henry said. "We must overtake the deficit and eliminate it."
The fourth and perhaps most important task he continued "is development. Use the railways in such a way as to develop the country more rapidly. If we do so we shall reduce the deficit as the success of railways depends upon the general success of the country and the efficiency of the railways."
Part of the development policy would be emigration of the right sort, and you—of the right sort," Sir Henry continued emphasizing the last three words by shaking his fist.
"There will have to be constructed branch lines and feeders wherever conditions justify, we must induce people to expand their effort and increase production."
When there is the development of the natural resources of the country and the attraction for investment, the key to the whole will be railway administration," he said.
LONDON, Oct. 27.—Speaking on his plans for the Canadian National Railways, Sir Henry observed that one part of the Grand Trunk was on the American side of the border. This he said is very important as it brings Canada's system in contact with the American and involves a large interchange of traffic.

Light Company Official Explains Local Difficulties

For the purpose of straightening out local electric light troubles, the secretary treasurer of the Maritime Electric Company, Ltd., Mr. C.A. Millie, who arrived in the city from Halifax Thursday night, spent a busy day yesterday inspecting the plant and interviewing City Council members and others interested. Mr. Millie in an interview with The Guardian stated that he believed the trouble was caused solely by the coal shortage resulting from strikes during the past three or four months, which put upon the company's hands an inferior quality of coal, though purchased in good faith as the kind required, if, however, it is found upon investigation that any of the local employees are in any way responsible for delays or interruptions in the light service, the company is prepared to dismiss them.
The Company could not secure the kind of coal suitable for gas producers—Connell Coal—the supply being cut on account of the above mentioned strike. There are four gas producers in the plant three for hard coal and one for soft coal. The company recently purchased in St. John the only two cars of hard coal to be had in eastern Canada at the time and sent them over here. The coal was not suitable and it was useless, or worse than useless to try and burn soft coal in the hard coal producers. They simply will not make gas sufficient to run the machines. For the soft coal producer they purchased Langan Coal from a local dealer and it was found after wards that the coal was not Langan and as a consequence did not give the results. Soft coal was then purchased from Truro, while the strike was on, taken from four different mines, but this stock was not adapted for producing gas, but produced clinkers which are now adhering to the fire box and which men are endeavoring to chop away.
Mr. Millie stated there were many places in the United States and Canada where the electric plants were compelled to reduce their service by half. In Trenton, Westville, New Glasgow and other towns in Nova Scotia where they operate a tram service, the service was cut down.
The company is fortunate in having received this week two cars of Connell hard coal and two more of semi-anthracite from Truro. Some Langan coal is expected shortly and there is every reason to believe that service from now on will be efficient in every way. It is to the advantage of the company as much as to the city to give the very best service Mr. Millie explained, because every minute lights are out there is an additional expense.
The frequent Sunday shut-downs throughout the summer have been caused by the same trouble—inferior coal, necessitating the frequent cleaning out of the producers. While it is true the plant is equipped with new machinery, and this year alone the company expended many thousands of dollars upon the plant. If, however, it is found upon further investigation that any new machinery should be installed, it will be done promptly.
Mr. Millie, however, is convinced that the trouble is now at an end. He wishes through the press to reassure citizens that the company will do everything possible to give efficient and satisfactory service.
A committee appointed by the City Council to look over the light plant performed their work before Mr. Millie's arrival and he is understood that they will report at the next regular meeting of the Council.

Thieves Secured \$2,000 Worth Jewels In Sackville Store

(Special to The Guardian.)
SACKVILLE, N.B., Oct. 27.—More than \$2,000 worth of jewelry, including watches, wedding rings, brooches, necklaces, etc., were taken by burglars who entered C. G. Steadman's jewelry store in Bridge street on Tuesday night. The thieves stripped the show-cases, leaving only jewelry boxes behind. The safe was untouched. Entrance was made through a window at the back.
This is the third time Mr. Steadman's store has been broken into, but on previous occasions the loss was comparatively small.
Only recently Turner Bros. store was broken into and some \$30 and \$40 worth of silver taken. Attempts have also been made to enter other business places.

Wide Depression In Ship Building

(Special to The Guardian.)
LONDON, Oct. 27.—World-wide depression in the shipbuilding industry has in no wise been relieved in the past year, states Lloyd's annual report, which points to continued stagnation in international trade. The report mentions that the tonnage now afloat exceeds the pre-war mercantile tonnage by some 15,000,000 tons. The actual tonnage holding Lloyd's classification in June last exceeded 27,000,000 tons, being the highest ever recorded, and if thereto is added 266 vessels totalling 1,500,000 tons gross.
Approximately half the tonnage classified by Lloyd's is British. The new tonnage amounts to 2,500,000 tons, which is 22 per cent below the previous year's increase.
An interesting sidelight is the progressive demand for oil burners and oil carriers. The former constituted 65 per cent of the latter year's new tonnage and the latter now total 5,000,000 tons, compared with 1,500,000 tons in 1914.
Internal combustion engine vessels continue to gain ground. There were 1,620 motor vessels, 1,500,000 tons in July compared with 297 vessels totalling 250,000 tons in July, 1914.
Military organization. Latest Rome despatches describing situation are of great confusion with wild rumors prevailing. All Fascist was organized to combat Socialists and Communists.

