STARTLING WAR NEWS

(Continued From Page 1.)

made prisoners."

THE WHITE FLAG IS CARRIED AWAY.

A dispatch from Brindisi to the Messagero says that the two Italian destroye Aetigliere and Fuciliere stopped an Austrian mail steamer near St. Jean de Madna. The commander Biscoretti went aboard the steamer, his boat carrying a white flag. On the return to the Artigliere the white flag was blown away, and the cliffs. The boat reached the Artigliere in safety and the Italians returned the fire, not less than 200 shots being fired. The Turkish batteries, two encampments and a barracks, were destroyed and a large number of Turks were killed or wounded. The engagement lasted more than half an hour.

THE VIEW OF ITALIAN PREMIER.

Premier Giolitti, in a speech at Turin today, outlined the policy of the government with reference to Tripoli, which seems to have the support of most of the members of the chamber of deputies and a great majority of the people.

Signor Bisolati, leader of the socialists in the chamber, however, writes to the Secolo, giving the view of a section of the democrats and socialists differing from that of the nation at large. Signor Bisolati was the first of his party to be receive by the king. When during the last ministerial crisis the premier offered him a portfolio. In his letter to the Secolo he says:

WHAT SOCIALIST LEADER SAYS:

"Now that the occupation is accomplished, it must be decided whethre Tripoli will be considered conquered territory unconditionally or whether Italy is ready to compromise. Stopping the war, sparing Turkish excessive humiliation and satisfaction, and thus rendering resumption of the good relations between the two states possible."

Signor Bisolati expresses the opinion that it will be necessary for Italy "to adopt a less brutal and dangerous solution" so as to remove the impression that violence has been used against Turkey and that Italy should show a spontaneous conciliatory disposition, thus apoid- ing "such measures as may be proposed if not imposed by the powers."

Dispatches reaching here from Tripoli indicate a great activity among the Italian forces at various points along the coast in preparation for the landing of troops. It is even reported that the natives are sympathetic in their attitude. The Turkish soldiers in Tripoli are said to be in a demoralized state, and altho some of them are camped five miles from the city and are protected by small forts on the hills, they have not even attempted to molest the invaders.

S. Crozier is finding his work congenial.—W. K. Basset has returned from Western Canada where he has spent several months.

TWO KILLED, ELEVEN INJURED IN COLLISION.

ROCHESTER, Mich., October. 7—Two people were killed and eleven injured, one probably fatally, early tonight when a Detroit United railway work car attached to two cars loaded with cinders crashed into the front end of the north bound Detroit United railway Fline limited about a mile north of Rochester. The dead are: Daniel Fallon, aged 50, Flint, grocer; R. E. Lee, 35, Oxford, Mich. Eight of the injured were taken to Detroit and the others are being cared for here. The limited was crowded with passengers and almost without warning the work car plowed throught the front vestibule nearly to the rear of the smoking compartment. How more people were not killed is a mystery. Conflicting reports have been received regarding the speed of the cars and one of whom disobeyed orders.

Cut Out" Coal Extravagance

There's just as much room for economy in buying coal as any other necessity of life.

While Inverness Coal has more heat units to the ton than any other coal it costs no more than the common coal.

The use of a little judgment or "horse sense" will tell any person that the coal with the greatest amount of heat-producing qualities is the most economical to buy. Inverness is properly screened coal—every particle of foreign matter is extracted, leaving nothing but a good, uniform standard of clean, screened coal.

Buy the coal that will save dollars.
