## HOW LONG since you looked at your roof?

OLD roofs aren't to be trusted. There's no telling when they'll leak or catch fire.

Ask us to send an expert to inspect your roof, without cost to you. He'll give you a frank report on its condition.

Repairing and re-roofing are our specialty. If you need a new roof we recommend Johns-Manville Asphalt Shingles—colorful, moderately priced, fire-and-weather resistant, and long-lived.

Today you can buy a new Johns-Manville roof outright, or pay for it under J-M's own deferred payment plan. That's an advantage. Let us tell you about it.

—PASSED AWAY IN WASHINGTON—There passed away in Washington, D. C., on Monday, June 19th, Miss Mary A. Kennedy at 66 years of age. Miss Kennedy was born at Waterford, P. E. I., and was the daughter of the late James Kennedy. She had resided in the United States for over thirty years as a children's nurse, but often visited her island home, where she will be kindly remembered by old friends. She had been ill for about six months before she passed away. There are left to mourn two brothers, P. W. Kennedy of Garry, Indiana and Albert at Waterford, P. E. I. The remains arrived by the evening train on Thursday at Summerside and were conveyed by motor hearse to her brother's home at Waterford. The funeral is taking place this morning to Palmer Road Church and Cemetery.—S.

—CONCERT ENJOYED—Lovers of music received an unexpected treat when Mr. Copeland, pianist and singer, and Mr. Duff, violinist, both of Scotland, delighted a very large audience for over two hours in the spacious hall in Malpeque, Friday evening, June 16th. These entertainers cast a spell over their audience with their violin and piano selections, song and mirth. The performance was one of an order that has been rarely, if ever, excelled in Malpeque. Judging by the enthusiastic comments of the audience and the rapt attention with which every number on the program was received, it was something that will be long remembered by every one who was present, and they will undoubtedly receive an enthusiastic reception on their next visit. On Sunday these talented artists assisted in the service of praise in Princetown United Church. Mr. Copeland presided at the organ, also singing several solos, much to the delight of all. Mr. Duff assisted with a violin solo and violin obligato and by his magnificent handling of the violin, added greatly to the musical portion of evening service. It was indeed a rare privilege to hear such splendid music; and their services were greatly appreciated by all.

### NEW TRAIN PLANNED

CHICAGO, June 23.—Contracts were completed today for the construction of a stainless steel train for the Chicago, Burlington and Quincy Railroad, capable of travelling 120 miles an hour.

The train will comprise three cars built as an articulated unit, powered by a Diesel electric motor. Engineers of the Burlington road have been studying blue prints for several months with automotive engineers, and determined to proceed with construction of one train intended to be ready for experimental service in actual public use by fall.

Equipped with a 600 horsepower engine and intended to carry five persons at a speed of 160 miles an hour, the world's largest auto-toro is being built in England.

### NOTE ON DOUGHNUTS

About 2,500,000,000 doughnuts are eaten annually on the North American continent, according to a survey made—believe it or not—by the Department of Physiological Chemistry of Yale University. Since doughnuts were invented, it has been the general belief that they are among the most indigestible of foods, owing to their mode of production.

It will be seen, therefore, that if two and a half billion doughnuts are consumed annually on this continent and if doughnuts are indigestible, there must be a lot of indigestion in the land. It was to get at the truth of the matter that the Department of Physiological Chemistry at Yale began its historic and far-reaching survey.

With relief and pleasure we are happy to pass on to our readers the news that, according to the D. M. P. C. at Yale, crullers are innocent of the charge of indigestibility. In order to establish this fact, the investigators took six men who indulged in various diets which included doughnuts. Without going into the voluminous and sometimes indelicate details, let us report at once that "it was found that there were no untoward effects on the health of the men when they consumed as many as six doughnuts a day for six consecutive days."

The world is indebted to Yale for so dispelling of the canard about the domestic doughnut.

also a member of the Moncton Hawks, but very little used last winter, is said to be signed up with Halifax for 1933-34.

Negro runners are literally running away with the sprint honors in the U. S. A. The latest marvel is Jesse Owens, who has only recently completed his 18th year. At the National Scholastic games in Chicago he equalled the world's record for the hundred yards, 9.4 secs. and also won the 200 in 20.7 secs. and the broad jump with 24 ft. 9 5/8 ins.

We notice where Lawson Robertson, one of the greatest coaches in the U. S. A., says the reason why negroes are so successful in recent sprinting competitions is because they have "no nerves". Rather we would think that they must have better nerve co-ordination than whites. No athlete can be successful in sprints or anything requiring expenditure of energy without being choofy of nervous vitality. On the other hand nerve control means that when the moment of competition arrives he is not disheartened but can bring every particle of resource properly co-ordinated to the task.

Bobby Jones, the great golfer, Gene Tunney, world's champion pugilist, were two of the most outstanding instances of nervous control in recent years.

Night baseball has been given a bad wallop in Los Angeles, California, due to the return of beer. There has been such a demand for the foaming beverage that the erst-while night fans forgot about the baseball.

