It means just as much to you to know who makes the best paints and varnishes as it does to know who makes the best shoes, woolens, foods. It is just as important to get the right paint or varnish for a surface as it is to get the best. That is why you should never forget the name Sherwin-Williams when you have need of any treatment for any surface—paint, varnish, stain or enamel—because they make a finish for every surface—the right quality—the best for the purpose.