Rousing Welcome For Lloyd George At Colchester

(Special to The Guardian.)
COLCHESTER, England, Oct. 27.—Former Prime Minister Lloyd George, Lord Birkenhead the Lord Chancellor in the late Cabinet, the Lord Mayor of London and a group of his sheriffs were the principal guests given a rousing welcome today, among a party entertained by the mayor of Colchester here.
Lord Birkenhead, introducing Mr. Lloyd George at the banquet, said the former premier and himself, with a fuller realization than their opponents of the difficulties of the Government's problems would afford the Government every help within their power and would put the country before party.
Mr. Lloyd George followed with a brief speech.
"The mercury of the world's thermometer has not yet reached that mark which indicates health," he said, "it is nowhere near it, and until it reaches it there is real danger and cause for anxiety. The physicians who have been watching the case and doing their best to promote recovery, have said: 'Don't let us have a quarrel in the hospital until the patient has completely recovered.'"
The family Bible was produced from a load of luggage, and it disclosed that the party included: Ashbel, Archer and Austin, each four and a half years of age; Arthur and Arnold, each three and a half; Allen, Almon and Albion; each two and a half years; Alfred, Albert and Adolph, each 18 months; Abel and Abner, each six months.

Bluenose Sailor Drowned at Gloucester

(Special to The Guardian.)
GLOUCESTER, Mass., Oct. 27.—The schooner Bluenose will go back to Nova Scotia with flag at half mast. Bert Demore of Lunenburg, one of the crack members of the vessels crew and a nephew of Captain Angus Walters, was found dead in the Gloucester Harbor near a wharf today. Captain Angus relinquished command of the schooner and will accompany the body home. Medical authorities said Demore met death by drowning. Capt. Walters and the crew of the victorious Bluenose acknowledged Canadian messages of congratulations in a telegram received by evening mail this morning reading as follows:
"We wish to thank our friends in Canada for their congratulations on the Bluenose victory over The Ford."

Calgary Miners To Make Demands

(Special to The Guardian.)
CALGARY, Alta., Oct. 27.—Mine Workers of America, next spring will demand not only continuation of the present Union wage scale operative until March 31, 1923, according to agreement between the union and the Western Canada Coal Operators' Association, but also the six hour day and a five day week, it was announced at local union headquarters by district President Wm. Asherman yesterday.

Many Greeks Charged With High Treason

(Special to The Guardian.)
CONSTANTINOPLE, Oct. 27.—All the Greek soldiers who were formerly Turkish subjects have been isolated by the Turkish Nationalists for trial by special military tribunals, charged with high treason, according to advices received by American Relief Agencies here.
It is said that well informed circles that the Greeks will be put to death in massed executions in groups of a hundred or more. The "Alas" Missions in anticipation of something of this sort, have dispatched an appeal to the Angora government, asking that generously be shown these prisoners and declaring that "a generous amnesty would be regarded as a sign of weakness."
Cause of Greek Disaster
ATHENS, Oct. 27.—According to the latest report the former government officers and military chiefs arrested by the revolutionists at the time of the dethronement of King Constantine will be tried by an extraordinary court martial.
An investigator has been sent to Cofru by the commission in charge of the inquiry to question Andrew, brother of Constantine, on the charge that while at the head of an army corps in Asia Minor, he refused to execute an order, thus contributing to the disaster of the Greek arm.

Special Offerings on Sunday, Nov 5

(MONTREAL, Oct. 27.—Rev. Dr. Robert Laird, of Toronto, treasurer of the Presbyterian Church in Canada, speaking at the Y.M.C.A. here today, said that the general assembly of the church is asking for \$50,000 to meet its outstanding obligations and that Sunday, November 5, special offerings will be taken up for this purpose. The deficit has been caused in part by the large amount paid for foreign exchange and by fall in revenue and increase in expenditure. If not met there would be an inevitable curtailment of work at home and abroad. Of the amount asked for \$75,000 would be used to bring arrears of advertising charges up to \$18,000, and the balance would be devoted to repayment of deficits on the budget funds of the church.

Three Sets of Triplets and Two Sets of Twins

LAPORTE, Ind., Oct. 27.—Three sets of triplets and two sets of twins born to Mr. and Mrs. Frank Scott, in ten years of married life, established a record for the middle west, perhaps for the whole country.
The Scotts—the parents and 13 living children—boarded a west-bound train in search for employment to provide sustenance and employment for the whole family.
"We can't carry a Sunday School class, madame," remarked the conductor to the mother as she offered one fare. "But they are my children, Mrs. Scott replied.
The family Bible was produced from a load of luggage, and it disclosed that the party included: Ashbel, Archer and Austin, each four and a half years of age; Arthur and Arnold, each three and a half; Allen, Almon and Albion; each two and a half years; Alfred, Albert and Adolph, each 18 months; Abel and Abner, each six months.

Lunenburg "Went Wild" Over Victory of The Bluenose

(Special to The Guardian.)
LUNENBURG, N. S., Oct. 27.—Lunenburg may be described as having "gone wild" tonight over the final victory of their vessel, the Bluenose at Gloucester. Flags, fireworks and the fishing vessels which had been lying silent in the harbor since their last trip to the banks, boomed forth their jubilation from small cannon. It sounded like a bombardment.
There was a monster parade to-night with band and floats. The town of Lunenburg was represented by a car in a regatta of cabbages and sauer kraut and with five fishing skippers seated in it. A spectacular bonfire blazed the news from Blockhouse Hill.