Preliminary to the British Open Golf Championship tourney at St. Andrews, Scotland on July 3rd, teams of the United States and English professional golfers will engage in the Ryder Cup Match at Southport, England, on Monday and Tuesday. The Americans have a strong array headed by Walter Hagen, Gene Sarazen, Leo Diegel, etc., etc.

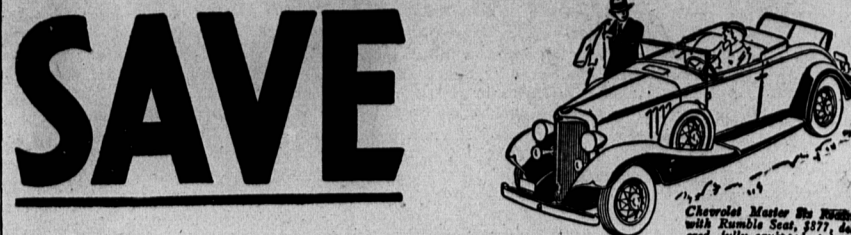

King Alfonso of Spain has recently been taking golf lessons in England to perfect his swing. The day was warm and Pons had removed coat and vest and was playing in shirt sleeves with bright coloured suspenders.

One of the greatest gatherings of athletes the world has ever seen, with the exception probably of the recent Olympic games, will take place at Soldiers Field, Chicago, on Thursday, Friday and Saturday, June 29, 30 and July 1st. The very best male and female athletes in America including Olympic Champions and world's record holders, will clash. Dr. Patrick O'Callaghan is coming over from Ireland to toss the 16 pound hammer. He is Olympic Champion. California will be represented by Bill Eastman, holder of the half mile record, Jimmy Lu Valle, who recently won the Intercollegiate Championship at 400 metres and other stars.

On Tuesday, the opening day of the Bay State Circuit at Southbridge, Mass. Miss Volo by Peter Volo, lowered the track record from 2:05 3/4 to 2:05. This is the fastest mile that we have recollection of over a half mile track this early in the season in the New England States. Miss Volo won the 2.13 class.

Eight hundred thoroughbreds are quartered at Rockingham Park, Salem, N. H., where racing started on Wednesday afternoon. The first pari-mutual betting in the New England States, at least for many years, was indulged in and the speculation was quite heavy.

Commenting on the fact that five world's records were made in the National College games recently held in Chicago, claims are being made in some quarters that the timers are too fast in Chicago. Next week's National Championships will give doubters a chance to do some clocking themselves.

**BOSE VALLEY WOMEN'S INSTITUTE**  
The June meeting was held on Wednesday evening, June 14th. There were seven members, and three visitors present. The meeting opened as usual, with singing, creed, roll call and reading of the minutes. Sick committee had nothing to report, and a new sick committee was appointed for next three months, Mrs. H. D. Dixon, and Mrs. Wm. Mathieson. Some new business was taken up, and a meeting will be held at the school directly after the school examination on Friday evening, June 30th. All the members are requested to be present.  
Correspondence consisted of a letter from the Fredericton Institute, notice of a preparatory meeting to be held previous to the District Convention. The President attended that meeting and reported. A notice of the annual convention was read, and delegates, Mrs. H. D. Dixon and Mrs. J. W. MacKenzie were appointed. A letter was read from the Sanatorium Commission, they also sent the annual report. A

letter was read from the Motor Vehicle Association concerning the distribution of reflectors. A paper entitled "Education" was read by Marion Blondin. Business part of meeting closed by singing National Anthem. The program committee gave two numbers, a humorous reading, "Aunt Hannah Hayseed Joins a Lodge," and a recitation, Our Institute, by Maud Mathieson. Some phonograph selections followed. Lunch was served and a social half hour enjoyed. Next place of meeting, Mrs. Wm. Mathieson's on Tuesday evening, July 11th. Program Committee, Mrs. H. D. Dixon, Mrs. K. H. MacKenzie, and Mrs. Wm. Cousins. Roll call to be answered by "How to Improve Our Institute."

**Ghosts Fail To Perform**  
STE. JEANNE D'ARC D'ALMAVILLE. Que June 23—(C.P.)—Whether the glare of publicity has frightened Ste. Jeanne d'Arc's family of ghosts away from their haunt ed flat on the edge of the village or whether plain domestic felicity has kept their family circle unusually quiet for the past two or three nights is engaging the gossip. For a month past, the village say, the three ghosts, farther mother and child, have staged a nightly quarrel in an empty dwelling much to the alarm of the other occupants of the block of flats. A small band of fearless citizens of Shawinigan Falls came out the village and watched outside the house the other night but nothing happened. Last night was equally quiet on the spook front. Tonight is—another night. Will the ghosts be on the warpath? Mother—Did I see you kiss that young Allen last night? Beryl—Well, mother, he told he had just lost an uncle and I was sorry for him. Mother—If I know anything about that young man he would have a relative left in a week's time! Nene but the brave deserves a fair—Dryden.
