—TOURED NEW ENGLAND STATES — A motor party consisting of Mr. and Mrs. Joseph W. Sheen, James Sheen, Orville Clark and Mrs. Heath Bowness, all of Kensington returned last week from a visit to New England States and Boston. They were in Boston during the hot wave, when the thermometer registered 95 degrees Fahr. They speak most favorably of the courtesy of police and other American officials with whom they had occasion to come in contact. According to the law of averages, ratios, etc., a proportionate quota of our citizens go on tours abroad. It is tolerably certain that their courtesy, prosperous appearance and general deportment creates a favorable impression. P. E. Island license plates ought to be fairly well known east of the Mississippi and north of the Potomac. There is no excuse for any adult or adolescent Canadian not knowing the location and history of this province. Occasionally a cry is raised to high heaven that somebody or other had never heard of this province. That is no cause for panic. There are certain apparently prosperous, well educated, cosmopolitan people who have poor "bumps" of location. They can't trust themselves to say definitely where any certain place is located — in juxtaposition to any other given place. That kind of a category of people will not be a help to tourist trade. They are not qualified by nature to be tourists. If an odd voice cries out that he has never heard of us, let us not be downcast, the "heavens won't fall" We are not the lost "Atlantis."—K
