A GREAT ASSET to KENSINGTON—a new industry is to be started in Kensington in a few days—one that has been necessary for many years and will be highly welcomed by all the local foxmen. It is a fur pelting and cleaning plant. This boon to the fox-breeding community is being inaugurated by one of the local businessmen. The plant will be operated in the McMahon building in the premises formerly occupied by Mrs. Hope. Drums are being installed immediately. Buyers representing well-known fur houses will be at this plant during the fur season to buy furs outright or on a consignment plan. All furs taken at this plant will be insured. The pelting is to be done by an expert pelter. It is expected that the plant will be in operation in a short time. Watch this paper for further particulars.

North Shore Hockey Gossip
Rumors, rumors, are all you hear every where in the Maritimes concerning this season's hockey, but in the vicinity of Kensington, which is the battle grounds of the North Shore League, facts are beginning to fly around.

The constitution was threshed out and a few minor changes made. Meeting was then adjourned and a meeting will be held on Dec. 3rd when further details will be talked over. There is much promise of an even more successful year than last.
